Morgan,2019-05-09 Over the past fifty years Brazil s evangelical community has increased from five to twenty five percent of the population This volume s authors use statistical overview historical narrative personal anecdote social scientific analysis and theological inquiry to map out this emerging landscape The book s thematic center pivots on the question of how Brazilian evangelicals are exerting their presence and effecting change in the public life of the nation Rather than fixing its focus on the interior life of Brazilian evangelicals and their congregations the book s attention is directed toward social expression the ways in which Brazilian evangelicals are present and active in the common life of the nation **Rural Poverty Alleviation in Brazil** World Bank,2003 This approach involves agricultural intensification in the small farm sector dynamism in the commercial agricultural sector rural non farm employment stimulation youth migration and safety net provisions Jacket World Development Report 2008 World Bank,2007-10-15 The world s demand for food is expected to double within the next 50 years while the natural resources that sustain agriculture will become increasingly scarce degraded and vulnerable to the effects of climate change In many poor countries agriculture accounts for at least 40 percent of GDP and 80 percent of employment At the same time about 70 percent of the world s poor live in rural areas and most depend on agriculture for their livelihoods World Development Report 2008 seeks to assess where when and how agriculture can be an effective instrument for economic development especially development

that favors the poor It examines several broad questions How has agriculture changed in developing countries in the past 20 years What are the important new challenges and opportunities for agriculture Which new sources of agricultural growth can be captured cost effectively in particular in poor countries with large agricultural sectors as in Africa How can agricultural growth be made more effective for poverty reduction How can governments facilitate the transition of large populations out of agriculture without simply transferring the burden of rural poverty to urban areas How can the natural resource endowment for agriculture be protected How can agriculture's negative environmental effects be contained This year's report marks the 30th year the World Bank has been publishing the World Development Report
