barrowed from various artists teachers schools of art movements throughout history but combined with new ones invented or adopted from any knowledge field science in special literature etc by the artist himself. The artist can use a multi structure and multi space. The distinction between Eclecticism and Unification of Art Theories UAT is that Eclecticism supposed to select among the previous schools and teachers and procedures while UAT requires not only selecting but also to invent or adopt from other non artistic fields new procedures. In this way UAT pushes forward the art development Also UAT has now a larger artistic database to choose from than the 16 th century Eclecticism since new movements art schools styles ideas procedures of making art have been accumulated in the main time Like a guide UAT database should periodically be updated changed enlarged with new invented or adopted from any field ideas styles art schools movements experimentation techniques artists. It is an open increasing essay to include everything that has been done throughout history. This album presents a short panorama of commented art theories together with experimental digital images using adopted techniques from various fields in order to inspire the actual artists to choose from and also to invent or adopt new procedures in producing their artworks.
