general experience of modern political violence the book helps illuminate many obscure aspects of terrorism today     *The Law of Targeting* William H. Boothby, 2012-08-16 Targeting is the primary method for securing strategic objectives in an armed conflict Failure to comply with the law of targeting jeopardizes the achievement of those aims It is therefore essential that all those involved in or studying issues surrounding targeting have an accurate and complete understanding of this area of law This book offers the definitive and comprehensive statement of all aspects of the law of targeting It is a one stop shop that answers all relevant questions in depth It has been written in an open accessible yet comprehensive style and addresses both matters of established law and issues of topical controversy The text explains the meanings of such terms as civilian combatant and military objective Chapters are devoted to the core targeting principles of distinction discrimination and proportionality as well as to the relationship between targeting and the protection of the environment and of objects and persons entitled to special protection New technologies are also covered with chapters looking at attacks using unmanned platforms and a discussion of the issues arising from cyber warfare The book also examines recent controversies and perceived ambiguities in the rules governing targeting including the use of human shields the level of care required in a bombing campaign and the difficulties involved in determining whether someone is directly participating in hostilities This book will be invaluable to all working in this contentious area of law     A History of the French Revolution Henry Morse Stephens, 1891     *From the end of the reign of Louis the Fifteenth to the consulate of Napoleon Bonaparte* Thomas Edward Watson, 1900     **The Banality of Evil** Bernard J. Bergen, 1998 Takes its point of departure from Hannah Arendt's Eichmann in Jerusalem Focuses neither on Eichmann nor the Holocaust but on what Bergen sees as the political and philosophical consequences of the banality of evil These derive from the human failure to develop the thought will and judgment that are necessary to prevent the kind of evil committed by the Nazis Like Arendt Bergen is more concerned with totalitarianism than antisemitism often referring to her work *The Origins of Totalitarianism*     From the reign of Edward IV. to the reign of Elizabeth John Reeves, 1869     **The People [ed. by J. Barker]**. Joseph Barker,     Select Cases on the Law of Torts John Henry Wigmore, 1912
