## **Running The Palestine Blockade:**

**The Royal Navy and Maritime Power in the Twentieth Century** Ian Speller, 2004-08-02 This book adopts an innovative new approach to examine the role of maritime power and the utility of navies. It uses a number of case studies based upon key Royal Navy operations in the twentieth century to draw out enduring principles about maritime power and to examine the strengths and limitations of maritime forces as instruments of national policy. Individual chapters focus on campaigns and operations from both World Wars and a series of post 1945 crises and conflicts from the Palestine Patrol in the 1940s to Royal Navy operations in support of British policy in the 1990s. Each case study demonstrates critical features of maritime power including operations during the transition to war, fleet operations in narrow seas, logistics, submarine operations, the impact of air power on maritime operations, blockade, maritime power projection, amphibious warfare, jurisdictional disputes and the law of the sea and peace support operations. The contributors to this book all have considerable experience lecturing on these issues at the United Kingdom Joint Services Command and Staff College where maritime campaign analysis is used to teach the principles of maritime power to officers of the Royal Navy. The book combines an authoritative examination of critical Royal Navy operations during the twentieth century with a sophisticated analysis of the nature of maritime power. As such, it is of both historical interest and contemporary relevance and will prove equally valuable to academic historians, military professionals and the general reader. **Running the Palestine Blockade**

Rudolph W. Patzert, 1994 **The Cyprus Detention Camps** Yitzhak Teutsch, 2019-07-23 Beginning in August 1946, stateless and visaless Jews, most of them survivors of the Nazi death camps who sought to immigrate to the Land of Israel, were intercepted by the Royal Navy and deported to the nearby island of Cyprus where they were detained in camps surrounded by barbed wire. Despite occupying a dramatic and fateful position in modern history, this saga has remained largely inaccessible due to the widespread dispersal of the primary sources and the linguistic difficulties presented by them. To address these problems, this book scrutinizes the scholarly literature, consulting hundreds of primary sources, many of them previously unknown, on three continents, bringing together interviews with scores of eyewitnesses and translating foreign language terms into English. The result is a comprehensive, meticulously footnoted guide that uses such tools as maps, a detailed timeline, and biographical entries to make this riveting saga accessible to a broad audience of scholars and general readers. *Without Permission* Samuel Flaks, 2021-10-12 A fantastical propaganda play depicting an armed revolt financed

the purchase of the yacht *Abril* and its conversion to an illegal immigrant passenger ship renamed the *Ben Hecht*. The plan was to evade the British naval blockade and bring Holocaust survivor refugees to Palestine. Henry Mandel volunteered aboard the *Ben Hecht*, a converted yacht that challenged the British blockade of Jewish immigrants to pre-state Israel. Captured and detained in Acre Prison, Mandel aided the efforts of prisoners planning an escape. After release, Mandel helped set up a secret bazooka shell plant in New York, which he helped to reassemble in Israel during the 1948 Arab-Israeli War.

Mandel was an Orthodox Jew whose reminiscences provide a uniquely illuminating perspective on the creation of the Jewish state Mandel's story is explicated in a running commentary that includes the personal narratives of other members of the Ben Hecht crew as well as historical background **Unsafe Haven** Mayer Abramowitz, 2005 **Palestine-Israel in the Print News Media** Luke Peterson, 2014-10-24 Israel Palestine in the Print News Media Contending Discourses is concerned with conceptions of language knowledge and thought about political conflict in the Middle East in two national news media communities the United States and the United Kingdom Arguing for the existence of national perspectives which are constructed distributed and reinforced in the print news media this study provides a detailed linguistic analysis of print news media coverage of four recent events in the Palestinian Israeli conflict in order to examine ideological patterns present in print news media coverage The two news communities are compared for lexical choices in news stories about the conflict attribution of agency in the discussion of conflict events the inclusion or exclusion of historical context in explanations of the conflict and reliance upon essentialist elements during and within print representations of Palestine Israel The book also devotes space to first hand testimony from journalists with extensive experience covering the conflict from within both news media institutions Unifying various avenues of academic enquiry reflecting upon the acquisition of information and the development of knowledge this book will be of interest to those seeking a new approach to the Palestinian Israeli conflict

