Shatterzone Rule Book West End Games, Incorporated, 1993      **Shatterzone Universe Guide** West End Games, Incorporated, 1993      Mapping the Mississippian Shatter Zone Robbie Franklyn Ethridge, Sheri Marie Shuck-Hall, 2009-01-01 During the two centuries following European contact the world of late prehistoric Mississippian chiefdoms collapsed and Native communities there fragmented migrated coalesced and reorganized into new and often quite different societies The editors of this volume Robbie Ethridge and Sheri M Shuck Hall argue that such a period and region of instability and regrouping constituted a shatter zone      **Shatter Zone** James Axler, 2014-01-15 BLASTED EDEN Scattered remains have been salvaged from the abandoned cities that withstood the atomic onslaught at the dawn of the twenty first century but the secrets of pre Dark tech buried in the mass grave of civilization are known to only a few Possessing understanding and the unshakable will to survive Ryan Cawdor and his warrior survivalists face each day armed and ready for the enemy called Deathlands whose formidable power has yet to claim victory over the human spirit DEFENSIVE PERIMETER In this raw brutal world ruled by the strongest and the most vicious an unseen player is manipulating Ryan and his band luring him across an unseen battle line drawn in the dust outside Tucson Arizona Here a local barony becomes the staging ground for a battle unlike any other against a foe whose ties to pre Dark society present a new and incalculable threat to a fragile world Ryan Cawdor is the only man living who stands between this adversary s glory and the prize he seeks In the Deathlands the future lies somewhere between hope and hell      **The Eastern Frontier** Robert Haug, 2019-06-27 Transoxania Khurasan and ukharistan which comprise large parts of today s Central Asia have long been an important frontier zone In the late antique and early medieval periods the region was both an eastern political boundary for Persian and Islamic empires and a cultural border separating communities of sedentary farmers from pastoral nomads Given its peripheral location the history of the eastern frontier in this period has often been shown through the lens of expanding empires However in this book Robert Haug argues for a pre modern Central Asia with a discrete identity a region that is not just a transitory space or the far flung corner of empires but its own historical entity From this locally specific perspective the book takes the reader on a 900 year tour of the area from Sasanian control through the Umayyads and Abbasids to the quasi independent dynasties of the Tahirids and the Samanids Drawing on an impressive array of literary numismatic and archaeological sources Haug reveals the unique and varied challenges the eastern frontier presented to imperial powers that strove to integrate the area into their greater systems This is essential reading for all scholars working on early Islamic Iranian and Central Asian history as well as those with an interest in the dynamics of frontier regions      Genocide, the Holocaust and Israel-Palestine Omer Bartov, 2023-07-13 This book discusses some of the most urgent current debates over the study commemoration and politicization of the Holocaust through key critical perspectives Omer Bartov adeptly assesses the tensions between Holocaust and genocide studies which have repeatedly both enriched and clashed with each other

whilst convincingly arguing for the importance of local history and individual testimony in grasping the nature of mass murder He goes on to critically examine how legal discourse has served to both uncover and deny individual and national complicity Genocide the Holocaust and Israel Palestine outlines how first person histories provide a better understanding of events otherwise perceived as inexplicable and lastly draws on the author s own personal trajectory to consider links between the fate of Jews in World War II and the plight of Palestinians during and in the aftermath of the establishment of the state of Israel Bartov demonstrates that these five perspectives rarely if ever previously discussed in a single book are inextricably linked and shed much light on each other Thus the Holocaust and other genocides must be seen as related catastrophes in the modern era understanding such vast human tragedies necessitates scrutinizing them on the local and personal scale this in turn calls for historical empathy accomplished via personal biographical introspection and true open minded and rigorous introspection without which historical understanding tends toward obfuscation brings to light uncomfortable yet clarifying connections such as that between the Holocaust and the Nakba the mass flight and expulsion of the Palestinians in 1948 *Hardware/Software* West End Games, Incorporated,1995 **Remaking Identities** Benjamin Lieberman,2013-03-22 For centuries conquerors missionaries and political movements acting in the name of a single god nation or race have sought to remake human identities Tracing the rise of exclusive forms of identity over the past 1500 years this innovative book explores both the creation and destruction of exclusive identities including those based on nationalism and monotheistic religion Benjamin Lieberman focuses on two critical phases of world history the age of holy war and conversion and the age of nationalism and racism His cases include the rise of Islam the expansion of medieval Christianity Spanish conquests in the Americas Muslim expansion in India settler expansion in North America nationalist cleansing in modern Europe and Asia and Nazi Germany s efforts to build a racial empire He convincingly shows that efforts to transplant and expand new identities have paradoxically generated long periods of both stability and explosive violence that remade the human landscape around the world **An Archipelago of Care** Deirdre McKay,2016-12-12 A study of Filipino caregivers in London and what it says for migrant workers and the networks they build in the global marketplace Focusing on the experience of Filipino caregivers in London some of whom are living and working illegally in their host country Deirdre McKay considers what migrant workers must do to navigate their way in a global marketplace She draws on interviews and participant observations her own long term fieldwork in communities in the Philippines and digital ethnography to present an intricate consideration of how these caregivers create stability in potentially precarious living situations McKay argues that these workers gain resilience from the bonding networks they construct for themselves through social media faith groups and community centers These networks generate an elaborate archipelago of care through which migrants create their sense of self A beautifully written ethnography of Filipino migrants in the UK and their experience of living their lives within and across the UK and the Philippines mediated by physical space institutions and a series of digital

