## **Rupert Annual 1999:**

**Rupert Annual** Ian Paul Robinson, John Harrold, Gina Hart, 2000-09-01      The Heart of the Matter Ian Smillie, Lansana Gberie, Ralph Hazleton, 2000 How diamonds have been the cause of widespread death misery destruction for almost a decade in the West African country of Sierra Leone Through the 1990s Sierra Leone's rebel war became a tragedy of major humanitarian political historic proportions but the story goes back 60 years to the discovery of the diamonds The diamond mining sector has become influenced by organized crime by the smuggling not just of diamonds but of guns drugs by vast sums of money in search of a laundry No peace agree would be sustainable until the problems of mining selling diamonds had been addressed both inside Sierra Leone internationally Tables      Talking Animals in British Children's Fiction, 1786-1914 Tess Cosslett, 2017-03-02 In her reappraisal of canonical works such as Black Beauty Beautiful Joe Wind in the Willows and Peter Rabbit Tess Cosslett traces how nineteenth century debates about the human and animal intersected with or left their mark on the venerable genre of the animal story written for children Effortlessly applying a range of critical approaches from Bakhtinian ideas of the carnivalesque to feminist postcolonial and ecocritical theory she raises important questions about the construction of the child reader the qualifications of the implied author and the possibilities of children's literature compared with literature written for adults Perhaps most crucially Cosslett examines how the issues of animal speech and animal subjectivity were managed at a time when the possession of language and consciousness had become a vital sign of the difference between humans and animals Topics of great contemporary concern such as the relation of the human and the natural masculine and feminine child and adult are investigated within their nineteenth century contexts making this an important book for nineteenth century scholars children's literature specialists and historians of science and childhood      **New Statesman**, 1998      Libya and the United States, Two Centuries of Strife Ronald Bruce St John, 2002-06-25 Diplomatic relations between the United States and Libya have rarely followed a smooth path Washington has repeatedly tried and failed to mediate lasting solutions to prevent recurrent crises and to secure its own national interests in a region of increasing importance to the United States Libya and the United States Two Centuries of Strife provides a unique and up to date analysis of U S Libyan relations assessing within the framework of conventional historical narrative the interaction of the governments and peoples of Libya and the United States over the past two centuries Drawing on a wide range of new and unfamiliar material Ronald Bruce St John an expert with over thirty years of experience in international relations charts the instances of ignorance misunderstanding treachery and suffering on both sides that have shaped and limited commercial and diplomatic intercourse St John argues that Cold War strategies resulted in a paradoxical and ambiguous U S policy toward Libya during the Idris regime of the 1960s strategies that contributed to the bankruptcy of that monarchy Following the Libyan revolution the U S wrongly believed Qaddafi would become an ally in support of U S policy to keep Soviet influence and communism out of the region his failure to do so marked the beginning of an era of