Nazis on the Run Gerald Steinacher, 2012-08-23 This is the story of how Nazi war criminals escaped from justice at the end of the Second World War by fleeing through the Tyrolean Alps to Italian seaports and the role played by the Red Cross the Vatican and the Secret Services of the major powers in smuggling them away from prosecution in Europe to a new life in South America The Nazi sympathies held by groups and individuals within these organizations evolved into a successful

assistance network for fugitive criminals providing them not only with secret escape routes but hiding places for their loot Gerald Steinacher skillfully traces the complex escape stories of some of the most prominent Nazi war criminals including Adolf Eichmann showing how they mingled and blended with thousands of technically stateless or displaced persons all flooding across the Alps to Italy and from there to destinations abroad The story of their escape shows clearly just how difficult the apprehending of war criminals can be As Steinacher shows all the major countries in the post war world had mixed motives for their actions ranging from the shortage of trained intelligence personnel in the immediate aftermath of the war to the emerging East West confrontation after 1947 which led to many former Nazis being recruited as agents turned in the Cold War

Perspectives on the Holocaust R.L. Braham, 2013-04-17 The number of books and articles dealing with various aspects of World War II has increased at a phenomenal rate since the end of the hostilities Perhaps no other chapter in this bloodiest of all wars has received as much attention as the Holocaust The Nazis program for the Final Solution of the Jewish Question this ideologically conceived diabolical plan for the physical liquidation of European Jewry has emerged as a subject of agonizing and intense interest to laypersons and scholars alike The centrality of the Holocaust in the study of the Third Reich and the Nazi phenomenon is almost universally recognized The source materials for many of the books published during the immediate postwar period were the notes and diaries kept by many camp and ghetto dwellers who were sustained during their unbelievable ordeal by the unusual drive to bear witness These were supplemented after the liberation by a large number of personal narratives collected from survivors all over Europe Understandably the books published shortly after the war ended were mainly martyrological and lachrymological reflecting the trauma of the Holocaust at the personal individual level These were soon followed by a considerable number of books dealing with the moral and religious questions revolving around the role of the lay and spiritual leaders of the doomed Jewish communities especially those involved in the Jewish Councils as well as God's responsibility toward the chosen people

*Annihilation* Mark Levene, 2013-12-19 From the years leading up to the First World War to the aftermath of the Second Europe experienced an era of genocide As well as the Holocaust this period also witnessed the Armenian genocide in 1915 mass killings in Bolshevik and Stalinist Russia and a host of further ethnic cleansings in Anatolia the Balkans and Eastern Europe *Crisis of Genocide* seeks to integrate these genocidal events into a single coherent history Over two volumes Mark Levene demonstrates how the relationship between geography nation and power came to play a key role in the emergence of genocide in a collapsed or collapsing European imperial zone the Rimlands and how the continuing geopolitical contest for control of these Eastern European or near European regions destabilised relationships between diverse and multifaceted ethnic communities who traditionally had lived side by side An emergent pattern of toxicity can also be seen in the struggles for regional dominance as pursued by post imperial states nation states and would be states Volume II *Annihilation* covers the period from 1939 to 1953 particularly focussing on the Second World War and its aftermath the Holocaust and its lasting impact and the latter part of the Stalinist

regime Levene demonstrates that while the attempted Nazi mass murder of the entirety of European Jewry represents the most thoroughgoing and extreme consequence of efforts aimed at political and social reformulation of the Rimlands arena in particular the accumulation and concentration of genocidal violence against many minority groups would suggest that anti-Semitism or racism alone is insufficient to provide a comprehensive explanation for genocide     [Reporting Palestine-Israel in British Newspapers](#) Nadia R. Sirhan, 2021-08-28 This book examines the portrayal of the Palestinian Israeli conflict by looking at the language used in its reporting and how this can in turn influence public opinion The book explores how language use helps frame an event to elicit a particular interpretation from the reader and how this can be manipulated to introduce bias Sirhan begins the book by examining the history of the conflict and the many persistent myths that surround it She analyses how five events in the conflict two in which the Palestinians are victims two in which the Israelis are victims and Operation Cast Lead are reported in five British newspapers The Daily Mail The Guardian The Independent The Daily Telegraph and The Times By looking at these events across a range of newspapers the book investigates differences in the way that the media report each side before exploring what factors motivate these differences including issues of bias censorship lobbying and propaganda
