young readers to the mystery wonder and beauty of the quarter of our world that s frozen with this picture book companion to the BBC Earth series *Frozen Planet* narrated by Sir David Attenborough In the sparkling kingdom of the frozen parts of Earth there are amazing animals who survive bitter snowstorms towering icebergs and frozen seas Dive under the ice to swim with seal pups meet a Greenland shark who is likely 250 years old and spot a snoozing windy walrus Watch orcas sneak up on whales as they relax in the spa and hold your breath as wolves play a deadly game of hide and seek in a frozen forest in this fascinating nonfiction picture book *Planet Neptune and the Modern Us Presidents: Franklin Roosevelt to Barack*

Obama Suzanne Angioli,2016-04-05 While studying the astrological birth charts of all the US presidents I discovered that those of the thirteen modern US presidents from Franklin Roosevelt to Barack Obama all had the natal Sun the planet most associated with ones basic identity making an aspect certain designated degrees between two planets to their natal Neptune This was surprising since I would have thought that politicians particularly those aspiring to the presidency would have an overwhelming emphasis on the Sun Mars aspect but not on the Sun Neptune aspect What I discovered in my research was

that good politicians are not warriors Sun Mars per se who use the techniques of warfare to muscle their way through adversity Rather they are good actors Sun Neptune who are essentially chameleons Sun Neptune operating in the foggy Neptune realm of subtlety Neptune and seduction using their sensitivity Neptune and charm Neptune to serve their intuitive Neptune sides to try to achieve their goals It became apparent that a good politician is excellent at assuming different roles in order to fit a given political situation and move his agenda forward The Sun in aspect to Neptune is not unusual but there is no aggregate population that has 100 percent of its members with this aspect like the modern presidents I was intrigued with this occurrence and thus set out to research their individual biographies to see just how this aspect played out in their lives After all it seemed to be almost a prerequisite for being elected to the modern Oval Office *DK SUPER PLANET Global Gardens* DK,2025-04-22 Grow your knowledge of our world by exploring these glorious green spaces from hot desert oases to icy Antarctic gardens DK Super Planet Global Gardens is part of the new DK Super Planet series and children aged 5 7 to explore the fascinating environments on our planet and the animals that live in them Captivating and curriculum aligned this book is the perfect support for learning about the wonders of our planet It covers core scientific content including ecosystems the continents and the different habitats that plants and animals live in This science book for children offers A guide to reading through curriculum aligned content and exciting illustrations A highly visual approach that makes the association between words and where they originate easier to understand Material to help children become more confident readers speakers and spellers Captivating and curriculum aligned content diagrams and hands on experiments provide an immersive learning experience while covering core information about a range of ecosystems With specially designed sections that build scientific vocabulary and make complex concepts accessible to children Global Gardens is the ideal companion to any science learning Transform learning into an adventure with DK Super Planet bringing science to life on every page
