Dynasties of Egypt Norah Romney, 2021-02-10 In ancient Egyptian history some dynasties prospered and some faded out of existence They are traditionally divided into thirty two pharaonic dynasties they are classified into kingdoms and intermediate periods from these dynasties Manetho the third century Egyptian priest gives us the first thirty dynasties which

he published in Aegytiaca now lost to ravages of time These likely stems from the Ptolemaic rule in Egypt The Ptolemaic Dynasty and the 31st dynasty form the remaining two While widely used and valuable the system does have its weaknesses Some dynasties only governed part of Egypt and endured concurrently with other dynasties based in other cities The Seventh might not have been at all the Tenth appears to be a succession of the Ninth and there may have been one or numerous Upper Egyptian Dynasties before the First Dynasty The privilege of Pharaoh is utilized for those leaders of Ancient Egypt who governed after the alliance of Upper Egypt and Lower Egypt by Narmer throughout the Early Dynastic Period circa 3100 BC However the specific title Pharaoh was not employed to direct Egypt's kings by their peers until the dominion of Merneptah in the 19th Dynasty c 1200 BC Along with the name Pharaoh for later rulers an Ancient Egyptian sovereign titulary was used by Egyptian kings which prevailed relatively consistent during Ancient Egyptian history originally featuring a Horus name Egypt was steadily administered at least in part by domestic ruler pharaohs for nearly 2500 years until it was overcome by the Kingdom of Kush in the late 8th century BC whose kings embraced the classical pharaonic titular for themselves Following the Kushite victory Egypt underwent another independent constitutional rule before being subdued by the Achaemenid Empire whose governors also assumed the title of Pharaoh The last regional Pharaoh of Egypt was Nectanebo II Pharaoh before the Achaemenids defeated Egypt for a second time Achaemenid control over Egypt ended abruptly through Alexander the Great's triumphs in 332 BC after which it was controlled by the Hellenic Pharaohs of the Ptolemaic Dynasty Their government and Egypt's sovereignty came to an end when Egypt became a Rome province in 30 BC Augustus and succeeding Roman dictators were styled as Pharaohs when in Egypt until Maximinus Data in 314 AD The dates provided in this list of pharaohs are estimated They are based fundamentally on Ancient Egypt's established chronology often based on the Digital Egypt for Universities database generated by the Petrie Museum of Egyptian Archaeology but other dates taken from other professionals may be designated separately

Ancient Origins of the Egyptian Empire Ezra Ivanov, It is nearly impossible to imagine Giza any different today with its desert backdrop and its majestic sentinel like pyramids that can't help but exude a sense of permanence Edfu's account compiled from a series of now lost books attributed to the moon god Thoth allows us to reconstruct how the Giza plateau may have looked over 11 000 years ago Giza was built around a shallow lake fed directly from the Nile if the texts were believed This ecosystem is similar to what one might see today in equatorial Africa If we find a time machine and travel back to this distant era we would find a hot humid atmosphere alive with lush green vegetation This hypothesis is not mere speculation for it is known that the river used to flow closer to the plateau's edge in the past In addition evidence of a lake and dock dating back to Old Kingdom times has also been found beyond the plateau's western limits In the eyes of the Shining Ones this would represent the primordial sea of chaos from which the first land appeared at the beginning of Time
