Brennan,Tingxuan Li,2020-02-21 Culture is a living thing In social settings it is often used to represent entire ways of life including rules values and expected behavior Varying from nation to nation neighborhood to neighborhood and beyond even in the smallest localities culture is a motivating factor in the creation of social identity and serves as a basis for creating cohesion and solidarity This book explores the intersection of culture and community as a basis for locally and regionally based development by focusing on three core bodies of literature theory research and practice The first section theory uncovers some of the more relevant historical arguments as well as more contemporary examinations Continuing the research section sheds light on some of the key concepts variables and relationships present in the limited study of culture in community development Finally the practice section brings together research and theory into applied examples from on the ground efforts During a time where the interest to retain the uniqueness of local life traditions and culture is significantly increasing in community based development the authors offer a global exploration of the impacts of culturally based development with comparative analysis in countries such as Korea Ireland and the United States A must read for community development planners policymakers students and researchers **Understanding Peace Cultures** Rebecca L. Oxford,2014-03-01 Understanding Peace Cultures is exceptionally practical as well as theoretically grounded As Elise Boulding tells us culture consists of the shared values ideas practices and artifacts of a group united by a common history Rebecca Oxford explains that peace cultures are cultures large or small which foster any of the dimensions of peace inner interpersonal intergroup international intercultural or ecological and thus help transform the world As in her earlier book *The Language of Peace Communicating to Create Harmony* Oxford contends here that peace is a serious and desirable option Excellent educators help build peace cultures In this book Shelley Wong and Rachel Grant reveal how highly diverse public school classrooms serve as peace cultures using activities and themes founded on womanist and critical race theories Yingji Wang portrays a peace culture in a university classroom Rui Ma s model reaches out interculturally to Abraham s children Jewish Christian and Muslim youth who share an ancient heritage Children s literature Rebecca Oxford et al and students own writing Tina Wei spread cultures of peace Deep traditions such as African performance art Buddhism Daoism

Confucianism and Islam give rise to peace cultures as shown here by John Grayzel Sister Jewel a colleague of Thich Nhat Hanh Yingji Wang et al and Dian Marissa et al Peace cultures also emerge in completely unexpected venues such as gangsta rap unveiled by Charles Blake et al and a prison where inmates learn Lois Liggett's spiritual semantics Finally the book includes perspectives from Jerusalem by Lawrence Berlin and North Korea and South Korea by Carol Griffiths to help us envision and hope for new transformative peace cultures where now there is strife

Taking It to the Streets Jennifer Baldwin, 2018-12-18 Taking It to the Streets Public Theologies of Activism and Resistance is an edited volume that explores the critical intersection of public theology political theology and communal practices of activism and political resistance This volume functions as a sister companion to the text Religion and Science as Political Theology Navigating Post Truth and Alternative Facts and focuses on public civic performative action as a response to experiences of injustice and diminishments of humanity There are periods in a nation's civil history when the tides of social unrest rise into waves upon waves of public activism and resistance of the dominant uses of power In American history activism and public action including and

extending beyond the Women's Suffrage the Million Man March protests against the Vietnam War the Civil Rights Movement Boston Tea Party Black Lives Matter the Stonewall Rebellion are hallmarks of transitional or liminal moments in our development as a society Critical periods marked by increases in public activism and political resistance are opportunities for a society to once again decide who we will be as a people Will we move towards a more perfect union in which all persons gain freedom in fulfilling their potential or will we choose the perceived safety of the status quo and established norms of power Whose voices will be heard Whose will be silenced through intimidation or harm Ultimately these are theological questions Like other forms of non textual research subjects movement dance performance art public activism requires a set of research lenses that are often neglected in theological and religious studies Attention to bodies as a category performance or epistemological vehicle is sorely lacking so it is no wonder that attention to the mass of moving bodies in activism is largely absent Activism and public political resistance are a hallmark of our current social webbing and deserve scholarly attention
