Rum Romance And Rebellion:

Rum, Romance & Rebellion Charles William Taussig, 1928 A Guide for the Study of British Caribbean History, 1763-1834 Lowell Joseph Ragatz, 1932 **Capitalism and Slavery** Eric Williams, 2014-06-30 Slavery helped finance the Industrial Revolution in England Plantation owners shipbuilders and merchants connected with the slave trade accumulated vast fortunes that established banks and heavy industry in Europe and expanded the reach of capitalism worldwide Eric Williams advanced these powerful ideas in *Capitalism and Slavery* published in 1944 Years ahead of its time his profound critique became the foundation for studies of imperialism and economic development Binding an economic view of history with strong moral argument Williams's study of the role of slavery in financing the Industrial Revolution refuted traditional ideas of economic and moral progress and firmly established the centrality of the African slave trade in European economic development He also showed that mature industrial capitalism in turn helped destroy the slave system Establishing the exploitation of commercial capitalism and its link to racial attitudes Williams employed a historicist vision that set the tone for future studies In a new introduction Colin Palmer assesses the lasting impact of Williams's groundbreaking work and analyzes the heated scholarly debates it generated when it first appeared Richard Wright's Travel Writings Virginia Whatley Smith, 2009-11-12 Attracted to remote lands by his interest in the postcolonial struggle Richard Wright 1908-1960 became one of the few African Americans of his time to engage in travel writing He went to emerging nations not as a sightseer but as a student of their cultures learning the politics and the processes of social transformation When Wright fled from the United States in 1946 to live as an expatriate in Paris he was exposed to intellectual thoughts and challenges that transcended his social and political education in America Three events broadened his world view his introduction to French existentialism the rise of the Pan Africanist movement to decolonize Africa and Indonesia's declaration of independence from colonial rule in 1945 During the 1950s as he traveled to emerging nations his encounters produced four travel narratives *Black Power* 1953 *The Color Curtain* 1956 *Pagan Spain* 1956 and *White Man Listen* 1957 Upon his death in 1960 he left behind an unfinished book on French West Africa which exists only in notes outlines and a draft Written by multinational scholars this collection of essays exploring Wright's travel writings shows how in his hands the genre of travel writing resisted adapted or modified the forms and formats practiced by white authors Enhanced by nine photographs taken by Wright during his travels the essays focus on each of Wright's four separate narratives as well as upon his unfinished book and reveal how Wright drew on such non Western influences as the African American slave narrative and Asian literature of protest and resistance The essays critique Wright's representation of customs and people and employ a broad range of interpretive modes including the theories of formalism feminism and postmodernism among others Wright's travel books are proven to be innovative narratives that laid down the roots of such later genres as postcolonial literature contemporary travel writing and resistance literature **Contemporary Caribbean Cultures and Societies in a Global Context** Franklin W.

Knight, Teresita Martínez-Vergne, 2006-05-18 The Caribbean ranks among the earliest and most completely globalized regions in the world From the first moment Europeans set foot on the islands to the present products people and ideas have made their way back and forth between the region and other parts of the globe with unequal but inexorable force An inventory of some of these unprecedented multidirectional exchanges this volume provides a measure of as well as a model for new scholarship on globalization in the region Ten essays by leading scholars in the field of Caribbean studies identify and illuminate important social and cultural aspects of the region as it seeks to maintain its own identity against the unrelenting pressures of globalization These essays examine cultural phenomena in their creolized forms from sports and religion to music and drink as well as the Caribbean manifestations of more universal trends from racial inequality and feminist activism to indebtedness and economic uncertainty Throughout the volume points to the contending forces of homogeneity and differentiation that define globalization and highlights the growing agency of the Caribbean peoples in the modern world Contributors Antonio Benítez Rojo 1931 2004 Alex Dupuy Wesleyan University Juan Flores City University of New York Graduate Center Jorge L Giovannetti University of Puerto Rico Aline Helg University of Geneva Franklin W Knight The Johns Hopkins University Anthony P Maingot Florida International University Teresita Martínez Vergne Macalester College Helen McBain Economic Commission for Latin America the Caribbean Trinidad Frances Negron Muntaner Columbia University Valentina Peguero University of Wisconsin Stevens Point Raquel Romberg Temple University

