Piriou, 1993-01-01 Rapports Joel Walz, 1993 Rapports Walz Joel Walz, Jean Pierre Piriou, 1985-01-01 **Teaching Culture in Introductory Foreign Language Textbooks** Carol A. Chapelle, 2016-07-30 This book demonstrates how foreign language textbook analysis can inform future materials development to improve foreign language teaching Through chronological analysis of French textbooks in the United States this book explores the representations of Canada and Quebec in French beginner textbooks produced from 1960 to 2010 Chapelle couples a large collection of 65 textbooks with a social semiotic qualitative analysis of the genres language and images that communicate Quebec's cultural narrative to learners Findings about the amount and type of content are presented by decade to track the trends in foreign language teaching and changes in Quebec's representation Particular attention is given to how language politics is presented to students through text and images This book will be of interest to scholars of Canadian Studies Quebec Studies and Second Language Acquisition as well as foreign language materials developers *European Encounters: Language, Culture and Identity* Irén Annus, 2015-01-01 This volume is a collection of studies that analyze cultural encounters in Europe from multidisciplinary perspectives The book faithfully reflects the research conducted at various departments within the Faculty of Arts and Letters at the University of Szeged Hungary The idea for the collection was conceived during a dissemination meeting for a four year research project involving some of the authors known as Languages in a Network of European Excellence LINEE cofounded by the European Commission FP6 contract 28388 whose generous support also made the publication of this volume possible for which I would like to extend my gratitude here Our contemporary world has been persuasively described in a wealth of literature as an era of postmodernity characterized by a series of particular features including the development of digital culture and mediation an intricate interplay between globalization and localization the compression of time and space the rapid and constant movement of information and of people as well as the crossing of boundaries both in symbolic and concrete terms Lyotard Harvey and Appadurai Modernity among others It has been depicted as a transitory period marked by a series of turns linguistic cultural and pictorial visual e.g. by Rorty Jameson and Mitchell that have captured new mental frameworks for the comprehension of realities and resultant principles and processes of knowledge production also opening up avenues towards pluralism the politics of identity and difference and the centrality of issues concerning discourse power and ideology Calhoun Gupta and Ferguson Fairclough etc Having investigated various aspects of globalization Appadurai Disjuncture concluded that one way to understand this phenomenon is through the notion of cultural flows a concept that captures the speed and dynamism with which particular cultural forms and practices may travel and gain recognition outside of the local cultures within which they appear He proposed that these global cultural flows can best be explored through five imagined dimensions often in disjunction with each other ethnoscapes mediascapescapes technoscapescapes financescapescapes and ideoscapescapes Of

these the studies in this volume focus primarily on ethnoscaples and ideoscaples the cultural flow that both the movement of people be they students tourists immigrants or artists and that of ideas from subcultures to teaching paradigms bring about and the representation of the various encounters these entail in language use cultural production and identity constructions This collection of studies tackles some of these issues as they appear in Europe particularly within the boundaries of Hungary where they have received particular attention after Hungary joined the European Union in 2004 Hungary s accession introduced not only EU rules norms and expectations to the country but also encouraged the flow of people cultural exchange and cooperation within the EU in numerous ways such as research projects and academic exchange programs e g Tempus and Erasmus and cultural projects such as the European Capital of Culture award program In the implementation of the various programs and broad cooperation upon which a united Europe may emerge it is imperative to ensure communication thus language teaching and learning and the attainment of a particular level of proficiency have received particular attention within the EU All this in a broader context can be regarded as part of the problematization tied to the word European including the construction and meaning of a European identity particularly in relation to other such as national regional and local identities while not being blind to other powerful factors such as ethnicity religion and gender that also shape self identities in compelling ways The authors in this volume represent a multiplicity of academic fields from linguistics and literary criticism to cultural anthropology and cultural studies They share the characteristic of reaching across traditional methods and disciplines thus typically applying an interdisciplinary approach in their investigations all of which focus on the construction mediation outcome or impact of cultural encounters in a variety of contexts Except for one all of these studies explore particular aspects of contemporary issues and practices As reflected in the subtitle of the volume the papers have been organized around three major themes language use cultural interaction and identity construction The first set of studies investigates the significance of language in the postmodern age Globalization is often associated with tendencies towards standardization and homogenization e g Featherstone in the course of which English is becoming the global language and culture is becoming more and more dominated by American and Western European models Smith 14 In this context issues such as the way in which English is used in the global community the forms of power English may represent in particular local communities or the washback effect this global role may have on emerging techniques used in the English as a Foreign Language EFL classroom require further investigation *Georgetown University Round Table on Languages and Linguistics (GURT) 1991: Linguistics and Language Pedagogy* James E.
