A Scientist of the Invisible A. P. Shepherd, 1969 A Scientist of the Invisible an Introduction to the Life and Work of A Scientist of the Invisible. An Introduction to the Life and Work of Rudolf Rudolf Steiner A. P. Shepheard, 1964 **Steiner.** [With a Portrait.]. Arthur Pearce SHEPHERD,1954 The Development of Anthroposophy since Rudolf Steiner's Death T.H. Meyer, Paul V. O'Leary, 2014-11-01 This volume begins with Thomas Meyer's assessment of Anthroposophy s evolution since Rudolf Steiner's death and its future prospects He offers an overview of the eighty seven years of the development of the anthroposophic movement and the Anthroposophical Society the worldwide organization headquartered in Dornach Switzerland since the death of its founder The Society went through a very difficult and controversial period in the ten years following Steiner's death which culminated at its Annual Meeting in 1935 The result was the expulsion from the Society of two members appointed by Rudolf Steiner to its Executive Board Vorstand Ita Wegman and Elizabeth Vreede as well as the British and Dutch branches of the Society and many important anthroposophists who opposed the expulsions Meyer whose many books include Rudolf Steiner's Core Mission reveals the extraordinary concordance of four November 17 dates highly significant in the development of Anthroposophy On November 17 1901 the anniversary of the founding of the Theosophical Society in 1875 Marie von Sivers asked Rudolf Steiner to create an esoteric path suited to the Western mind which set Steiner on his mission On November 17 1923 Ita Wegman urged Steiner to establish a new Society

with Steiner himself joining as both a member and its president Twelve years later on November 17 1935 the remaining three individuals of the Executive Board wrote to Adolf Hitler to plea for the Society's continued existence in Germany after being banned in Germany by the Nazi regime Profound connections underlie these events Four appendices supplement the present volume Appendix 1 presents a Chronology that denotes by year and day significant episodes in Steiner's life and in the development of Anthroposophy The remaining appendices feature for the first time in English in one volume significant documents pertinent to the Anthroposophical Society s Easter 1935 Annual Meeting Appendix 2 contains the Memorandum written by supporters of Marie Steiner setting forth a list of grievances in support of the expulsion motions adopted at the 1935 Annual Meeting Appendix 3 records Ludwig Polzer Hoditz s address in response to the 1935 Annual Meeting counseling against the expulsion measures Appendix 4 contains the letter in English and German written by the Society's Executive Board to Adolf Hitler This important book offers profound insights into the struggles for individual freedom and voice during the early years of the Anthroposophical Society Seeing the dynamics of that struggle can help us today to overcome differences to work toward common purpose both in the context of our everyday lives and within a spiritually oriented The Temple Sleep of the Rich Young Ruler Edward Reaugh Smith, 2011-11 Who wrote the Gospel of John The author identifies himself only as the disciple whom Jesus loved and Christian tradition tells us that this disciple was the apostle John However during the past century scholars have increasingly come to doubt that attribution In 1902 Rudolf Steiner wrote that the author of the Gospel of John was in fact Lazarus Steiner's position stemmed from his insight that Lazarus s encounter with death involved far more than people realized an initiation into higher spiritual realities that uniquely qualified him to write this gospel Edward Smith takes up this argument and shows that subsequent research has tended to favor Lazarus for reasons grounded in John's Gospel itself More important Smith shows that subsequent discoveries at Nag Hammadi and Mar Saba corroborate Steiner's reasoning about the nature of the raising of Lazarus pointing to Lazarus as the rich young ruler of Mark's Gospel The Search for Neofascism A. James Gregor, 2006-03-27 Publisher description By the Light of the Lanthorn Siegfried W. Rudel, 2011 When Council Inspector Paul Clark visited the Peredur Trust in Cornwall more than twenty years ago he was under pressure to serve a legal notice to comply with various regulations or face closure He expected to encounter a cult organization with weird and unpalatable practices In fact he found something quite different As he says in his foreword I came to inspect I stopped to evaluate and I remained to admire Paul later became the trust's chief executive The Peredur Trust has been caring for disadvantaged and differently abled individuals effectively and successfully for more than sixty years Siegfried Rudel its president and one of its four founders tells the story of how the impulse behind the organization inspired by the philosophy of Rudolf Steiner first transpired However this is not simply a narrative and history of a single organization rather this book represents a universal cultural impulse that embraces the needs of our time and one that reappears today in many residential communities for

