to improve Pakistanis well being is being neglected Agriculture is crucial to Pakistan s economy Almost half of the country s labor force works in the agricultural sector which produces food and inputs for industry such as cotton for textiles and accounts for over a third of Pakistan s total export earnings Equally important are nonfarm economic activities in rural areas such as retail sales in small village shops transportation services and education and health services in local schools and clinics Rural nonfarm activities account for between 40 and 57 percent of total rural household income Their large share of income means that the agricultural sector and the rural nonfarm economy have vital roles to play in promoting growth and reducing poverty in Pakistan

Developing Sustainable Agriculture in Pakistan Iqrar Ahmad Khan, Muhammad Sarwar Khan, 2018-04-17 Agriculture plays a pivotal role in the economy and development of Pakistan providing food to consumers raw materials to industries and a market for industrial goods Unfortunately agricultural production is stagnant due to several barriers including a fixed cropping pattern reliance on a few major crops a narrow genetic pool poor seed quality and a changing climate In addition the high cost of production weak phytosanitary compliance mechanisms and a lack of cold chain facilities makes Pakistan agriculturally uncompetitive in export markets Despite all these issues agriculture is the primary industry in Pakistan and small farmers continue to dominate the business Small farmers grow crops for subsistence under a fixed cropping pattern and a holistic approach is required to develop agriculture to improve the livelihoods of the rural populace This book presents an exhaustive look at agriculture in Pakistan Chapters provide critical analyses of present trends inadequacies in agriculture strategic planning improvement programs and policies while keeping in view the natural resources plant and animal related agricultural production technologies input supplies population planning migration and poverty and balanced policies on finance credit marketing and trade
