Philosophy and Vulnerability Matthew R. McLennan, 2019-02-21 Issues surrounding precarity debility and vulnerability are now of central concern to philosophers as we try and navigate an increasingly uncertain world Matthew R McLennan delves into these subjects enthusiastically and sensitively presenting a vision of the discipline of philosophy which is grounded in real lived experience Developing an invigorating if at times painful sense of the finitude and fragility of human life *Philosophy and Vulnerability* provocatively marshals three disciplinary nonphilosophers to make its argument French filmmaker and novelist Catherine Breillat journalist and masterful cultural commentator Joan Didion and feminist poet and civil rights activist Audre Lorde Through this encounter this book suggests ways in which

rigorous attention to difference and diversity must nourish a militant philosophical universalism in the future Between Specters of War and Visions of Peace Gerald M. Mara, 2019-04-03 Since the beginning of the twenty first century recurring political violence at both state and non state levels has eroded confidence in the progressively peaceful character of international relations and has unsettled the parameters of political thought Frames of peace and frames of war have throughout Western thought colored the questions that we ask about politics the descriptions of the pragmatic and moral alternatives that we face and the ideas and metaphors that we use at any given moment These frames as this book argues also obscure too much of political life Gerald M Mara proposes instead a political philosophy that takes both war and peace seriously and a style of theory committed to questioning rather than closure He challenges two powerful currents in contemporary political philosophy the verdict that premodern or metaphysical texts cannot speak to modern and postmodern societies and the insistence that all forms of political theory be some form of democratic theory Mara reexamines seminal texts in the history of political theory from Thucydides to Jacques Derrida and from Machiavelli to Judith Butler to examine how frames of reference of war and peace have structured both the writing of these texts as well as interpretations of them The result is not a linear history of ideas but a series of conversations between them and a democratic justification for moving beyond democratic theory *A World of Insecurity* Thomas Hylland Eriksen, Ellen Bal, Oscar Salemink, 2010-02-02 Human security is a key element in the measure of well being and a hot topic in anthropology and development studies *A World of Insecurity* outlines a new approach to the subject The contributors expose a contradiction at the heart of conventional accounts of what constitutes human security namely that without taking non material considerations such as religion ethnicity and gender into account discussions of human security academically and in practical terms are incomplete inconclusive and deeply flawed A variety of compelling case studies indicate that in fact material security alone cannot adequately explain or fully account for human activity in a range of different settings and exposed to a variety of different threats This forceful book will expand and deepen the entire concept of human security in the process endowing it with political relevance It is an essential read for students of development studies and anthropology **Hazard** Nancy Barr Mavity, 1924 The coming of age story of Tracy Everson a fiercely independent young woman growing up in the Midwest The novel follows her through her rebellious youth college a failed engagement to her childhood sweetheart moving to New York City and starting her career marriage and motherhood **G. a trade relatively as great as that of England in the present day I have laid my story in the time not of the triumphs of Venice but of her hardest struggle for existence when she defended herself successfully against the coalition of Hungary Padua and Genoa for never at any time were the virtues of Venice her steadfastness her patriotism and her willingness to make all sacrifice for her independence more brilliantly shown The historical portion of the story is drawn from Hazlitt s History of the Republic of Venice and with it I have woven the adventures of an English boy endowed with a full share of that energy and pluck which more than any other qualities have made the British empire the greatest the world has ever seen **Delphi**