anthropology but also of history and psychology The Tree of Life and the Holy Grail Sylvia Francke, 2007 Recent works of fiction and popular history have promoted the idea that the Holy Grail symbolizes a physical bloodline that resulted from a union of Jesus Christ and Mary Magdalene It is claimed by some that this is the secret kept tirelessly by certain esoteric movements for the past two millennia Based on her groundbreaking research Sylvia Francke exposes this notion as a blatant misinterpretation of the mystery traditions that preceded and ran parallel to the birth of Christianity She traces the ancient spiritual paths of knowledge from the Cathars the Knights Templar and the enigmatic Rosicrucians to the work of Rudolf Steiner in the twentieth century Here she concludes is true Grail knowledge the Tree of Life and the Holy Grail itself explained in their metaphysical context She suggests a solution to the mystery of sudden wealth and the strange behavior of B renger Sauni re the mysterious priest of Rennes le Ch teau in southern France True Grail knowledge Francke concludes has nothing to do with bloodlines or worldly status rather it is an ancient lifeline to the spiritual origins of creation Its energetic forces radiate out from the Earth and in from the constellations and planets while interacting with human individuals It represents the key to fulfilling humanity s quest and the next step in human evolution The recent explosion of interest in revisionist Christianity history the shadow Grail prompted Sylvia Francke to revise The Tree of Life and the Holy Grail first published in 1996 The result is a completely reworked and expanded book that offers a powerful and convincing Steiner Waldorf Pedagogy in Schools Martyn Rawson, 2021-05-24 This book refutation of distorted esoteric truths offers a comprehensive exploration of Steiner or Waldorf pedagogy and practice in schools Drawing on key research it traces the origins of Steiner education from the original Waldorf school and shows how this approach has since been adapted and applied in educational settings around the world Outlining the educational philosophy of Steiner education the book considers its unique features such as its commitment to a pedagogical anthropology that takes the whole developing human being into account body mind and spirit and the developmental approach that arises out of this It sets out the specific curriculum and teaching approach alongside vignettes of teaching and learning situations adopted in Steiner educational settings to show how the approach works in practice Offering a critical perspective on this teaching style Rawson examines the contributions that Steiner education has made in different cultures and looks towards future developments in China and other Asian countries Considering all aspects of Steiner education this book is essential reading for anyone wanting to understand the fundamental elements of this approach and its continuing relevance within the educational landscape Α **Secret History of Consciousness** Gary Lachman, 2003-07 For the last four centuries science has tried to account for everything in terms of atoms and molecules and the physical laws they adhere to Recently this effort was extended to try to include the inner world of human beings Gary Lachman argues that this view of consciousness is misguided and unfounded He points to another approach to the study and exploration of consciousness that erupted into public awareness in the late 1800s In this secret history of consciousness consciousness is seen not as a result of neurons and molecules but as

responsible for them meaning is not imported from the outer world but rather creates it In this view consciousness is a living evolving presence whose development can be traced through different historical periods and which evolves along a path to a broader more expansive state What that consciousness may be like and how it may be achieved is a major concern of this book Lachman concentrates on the period since the late 1800s when Madame Blavatsky first brought the secret history out into the open As this history unfolds we encounter the ideas of many modern thinkers from esotericists like P D Ouspensky Rudolf Steiner and Colin Wilson to more mainstream philosophers like Henri Bergson William James Owen Barfield and the psychologist Andreas Mavromatis Two little known but important thinkers play a major role in his synthesis Jurij Moskvitin who showed how our consciousness relates to the mechanisms of perception and to the external world and Jean Gebser who presented perhaps the most impressive case for the evolution of consciousness An important contribution to the study of A Passionate Schooling: Key Ideas Behind Steiner Waldorf Education Alduino Mazzone, Susan consciousness a must read Laing, 2016-05-22 A Passionate Schooling provides a clear scholarly overview of the key ideas behind Steiner Waldorf education It examines how Rudolf Steiner developed his ideas in the context of his life and the culture in which he lived A Passionate Schooling focuses on Steiner's insights as they relate to the nature of the human being freedom and the ideals of education and social renewal new perspectives on child development the evolution of consciousness and the transformation of the self It also explores the concepts of goodness beauty and truth as ideals in education as well as the adaptability of the Steiner Curriculum It re interprets Steiner's ideas in the context of post modernist thought and contemporary challenges and practices A Passionate Schooling is a revealing text for students of education teachers and parents More at www passionateschooling com
