Runner 999 Racing To Disaster:

Runner 999 John McDermott,2002-07 *Runner 999* John Ralson McDermott,2001-10 When you look at all of the innovation that has been added to the world in just the last one hundred years it is absolutely astounding how far we've come. Start ups endeavor to capture that innovation and make its benefits available to those whose lives will be forever improved by it. Yes there can be great wealth and fame for those intrepid entrepreneurs who dare beyond the dream to actual execution. But there is also great risk and no guarantees. Today the barriers to starting a company are almost too low and that can seduce an entrepreneur to build without truly thinking the idea through to its rightful conclusion. It's just full speed ahead of the competition even when there isn't any. It's millions of investment dollars spent on a product with no customers yet. It's build it and they will come. Well what if they didn't come? What are you going to do now? This is a far different situation than when you were driving the original idea selling the vision seeking and getting the intoxicating Wow's when everyone would talk to you and everyone was chasing you to share his or her sage. But when you've built it and they didn't come when you have that epiphany that maybe they aren't ever coming when the buzz and the fervor turn into fear uncertainty and doubt where do you turn? Well I've accepted that I can't get to every start up's CEO before he builds a product with no orders for it. He wouldn't listen anyway as most are too busy building to listen then. But what I can do is help him figure out his. Now What when it happens. This book is not about theory. It's true stories with practical advice on what to do next. Getting it right creates jobs provides for the future of the families involved brings products to the world that can forever improve lives and bring benefits to our global economy. It is with great courage that these Executives so candidly have shared their own true stories of how they came to their Now What moment and what they did to get it right. No one told them now they openly will tell you.

The People's Tycoon Steven Watts,2009-03-04 How a Michigan farm boy became the richest man in America is a classic almost mythic tale but never before has Henry Ford's outsized genius been brought to life so vividly as it is in this engaging and superbly researched biography. The real Henry Ford was a tangle of contradictions. He set off the consumer revolution by producing a car affordable to the masses all the while lamenting the moral toll exacted by consumerism. He believed in giving his workers a living wage though he was entirely opposed to union labor. He had a warm and loving relationship with his wife but sired a son with another woman. A rabid anti Semite he nonetheless embraced African American workers in the era of Jim

Everything creaks and bends in heavy seas what will not bend will simply snap So many times I wondered how much load we could carry in a powerful storm without breaking apart If we flooded any faster I would drown in seconds Patrick Dixon spent years working as a doctor at University College Hospital while his wife Sheila was a magistrate high pressure careers that demanded long hours away from their home family and passion for sailing It is a frustrating story many occasional sailors can relate to but unlike most Patrick and Sheila realised early enough that they could only bend so far before something snapped they could only take on so much before they drowned This is their story of how they made changes some more challenging than others that they knows other sailors could make too regardless of where they are at the moment how they changed their priorities but managed to sustain a new career that fitted in around life rather than the other way round It is also the story of their personal journey both physically across the Atlantic and to little visited corners of the Mediterranean and metaphorically how a doctor who treated cancer patients coped with a partner facing the same battle Neither of them wanted to let that flood things either Through their personal story with plenty of mishaps that led to insights both about sailing and life in general and encounters that turned into opportunities Patrick and Sheila explore the importance of prioritising the right things in life and the simple benefits of travel The book is packed with inspiring but practical advice for all those who have salt in the blood