political tension and mutual distrust Libya and the United States Two Centuries of Strife documents how long standing policy differences over the Palestinian issue and such terrorist acts as the destruction of the U S embassy in Tripoli and the Pan Am explosion over Lockerbie in 1988 resulted in a sharp deterioration of relations St John contends that the ensuing demonization of Libya and the U S policy of confrontation which has spanned successive administrations in Washington have ironically often not served American interests in the region but rather have facilitated Qaddafi s survival **Air University Library Index to Military Periodicals** ,1998 Capitalism and Conservation Dan Brockington,Rosaleen Duffy,2011-09-28 Through a series of case studies from around the world Capitalism and Conservation presents a critique of conservation s role as a central driver of global capitalism Features innovative new research on case studies on the connections between capitalism and conservation drawn from all over the world Examines some of our most popular leisure pursuits and consumption habits to uncover the ways they drive and deepen global capitalism Reveals the increase in intensity and variety of forms of capitalist conservation throughout the world **The National Lottery and Its Regulation** Andrew Douglas,2001-12-01 The introduction of a National Lottery into the United Kingdom created a unique regulatory challenge The response to this challenge is embodied in arrangements informed not by international precedent but by privatisation policies pursued by successive Conservative governments between 1979 and 1994 when the Lottery was launched Dr Douglas assesses the success of the Lottery s regulation against the objectives set out in the enabling legislation the upholding of the Lottery s propriety the protection of the players and the maximising of the funds to be applied to the Good Causes Lessons learned during the initial Licence period will inform the new seven year Licence from October 2001 the operator chosen for the new term and in particular the role of the profit motive within the new arrangements *Willing's Press Guide* ,1979 Coverage of publications outside the UK and in non English languages expands steadily until in 1991 it occupies enough of the Guide to require publication in parts **Corporations and Cultural Industries** Scott W. Fitzgerald,2011-12-28 Corporations and Cultural Industries Time Warner Bertelsmann and News Corporation by Scott Warren Fitzgerald provides an introduction to the political economy of international media corporations This text fills a fundamental gap in the critical media studies field expanding on the relative paucity of academic studies To ground the discussion Fitzgerald focuses on the growth of three specific media conglomerates Time Warner Bertelsmann and News Corporation Adopting an approach rooted in critical political economy the book explains the corporations growth through an engagement with broader social theories the wider conditions of capital accumulation especially theories of corporate competition and financialization issues of institutional logic and corporate strategies and the role of states as regulators mediators of opposed interests and facilitators of corporate expansion The first section presents debates in social theory addressing issues that pertain to cultural industries and dimensions in which they both challenge and extend these wider social theories The second section presents detailed case studies of the three contemporary media mega companies across

the range of operations they coordinate both within and outside the cultural industries By analyzing the specifics and complexities of different media industries Corporations and Cultural Industries examines how financialization processes re gear the internal operations of media corporations in a manner that pits one sector against another This book provides an in depth study that can be used as stand alone teaching resources or as a valuable supplement to a variety of media courses

Monarchies and Nations Paul Dresch, James P. Piscatori, 2005-05-27 Despite their small populations the Arab states of the Gulf exercise an enormous and global influence But all too often these states are treated as if their only importance were as pawns in a global strategic board game and are simply dealt with as mere models of the intersection of oil wealth and power Here Dresch and Piscatori bring together a more nuanced picture exploring how the citizen populations of these states define themselves in a wider context The Gulf provides extreme examples of the nexus of identities not only because these polities are so dependent on transnational flows of wealth and imagery but because at home the citizen

workforce is often outnumbered by migrant labour Examining the issues such as Gulf owned transnational media the role of women in the Kuwaiti state and the way Saudi Arabia manages the yearly influx of pilgrims for the Hajj Monarchies and Nations is essential reading for all those interested in the society politics and the future security of the Gulf      **Television Specials** Vincent Terrace,2013-06-06 This is a complete revision of the author s 1993 McFarland book Television Specials that not only updates entries contained within that edition but adds numerous programs not previously covered including beauty pageants parades awards programs Broadway and opera adaptations musicals produced especially for television holiday specials e g Christmas and New Year s Eve the early 1936 1947 experimental specials honors specials In short this is a reference work to 5 336 programs the most complete source for television specials ever published      **Cumulated Index Medicus** ,2000      **Carried Away** Rachel Bowlby,2002-11-05 The people who shaped America s public broadcasting system thought it should be a civilized voice in a civilized community a clear alternative to commercial broadcasting This book tells the story of how NPR has tried to embody this idea Michael P McCauley describes NPR s evolution from virtual obscurity in the early 1970s when it was riddled with difficulties political battles unseasoned leadership funding problems to a first rate broadcast organization The book draws on a wealth of primary evidence including fifty seven interviews with people who have been central to the NPR story and it places the network within the historical context of the wider U S radio industry Since the late 1970s NPR has worked hard to understand the characteristics of its audience Because of this its content is now targeted toward its most loyal listeners highly educated baby boomers for the most part who help support their local stations through pledges and fund drives      *Current Law Index* ,2002      World Politics Ralph Pettman,2001-01-11 This book provides an overview of the entire discipline of world affairs in a way that makes immediate sense i e systematic cogent and comprehensive It is also a critique of the limits that rationalism sets on how we know world affairs showing how we might transcend these limits by augmenting rationalist research with non rationalist techniques It should appeal to anyone interest in why analysts so often seem to explain world affairs inaccurately and misunderstand what these affairs mean