media Heather Horst coauthor of Digital Ethnography Principles and Practices Deirdre McKay takes a novel approach to key concepts undergirding globalization and transnationalism today citizenship surveillance and security She makes us think differently about the negotiation of belonging in a digital and hyper securitized age Jennifer Burrell author of Maya After War Conflict Power and Politics in Guatemala [Russia and European Human-Rights Law](#) ,2014-11-20 In Russia and European Human Rights Law The Rise of the Civilizational Argument Lauri M Ikkoo and his co authors critically examine Russia s experiences as part of the European human rights protection system since its admittance to the Council of Europe in 1998 The authors combine legal and constructivist international relations theory perspectives in studying Russia s practice and rhetoric as a member of the Council of Europe and a subject to the jurisdiction of the European Court of Human Rights Certain aspects of human rights doctrine and practice in Russia are particularly highlighted the increasing impact of Orthodox Christian teachings on the Russian government s ideology the situation with media freedom freedom of religion etc The authors draw widely on Russian sources and media The questions whether modern day Russia truly fits in the human rights protection system of the Council of Europe and whether a margin of appreciation will suffice when dealing with Moscow are highly relevant in contemporary European politics **Professional Paper** ,1929 *Loyalty and Citizenship* Gözde Yazıcı Cörüt,2021-12-06 Gözde Yazıcı Cörüt unfolds the details of everyday life and represents the local people as active agents active moreover in relation both to the changing nature and effectiveness of the Ottoman state s assertion of territorial authority and also to the differences between policies and practices of the Russian and Ottoman Empires Overall she focuses on the end of empire border politics and the issue of Ottoman citizenship not only from the perspective of macro level political developments and central state power but also in terms of the peripheral specificities of administration and the movements and subjecthood choices of people inhabiting the Russo Ottoman borderland The author presents a new type of multi faceted account of borderland development in which ethnoreligious considerations came to inform a somewhat messy production of sovereignty in the context of the modernizing transition between empire and nation state **The Paradox of Ukrainian Lviv** Tarik Cyril Amar,2015-11-17 The Paradox of Ukrainian Lviv reveals the local and transnational forces behind the twentieth century transformation of Lviv into a Soviet and Ukrainian urban center Lviv s twentieth century history was marked by violence population changes and fundamental transformation ethnically linguistically and in terms of its residents self perception Against this background Tarik Cyril Amar explains a striking paradox Soviet rule which came to Lviv in ruthless Stalinist shape and lasted for half a century left behind the most Ukrainian version of the city in history In reconstructing this dramatically profound change Amar illuminates the historical background in present day identities and tensions within Ukraine **Jewish Histories of the Holocaust** Norman J.W. Goda,2014-09-01 For many years histories of the Holocaust focused on its perpetrators and only recently have more scholars begun to consider in detail the experiences of victims and survivors as well as the documents they left behind This volume contains new research from internationally

established scholars It provides an introduction to and overview of Jewish narratives of the Holocaust The essays include new considerations of sources ranging from diaries and oral testimony to the hidden Oyneg Shabbes archive of the Warsaw Ghetto arguments regarding Jewish narratives and how they fit into the larger fields of Holocaust and Genocide studies and new assessments of Jewish responses to mass murder ranging from ghetto leadership to resistance and memory

*Occupied Aviel Roshwald,2023-04-27* A comparative treatment of European and Asian responses to German and Japanese occupation during the Second World War **The Lands in Between** Mitchell A. Orenstein,2019-04-01 Russia s stealth invasion of Ukraine and its assault on the US elections in 2016 forced a reluctant West to grapple with the effects of hybrid war While most citizens in the West are new to the problems of election hacking state sponsored disinformation campaigns influence operations by foreign security services and frozen conflicts citizens of the frontline states between Russia and the European Union have been dealing with these issues for years The Lands in Between Russia vs the West and the New Politics of Russia s Hybrid War contends that these lands in between hold powerful lessons for Western countries For Western politics is becoming increasingly similar to the lands in between where hybrid warfare has polarized parties and voters into two camps those who support a Western vision of liberal democracy and those who support a Russian vision of nationalist authoritarianism Paradoxically while politics increasingly boils down to a zero sum civilizational choice between Russia and the West those who rise to the pinnacle of the political system in the lands in between are often non ideological power brokers who have found a way to profit from both sides taking rewards from both Russia and the West Increasingly the political pathologies of these small vulnerable and backwards states in Europe are our problems too In this deepening conflict we are all lands in between **Beyond the Great War** Carl Bouchard,Norman Ingram,2022-01-17 This collection addresses the impact of the end of the First World War and challenges the positive vision of a new world order that emerged from the Paris Peace Conference of 1919 **Professional Paper - United States Geological Survey** Geological Survey (U.S.),1929 **The Copper Deposits of Michigan** Bert Sylvenus Butler,Wilbur Swett Burbank,1929 *Encyclopedia of the Atlantic World, 1400-1900* David Head,2017-11-16 A first of its kind reference resource traces the interactions among four Atlantic facing continents Europe Africa and the Americas including the Caribbean between 1400 and 1900 Until recently the age of exploration and empire building was researched and taught within imperial and national boundaries The histories of Europe Africa North America and South America were told largely as independent stories with the development of individual places within each continent further separated from each other The indigenous populations of places colonized by Europeans fit into the history even more uneasily often mentioned only in passing *Encyclopedia of the Atlantic World 1400 1900* synthesizes a generation of historical scholarship on the events on four continents providing readers an invaluable introduction to the major people places events movements objects concepts and commodities of the Atlantic world as it developed during a key period in history when the world first started to shrink The entries discuss specific topics with an eye

toward showing how individual items people and events were connected to the larger Atlantic world This accessibly written reference book brings together topics usually treated separately and discretely alleviating the need for extra legwork when researching and it draws from the latest research to make a vast body of scholarship about seemingly far flung places available to readers new to the field
