Home and its Dislocations in Nineteenth-Century France Suzanne Nash, 1993-08-31 The nineteenth century witnessed an unprecedented social restructuring that disrupted traditional notions of people and place country and city private and public spheres The break with the old order and the entry into the industrial age was most

dramatically played out in France with the growth of a new urban middle class under the July monarchy and the rebuilding of Paris by Haussmann under the Second Empire. The personal immediate and radical effects of these changes produced an altered conception of the meaning of home and a homeland. Focusing primarily on mid nineteenth century France, these essays by noted literary critics offer fascinating new accounts of the relationship between the social history of home and homelessness and the imaginative expressions of the age. This probing interdisciplinary approach combining theoretical sophistication with historical detail addresses the fundamental importance of class and gender to the modern history of homelessness. Its provocative readings of well known texts provide a model of cultural studies at its best and most serious.

Jihad and the West Mark Silinsky, 2016-10-24 Expertly weaves the story of the current conflict through the points of view of perpetrators, victims, and nations. Journal of Military History. U.S. Department of Defense analyst Mark Silinsky reveals the origins of the Islamic State's obsession with the Western world. Once considered a minor irritant in the international system, the Caliphate is now a dynamic and significant actor on the world's stage, boasting more than 30,000 foreign fighters from eighty-six countries. Recruits consist not only of Middle Eastern born citizens but also a staggering number of Blue Eyed Jihadists: Westerners who leave their country to join the radical sect. Silinsky provides a detailed and chilling explanation of the appeal of the Islamic State and how those abroad become radicalized, while also analyzing the historical origins, inner workings, and horrific toll of the Caliphate. By documenting the true stories of men, women, and children whose lives have been destroyed by the radical group, *Jihad and the West* presents the human face of the thousands who have been abducted, raped, tortured, and murdered by the Islamic State, including Kayla Mueller, who was kidnapped, given to the Caliphate's leader as a sex slave, and ultimately killed.
