Basic Knowledge

Paul Ricoeur is one of the most distinguished linguists and philosophers of modernity. His book on the evolution of the understanding of metaphors, titled *The Rule of Metaphor*, observes its evolution from antiquity to modern times. Ricoeur postulates that metaphors brought about the ending of old rhetoric and the emergence of neo-rhetoric being used in communication and marketing today. First, the book advanced my theoretical knowledge of rhetoric and philosophy by demonstrating the importance of metaphors in rhetoric. Second, it showed the evolution of metaphors from simply being deviations in singular words to the sentence-context structure. Third, I learned that similarity of pronunciation and meaning is not always required for metaphors to be effective.

These notions, thoroughly discussed across different case studies, have challenged my existing perceptions of metaphors and their influence on modern discourse. My understanding of rhetoric and philosophy of communication advanced as well. I was able to see how the former was transformed under the influence of the latter, focusing on being holistic and accurately representing the meaning of what was meant to be said rather than simply remaining as an art of convincing people. While I am certain that our use and understanding of metaphors will further evolve in the future, this book offers an excellent perspective on its various elements.