Heard, Charles F. Hamsa, 1986 No descriptive material is available for this title *The Craft of the Cocktail* Dale DeGroff, 2010-07-14 The first real cookbook for cocktails featuring 500 recipes from the world's premier mixologist Dale DeGroff. Covering the entire breadth of this rich subject, *The Craft of the Cocktail* provides much more than merely the same old recipes; it delves into history, personalities, and anecdotes; it shows you how to set up a bar, master important techniques, and use tools correctly; and it delivers unique concoctions, many featuring DeGroff's signature use of fresh juices, as well as all the classics. It begins with the history of spirits, how they're made, but without too much boring science, the development of the mixed drink, and the culture it created, all drawn from DeGroff's vast library of vintage cocktail books. Then on to stocking the essential bar, choosing the right tools and ingredients, and mastering key techniques. The same information that DeGroff shares with the bartenders he trains in seminars and through his videos. And then the meat of the matter: 500 recipes, including everything from tried and true classics to of the moment originals. Throughout are rich stories, vintage recipes, fast facts, and other entertaining asides. Beautiful color photographs and a striking design round out the cookbook. Approach to this subject highlighting the difference between an under the bar handbook and a stylish full-blown treatment. *The Craft of the Cocktail* is that treatment destined to become the bible of the bar. *History* Albert Frederick Pollard, Harold Felix Baker Wheeler, 1929 *The Slave Trade & Migration* Paul Finkelman, 2019-06-18 First Published in 1990 American slavery began in Africa. An understanding of slavery begins with the African slave trade and the domestic slave trade. Both were indispensable to the creation of the New World slave societies, including the colonies that became the United States. This book is part of an eighteen-volume series collecting nearly four hundred of the most important articles on slavery in the United States. Volume 2 looks at the domestic and foreign slave trade and migration and includes pioneering articles in the history of slavery, important breakthroughs in research and methodology, and articles that offer major historiographical interpretations.

Founding Foodies Dave DeWitt, 2010-11-01 Who Were the Original Foodies? Beyond their legacy as revolutionaries and politicians, the Founding Fathers of America were first and foremost a group of farmers. Passionate about the land and the bounty it produced, their love of food and the art of eating created what would ultimately become America's diverse food culture. Like many of today's foodies, the Founding Fathers were ardent supporters of sustainable farming and ranching, exotic imported foods, brewing, distilling, and wine appreciation. Washington, Jefferson, and Franklin penned original recipes, encouraged local production of beer and wine, and shared their delight in food with friends and fellow politicians. In *The Founding Foodies*, food writer Dave DeWitt entertainingly describes how some of America's most famous colonial leaders not only established America's political destiny but also revolutionized the very foods we eat. Features over thirty authentic colonial recipes, including Thomas Jefferson's ice cream, A recipe for beer by George Washington, Martha Washington's fruitcake, Medford rum punch, Terrapin soup. **The Unfinished Quest of Richard Wright** Michel Fabre, 1993 Widely acclaimed for its comprehensive and sensitive picture of one of America's most renowned writers, *The Unfinished Quest of*

Richard Wright received the Anisfield Wolf Award on Race Relations when it was first published This first paperback edition contains a new preface and bibliographic essay updating changes in the author s approach to his subject and discussing works published on Wright since 1973 **Announcement and Program** University of Virginia. Institute of Public Affairs,1927 *Richard Wright* Michel Fabre,1990 This bibliography of Richard Wright s library and reading serves as a key to understanding the development philosophies and aesthetics of this great writer and provides accurate information for the study of intertextuality in his works Richard Wright born in Mississippi in 1908 was largely self taught His only formal schooling was high school As he recounts in *Black Boy* he used a white friend s library card at the Memphis Public Library where blacks were not allowed That books were almost living companions for Wright is easily understandable Through books and later through relationships with writers he broadened his perspectives his understanding of society and the very craft of writing In the history of Richard Wright perhaps more than with other writers a knowledge of what he actually read and of what authors he preferred is essential in explaining his intellectual development Michel Fabre Wright s biographer and foremost Wright scholar details the volumes in Wright s library and the facts of Wright s reading habits This listing of books that formed and influenced him includes second hand books he bought while living in extreme poverty in Chicago some borrowed books never returned books purchased in New York and Paris books Wright deemed required reading for a growing novelist gift books and others in a comprehensive list on such subjects as contemporary American literature classic European works criminology psychiatry and social sciences In compiling this listing Fabre goes beyond the actual contents of Wright s library for he includes also titles drawn from references in Wright s works and from accounts of people who knew him and his reading habits Included also is an appendix that collects for the first time reviews written by Wright his prefaces forewords and blurbs They show his appreciation of diverse genres and styles although his ideological commitment remained the same In them one sees Wright as an author ready to help younger writers black and white American and French **Vital Statistics, Special Reports** United States.
