Regime and Education in Zimbabwe Bekithemba Dube,Albert Mufanechiya,2024-06-10 This collection focuses on the post independence educational development in Zimbabwe It shows how the ZANU PF regime has presided over the demise of education and covers a wide range of topics such as violence against teachers poor salaries student activism minority languages and curriculum innovations This volume argues that the regime has used education as a tool for repression Curriculum innovations introduced and implemented in Zimbabwe have little to do with improving the performance of the learners and more to do with stopping teachers from pushing the regime change agenda Consequently this has resulted in a nation in crisis marked with high turnover poor economy and mass exodus of teachers and learners The contributors to this

volume make various suggestions which could recenter education towards addressing the experiences of the learners as opposed to being used as a tool to push repression and thwart democracy **Federal Register** ,2006 **Forestry Issues in the Pacific Northwest** United States. Congress. House. Committee on Agriculture. Subcommittee on Forests, Family Farms, and Energy,1991 Community Series in Mental Illness, Culture, and Society: Dealing with the COVID-19 Pandemic, volume VIII Mohammadreza Shalbafan,Samer El Hayek ,Renato de Filippis,2024-06-21 The COVID 19 outbreak has impacted many areas of our lives including mental health Lockdown and physical distancing measures have been one major effective intervention to counter the spread of the virus and reduce the impact of the disease However they have negatively impacted mental well being and behaviors either triggering the onset of new psychiatric symptoms and diseases or amplifying pre existing ones The pandemic and lockdown measures have also been associated with reduced access to treatment and facilities all over the world further worsening mental health outcomes The impact on mental health although universal varied between nations Cultural and societal variables including norms values religion and stigma have played an important role in shaping COVID 19 related mental health symptoms including anxiety depression grief psychosis and addiction These sociocultural factors have also molded how mental health interventions are tailored and provided Highlighting the intertwining relationship between the pandemic mental health and sociocultural factors are essential to managing emerging mental health symptoms adequately
