Ruskins Sesame And Lilies 1916:

Sesame Dorothea Bedigian,2010-10-14 The first comprehensive review of sesame and its close relative Sesame the genus *Sesamum* covers ethnographic data modern use linguistic analysis of sesame names from around the world market size export and import data geographical sources use in the food and cosmetic industries and much more The book includes a historical review of the ge *The National Union Catalog, Pre-1956 Imprints* ,1968 **The Quality of Literature** Willie van Peer,2008-03-19 Evaluation is central to literary studies and has led to an impressive list of publications on the status and history of the canon Yet it is remarkable how little attention has been given to the role of textual properties in evaluative processes Most of the chapters in *The Quality of Literature* redress this issue by dealing with texts or genres ranging from classical antiquity via Renaissance to twentieth century They provide a rich textual and historical panorama of how critical debate over literary quality has influenced our modes of thinking and feeling about literature and how they continue to shape the current literary landscape Four theoretical chapters reflect on the general state of literary evaluation while the introduction weaves the different threads together aiming at further conceptual clarification This book thus contributes to a deeper understanding of the problems that are at the heart of past and present debates over literary quality **Ruskin, the Theatre and Victorian Visual Culture** A. Heinrich,K. Newey,J. Richards,2009-04-08 This collection of essays sets out to challenge the dominant narrative about Victorian theatre by placing the practices and products of the Victorian theatre in relation to Victorian visual culture through the lens of the concept of Ruskinian theatre an approach to theatre which values its educative purpose as well as its aesthetic expression **The Bombay University Calendar** University of Bombay,1915 *Educational Research Bulletin* ,1924 **The Business of the Novel** Simon R Frost,2015-10-06 This study shows how aesthetics and economics have been combined in a great work of literature Frost examines the history of *Middlemarch* s composition and publication within the context of Victorian demand then goes on to consider the interpretation reception and consumption of the book **The Essential Russell Kirk** Russell Kirk,2023-07-04 As the author of *The Conservative Mind* and other seminal books Russell Kirk is usually thought of as one of the American conservative political movement s most important progenitors But as this collection demonstrates Kirk was perhaps at his best as an essayist This volume also confirms that Kirk s was principally a literary and historical conservatism that refused to fit the irreducible complexity of human experience to the requirements of any ideological straitjacket With *The Essential Russell Kirk* literary critic George A Panichas captures the breadth and depth of Kirk s intellectual project by gathering together forty four of the most masterful of Kirk s essays along with a unique chronology told in Kirk s own words and a substantial introduction that articulates the deep humanism that animated Kirk s philosophy The result is a carefully assembled volume that gives us a fuller picture of an extraordinary man and writer one whose labors had and continue to have remarkable repercussions on the American literary and political landscape *A Feminist Legacy* Suzanne Bordelon,2009-03-10 The first book length investigation of a

pioneering English professor and theorist at Vassar College A Feminist Legacy The Rhetoric and Pedagogy of Gertrude Buck explores Buck s contribution to the fields of education and rhetoric during the Progressive Era By contextualizing Buck s academic and theoretical work within the rise of women s educational institutions like Vassar College the social and political movement toward suffrage and Buck s own egalitarian political and social ideals Suzanne Bordelon offers a scholarly and well informed treatment of Buck s achievements that elucidates the historical and contemporary impact of her work and life Bordelon argues that while Buck did not call herself a feminist she embodied feminist ideals by demanding the full participation of her female students and by challenging power imbalances at every academic social and political level A Feminist Legacy reveals that Vassar College is an undervalued but significant site in the history of women s argumentation and pedagogy Drawing on a rich variety of archival sources including previously unexamined primary material A Feminist Legacy traces the beginnings of feminist theories of argumentation and pedagogy and their lasting legacy within the fields of education and rhetoric
