Ruses For War American Interventionism Since World War II:

The Ruses for War John B. Quigley, 1992 Quigley law Ohio State U draws on his direct observation of the scenes of interventions in Asia Latin America and the Middle East to build a case for more candor from presidents leading Americans into war Annotation copyright by Book News Inc Portland OR *U.S. Intervention Policy in the Post-cold War World* Frances K. Scott, 1994 **U.S. intervention policy in the post-cold war world**, *Selling Intervention and War* Jon Western, 2021-02-10 *Selling Intervention and War* examines the competition among foreign policy elites in the executive branch and Congress in winning the hearts and minds of the American public for military intervention The book studies how the president and his supporters organize campaigns for public support for military action According to Jon Western the outcome depends upon information and propaganda advantages media support or opposition the degree of cohesion within the executive branch and the duration of the crisis Also important is whether the American public believes that military threat is credible and victory plausible Not all such campaigns to win public support are successful in some instances foreign policy elites and the president and his advisors have to back off Western uses several modern conflicts including the current one in Iraq as case studies to illustrate the methods involved in selling intervention and war to the American public the decision not to intervene in French Indochina in 1954 the choice to go into Lebanon in 1958 and the more recent military actions in Grenada Somalia Bosnia and Iraq *Selling Intervention and War* is essential reading for scholars and students of U S foreign policy international security the military and foreign policy and international conflict **British Foreign Policy since 1870** Will Podmore, 2008-10-13 This book survey Britain s foreign policy since 1870 Conventional accounts stress the rulers benevolent rhetoric I present the evidence that refutes this superficial liberal view Britain s economy is the key to understanding its foreign policy capitalism causes a conflict ridden foreign policy The rulers focus has been on seizing profits from abroad for which they have sacrificed the welfare of the British people British governments Conservative Liberal and Labour alike have represented the tiny minority who own the means of production and have opposed the great majority who have to work for a living The ruling class s external focus has also damaged relations with other countries and helped to produce the two recurring types of war wars between rival empires and wars against national liberation **Masters of War** Carl Boggs, 2013-10-11 Few United States citizens conceive of their country as an empire but as the contributors to *Masters of War* convincingly argue the U S legacy of military power runs long and deep Often mobilized in the name of spreading democracy maintaining international order and creating the conditions for economic self determination constantly expanding global U S military power is difficult to characterize as anything but an imperialism bent on global domination However at the same time that the U S government hawks rhetoric of human rights and national sovereignty its dominion has begun breeding widespread resistance and opposition likely to make the twenty first century an era marked by sustained and generally unanticipated blowback Presenting a wide range of essays by some of the anti war movement s most vocal and

incisive critics Masters of War reminds us that worldwide economic and military dominance has its price both globally and domestically

Echoes of Empire Kalypso Nicolaïdis, Berny Sebe, Gabrielle Maas, 2014-12-23 How does our colonial past echo through today's global politics How have former empire builders sought vindication or atonement and formerly colonized states reversal or retribution This groundbreaking book presents a panoramic view of attitudes to empires past and present seen not only through the hard politics of international power structures but also through the nuances of memory historiography and national and minority cultural identities Bringing together leading historians political scientists and international relations scholars from across the globe Echoes of Empire emphasizes Europe's colonial legacy whilst also highlighting the importance of non European power centres Ottoman Russian Chinese Japanese in shaping world politics then and now Echoes of Empire bridges the divide between disciplines to trace the global routes travelled by objects ideas and people and forms a radically different notion of the term empire itself This will be an essential companion to courses on international relations and imperial history as well as a fascinating read for anyone interested in Western hegemony North South relations global power shifts and the *longue duree*

Risk Taking and Decision Making, 1998-02 Risks are an integral part of complex high stakes decisions and decisionmakers are faced with the unavoidable tasks of assessing risks and forming risk preferences This is true for all decision domains including financial environmental and foreign policy domains among others How well decisionmakers deal with risk affects to a considerable extent the quality of their decisions This book provides the most comprehensive analysis available of the elements that influence risk judgments and preferences The book has two dimensions theoretical and comparative historical The study of risk taking behavior has been dominated by the rational choice approach Instead the author adopts a socio cognitive approach involving a multivariate theory integrating contextual cognitive motivational and personality factors that affect an individual decisionmaker's judgment and preferences the social interaction and structural effects of the decisionmaking group and its organizational setting and the role of cultural societal values and norms that sanction or discourage risk taking behavior The book's theoretical approach is applied and tested in five historical case studies of foreign military interventions The richly detailed empirical data on the case studies make them metaphorically speaking an ideal laboratory for applying a process tracing approach in studying judgment and decision processes at varying risk levels The case studies analyzed are U S interventions in Grenada in 1983 and Panama in 1989 both low risk Soviet intervention in Czechoslovakia in 1968 moderate risk U S intervention in Vietnam in 1964-68 high risk and Israel's intervention in Lebanon in 1982-83 high risk

The Crime of Aggression, Humanity, and the Soldier Tom Dannenbaum, 2018-05-10 The international

criminality of waging illegal war alongside only a few of the gravest human wrongs is rooted not in its violation of sovereignty but in the large scale killing war entails Yet when soldiers refuse to kill in illegal wars nothing shields them from criminal sanction for that refusal This seeming paradox in law demands explanation Just as soldiers have no right not to kill in criminal wars the death and suffering inflicted on them when they fight against aggression has been excluded repeatedly from the calculation of post war reparations whether monetary or symbolic This too is jarring in an era of international law infused with human rights principles Tom Dannenbaum explores these ambiguities and paradoxes and argues for institutional reforms through which the law would better respect the rights and responsibilities of soldiers

