the day that he pulled the trigger The fascinating yet frustrating thing about Ruby is that there is evidence to paint him as at least two different people Much of his life story points to him as bumbling vain violent and neurotic a product of the grinding poverty of Chicago s Jewish ghetto a man barely able to make a living or sustain a relationship with anyone besides his dogs By the same token evidence exists of Jack Ruby as cagey and competent perhaps not a mastermind but a useful pawn of the Mob and of both the police and the FBI someone capable of running numerous legal illegal and semi legal enterprises including smuggling arms and vehicles to both sides in the Cuban revolution someone capable of acting as middleman in bribery schemes to have imprisoned Mob figures set free Cultural historian Danny Fingeroth s research includes a new in depth interview with Rabbi Hillel Silverman the legendary Dallas clergyman who visited Ruby regularly in prison and who was witness to Ruby s descent into madness Fingeroth also conducted interviews with Ruby family members and associates The book s findings will catapult you into a trip through a house of historical mirrors At its end perhaps Jack Ruby s assault on history will begin to make sense And perhaps we will understand how Oswald s assassin led us to the world we live in today

Lasers in Dermatology Sean W. Lanigan,2012-12-06

Over the past decade there has been a huge increase in interest in the use of lasers in dermatology The number and choice of lasers have increased dramatically This has expanded the number of conditions treatable by lasers and also the number of clinicians now wishing to include dermatological lasers in their therapeutic armamentarium Marketing forces and commercial pressures have led to a situation where lasers are purchased and used without a broad based understanding of this important and developing field The aim of this textbook is to provide a comprehensive guide to the theoretical and practical aspects of lasers used in the fields of dermatology and plastic surgery I would hope this book would allow the trainee consultant dermatologist or plastic surgeon to gain a full understanding of all aspects of lasers in dermatology both from the basic science and safety aspects through to the most appropriate choice of laser for the treatment of most particular conditions This however is not a how to cook book guidance only on treatment is provided based on my own experience and published research Full understanding of the whys and whens of treatment are the aim coupled with an extensive review of current and cutting edge research This textbook will be an ideal complement to practical hands on laser training to provide the clinician with all that is necessary for safe and competent practice in this field vii i r Acknowledgements
