**The Making of a Transnational Capitalist Class** William K. Carroll, 2013-04-04 Throughout the world there has been a growing wave of interest in global corporate power and the rise of a transnational capitalist class triggered by economic and political transformations that have blurred national borders and disembedded corporate business from national domiciles Using social network analysis William Carroll maps the changing field of power generated by elite relations among the world's largest corporations and related political organizations Carroll provides an in depth analysis that spans the three decades of the late 20th and early 21st century when capitalist globalization attained unprecedented momentum propelled both by the transnationalization of accumulation and by the political paradigm of transnational neoliberalism This has been an era in which national governments have deregulated capital international institutions such as the World Trade Organization and the World Economic Forum have gained prominence and production and finance have become more fully transnational increasing the structural power of capital over communities and workers Within this context of transformation the book charts the making of a transnational capitalist class reaching beyond national forms of capitalist class organization into a global field but facing spirited opposition from below in an ongoing struggle that is also a struggle over alternative global futures

**Power and Resistance, 7th ed.** Jessica Antony, Wayne Antony, 2022-06-30T00:00:00Z Power and Resistance debunks the dominant neoliberal hyper individualist approach to society's problems that sees poverty as a result of laziness environmental crises as a result of market demands for products that pollute and Indigenous Peoples struggles as a result of not assimilating We argue that it is social inequality and oppression that are the underlying causes of social problems In a society like ours powerful groups make choices that benefit them and force those choices onto others creating life problems for others and society as a whole The powerful also have influence over what is and is not called a social problem Solving social problems requires changing the structures of inequality and oppression For example industrial corporate agriculture has created huge profits for a few gigantic food corporations but left much of the world hungry But farmers and their allies are pushing back through agroecology an agriculture based on local small scale ecologically sustainable farming that brings eaters and growers closer to one another The seventh edition of Power and Resistance includes new chapters on anti Black racism in schools Indigenous people and mental health food security and sovereignty and work in the gig economy

**Jobs with Inequality** John Peters, 2022-06-29 Income inequality has skyrocketed in Canada over the past few decades The rich have become richer while the average household income has deteriorated and job quality has plummeted Common explanations for these trends point to globalization technology or other forces largely beyond our control But as Jobs with Inequality shows there is nothing inevitable about inequality Rather runaway inequality is the result of politics and policies what

governments have done to aid the rich and boost finance and what they have not done to uphold the interests of workers Drawing on new tax and income data John Peters tells the story of how inequality is unfolding in Canada today by examining post democracy financialization and labour market deregulation Timely and novel Jobs with Inequality explains how and why business and government have rewritten the rules of the economy to the advantage of the few and considers why progressive efforts to reverse these trends have so regularly run aground **Canadian Political Economy** Heather

and in the context of the deepening climate crisis He argues that ecological knowledge itself as well as associated developments in renewable energy technology and green infrastructure represent advancements in productive forces However such green productive forces are fettered by capitalist relations of production including the power of carbon capital In addition to a conceptual and theoretical reinterpretation case studies focusing on Canadian fossil capitalism provide a concrete complex analysis of the deepening of fossil fuelled productive forces and the process of fettering in both renewable energies and in the development and application of ecological knowledge *Working Lives* Craig Heron,2018-11-23 Craig Heron is one of Canada s leading labour historians Drawing together fifteen of Heron s new and previously published essays on working class life in Canada *Working Lives* covers a wide range of issues including politics culture gender wage earning and union organization A timely contribution to the evolving field of labour studies in Canada this cohesive collection of essays analyzes the daily experiences of people working across Canada over more than two hundred years Honest in its depictions of the historical complexities of daily life *Working Lives* raises issues in the writing of Canadian working class history especially working class realism and how it is eventually inscribed into Canada s public history Thoughtfully reflecting on the ways in which workers interact with the past Heron discusses the important role historians and museums play in remembering the adversity and milestones experienced by Canada s working class *Pursuing Justice, 2nd Edition* Margot Hurlbert,2020-07-25T00:00:00Z *Pursuing justice* is daunting It plays out in a variety of contexts like the environment employment the criminal justice system and raises tough issues like racism gender discrimination and poverty But ultimately the aim of studying justice is to achieve it This book is about justice in Canada its definition its boundaries its contradictions and its nuances It is also about the mechanisms and practices that enable the pursuit of justice It problematizes the notion of justice while defining and pursuing the illusive notion of justice in Canadian society This second edition features updated content from the popular first edition as well as new content about social justice and racism the experiences of racialized persons with police settler colonialism and issues of justice for gender and sexual minorities all from a Canadian perspective Additionally each chapter contains objectives of the chapter case studies and discussion questions