Foreign Political Engagement D. Geldenhuys, 2016-07-27 The 1990s have witnessed several major external initiatives to reshape the domestic political arrangements of countries Because these have been collective foreign ventures usually with the active collaboration of the target countries the term intervention is ill suited Instead Deon Geldenhuys introduces the notion of foreign political engagement to describe international attempts at remaking countries in the image of the West South Africa Kenya Somalia Russia Cambodia El Salvador and Haiti serve as case studies to demonstrate this important theoretical rethinking of international relations today Special Bibliography Series, 1957

International Organizations and Ethnic Conflict Milton J. Esman, Shibley Telhami, 2019-06-30 From Rwanda to Somalia to the former Yugoslavia one feature of the post Cold War world has become dreadfully clear Ethnic conflicts are escalating and with them demands for international intervention But legally most ethnic conflicts are internal matters How are international organizations their resources stretched woefully thin to know when intervention is appropriate or possible This volume addresses the changing nature of relations between war torn multiethnic states and international organizations particularly the United Nations and its agencies Are the established norms that limit intervention in ethnic conflicts adequate to contemporary conditions Can international organizations meet the increasing demand If not what are the consequences of the disparities between established norms current capabilities and expanding expectations and how might these disparities be narrowed The contributors explore the desirability and potential effectiveness of international interventions in ethnic conflicts Detailed studies of two specific cases of severe and violent tensions in Lebanon and Yugoslavia complement the general discussion with particular insights into the risks and exigencies of international attempts to manage ethnic civil war A deeply thoughtful overview of one of the most pressing and perplexing issues confronting the world today this volume clarifies the changing role of international organizations in an increasingly fragmented world

Violence at the Urban Margins Javier Auyero, Philippe Bourgois, Nancy Scheper-Hughes, 2015-03-09 In the Americas debates around issues of citizen s public safety from debates that erupt after highly publicized events such as the shootings of Jordan Davis and Trayvon Martin to those that recurrently dominate the airwaves in Latin America are dominated by members of the middle and upper middle classes However a cursory count of the victims of urban violence in the Americas reveals that the people suffering the most from

violence live and die at the lowest of the socio symbolic order at the margins of urban societies The inhabitants of the urban margins are hardly ever heard in discussions about public safety They live in danger but the discourse about violence and risk belongs to is manufactured and manipulated by others others who are prone to view violence at the urban margins as evidence of a cultural or racial defect rather than question violence s relationship to economic and political marginalization As a result the experience of interpersonal violence among the urban poor becomes something unspeakable and the everyday fear and trauma lived in relegated territories is constantly muted and denied This edited volume seeks to counteract this pernicious tendency by putting under the ethnographic microscope and making public the way in which violence is lived and acted upon in the urban peripheries It features cutting edge ethnographic research on the role of violence in the lives of the urban poor in South Central and North America and sheds light on the suffering that violence produces and perpetuates as well as the individual and collective responses that violence generates among those living at the urban margins of the Americas

Reunion Elizabeth Barnert,2023-02-07 This captivating ethnography reveals the immediate and persisting impact of forced family separations and the eventual reunifications in communities affected by El Salvador s civil war In 2005 medical student Elizabeth Barnert traveled to El Salvador to build a DNA bank for reuniting families forcibly separated during the Salvadoran civil war Based on fifteen years of interviews and field notes *Reunion* chronicles families experiences with military attacks child disappearances and family separations the joy of reunion and the arduous process of reintegration Barnert works alongside Jesuit priest and Pro B squareda founder Father Jon Cortina former rebel fighters and reformed gang members She meets an eight year old journeying north to reunite with her mother and a young woman returning to El Salvador twenty years after her adoption abroad *Reunion* includes a foreword by renowned anthropologist Philippe Bourgois along with his firsthand account of fleeing a Salvadoran military raid and never before published photos and children s drawings from the war Told through the voices of activists and survivors this groundbreaking ethnography illuminates the cycles of poverty and violence driving immigration and ongoing separations around the world

The Six-Day War and Israeli Self-Defense John Quigley,2013 The war of June 1967 between Israel and Arab states was widely perceived as being forced on Israel to prevent the annihilation of its people by Arab armies hovering on its borders Documents now declassified by key governments question this view The UK USSR France and the USA all knew that the Arab states were not in attack mode and tried to dissuade Israel from attacking In later years this war was held up as a precedent allowing an attack on a state that is expected to attack It has even been used to justify a pre

emptive assault on a state expected to attack well in the future Given the lack of evidence that it was waged by Israel in anticipation of an attack by Arab states the 1967 war can no longer serve as such a precedent This book seeks to provide a corrective on the June 1967 war **Korea** Geoff Simons,1995-07-13 A broad history of Korea with a particular focus on key twentieth century events Particular attention is given to the dispute over North Korea s controversial nuclear development programme This issue is profiled in the context of the post Soviet world and against such crucial modern events as the Japanese colonization of the Korean peninsula the US partition the resulting Korean War and the subsequent development of North and South The detailed information both supports a succinct history and encourages an interpretation that transcends Western propaganda
