**Patience and Fortitude** Scott Sherman, 2017-09-26 A riveting investigation of a beloved library caught in the crosshairs of real estate power and the people's interests by the reporter who broke the story In a series of cover stories for The Nation magazine journalist Scott Sherman uncovered the ways in which Wall Street logic almost took down one of New York City's most beloved and iconic institutions the New York Public Library In the years preceding the 2008 financial crisis the library's leaders forged an audacious plan to sell off multiple branch libraries mutilate a historic building and send millions of books to a storage facility in New Jersey Scholars researchers and readers would be out of luck but real estate developers and New York's Mayor Bloomberg would get what they wanted But when the story broke the people fought back as famous writers professors and citizens groups came together to defend a national treasure Rich with revealing interviews with key figures Patience and Fortitude is at once a hugely readable history of the library's secret plans and a stirring account of a rare triumph against the forces of money and power

**The New Woman as Librarian** Clare Beck, 2006-08-31 At the time of her death it seemed that Adelaide Hasse would simply pass from memory and be forgotten However by the turn of the century American Libraries would sanctify her as one of its hundred library leaders of the twentieth century one of only thirty women given this honor Thus the unsinkable Adelaide Hasse has risen to the status of a giant of the profession and has been established as a sort of patron saint of documents librarians The Government Printing Office even named a room in her honor in 1985 Though much of her career has remained obscure Hasse did leave records that could provide a more balanced understanding of her life and work Besides the extensive print record in periodicals and The Compensations of Librarianship there were the long submerged archival records awaiting discovery in the New York Public Library Archives the Library of Congress the National Archives and the files of the FBI as well as in the papers of various contemporaries Hasse spoke and wrote about issues that are as relevant today as they were a century ago How should librarians be recruited and educated What is the nature of their professional expertise How do libraries function as organizations What services do they provide How do they provide access to government information What are the dynamics of a feminized profession Hasse tried to stir such discussion but her ideas were often submerged in allegations that she was a difficult disloyal woman This biography brings to light Hasse's achievements setting aside enigmas of personality and examines the impact of her work her values and her experience in a gendered system

Constructing Black Education at Oberlin College Roland M. Baumann, 2014-07-31 In 1835 Oberlin became the first institute of higher education to make a cause of racial egalitarianism when it decided to educate students irrespective of color Yet the visionary college s implementation of this admissions policy was uneven In Constructing Black Education at Oberlin College A Documentary History Roland M Baumann presents a comprehensive documentary history of the education of African American students at Oberlin College Following the Reconstruction era Oberlin College mirrored the rest of society as it reduced its commitment to black students by treating them as less than equals of their white counterparts By the middle of the twentieth century black and white student activists partially reclaimed the Oberlin legacy by refusing to be defined by race Generations of Oberlin students plus a minority of faculty and staff rekindled the college s commitment to racial equality by 1970 In time black separatism in its many forms replaced the integrationist ethic on campus as African Americans sought to chart their own destiny and advance curricular change Oberlin s is not a story of unbroken progress but rather of irony of contradictions and integrity of myth and reality and of imperfections Baumann takes readers directly to the original sources by including thirty complete documents from the Oberlin College Archives This richly illustrated volume is an important contribution to the college s 175th anniversary celebration of its distinguished history for it convincingly documents how Oberlin wrestled over the meaning of race and the destiny of black people in American society
