Russian Exploration, from Siberia to Space Brian Bonhomme, 2014-01-10 In the history of geographical discovery and exploration a well known cast of European characters and events takes center stage While the importance of achievements by Columbus Cortes Magellan Cook Lewis and Clark and Neil Armstrong remains unassailable the participation of Russia in the European era of exploration conquest expansion and colonization deserves equal attention This study provides a narrative survey and critical analysis of a rich but overlooked tradition of geographical exploration by Russians and others in Russian service since 1580 Following Russian pioneers across Siberia Alaska Brazil Hawaii and the Pacific Central Asia Australasia the Arctic and Antarctic and into space this work establishes Russia in the history of world exploration and connects the Russian experience of exploration to Russian national identity past and present *The Northwest Coast* Barry M. Gough, 1992 The Northwest Coast documents Britain's rise to pre-eminence in this far flung corner of the empire It shows how the relentless activities of its commercial interests the adroit use of its naval power and the steely resolve of its diplomats secured British claims to dominion and rights to trade along the Northwest Coast Written by a leading maritime scholar and based on fresh research into known manuscripts and printed works on Pacific trade and exploration this book incorporates new interpretations on exploration and commercial activity in this area **Twelve Days at Nuku Hiva** Elena

Govor, 2010-03-31 In August 1803 two Russian ships the Nadezhda and the Neva set off on a round the world voyage to carry out scientific exploration and collect artifacts for Alexander I's ethnographic museum in St Petersburg Russia's strategic concerns in the north Pacific however led the Russian government to include as part of the expedition an embassy to Japan headed by statesman Nikolai Rezanov who was given authority over the ships' commanders without their knowledge Between them the ships carried an ethnically and socially disparate group of men Russian educated elite German naturalists Siberian merchants Baltic naval officers even Japanese passengers Upon reaching Nuku Hiva in the Marquesas archipelago on May 7 1804 and for the next twelve days the naval officers revolted against Rezanov's command while complex cross-cultural encounters between Russians and islanders occurred Elena Govor recounts the voyage reconstructing and exploring in depth the tumultuous events of the Russians' stay in Nuku Hiva the course of the mutiny its resolution and aftermath and the extent and nature of the contact between Nuku Hivans and Russians Govor draws directly on the writings of the participants themselves many of whom left accounts of the voyage Those by the ships' captains Krusenstern and Lisiansky and the naturalist George Langsdorff are well known but here for the first time their writings are juxtaposed with recently discovered textual and visual evidence by various members of the expedition in Russian German Japanese and by the Nuku Hivans themselves Two sailor beachcombers a Frenchman and an Englishman who acted as guides and interpreters later contributed their own accounts which feature the words and opinions of islanders Govor also relies on a myth about the Russian visit recounted by Nuku Hivans to this day With its unique polyphonic historical approach *Twelve Days at Nuku Hiva*

presents an innovative crosscultural ethnohistory that uncovers new approaches to and understandings of what took place on Nuku Hiva more than two hundred years ago *Encountering the Pacific in the Age of the Enlightenment* John

Gascoigne,2014-03-20 The Pacific Ocean was the setting for the last great chapter in the convergence of humankind from across the globe Driven by Enlightenment ideals Europeans sought to extend control to all quarters of the earth through the spread of beliefs the promotion of trade and the acquisition of new knowledge This book surveys the consequent encounters between European expansionism and the peoples of the Pacific John Gascoigne weaves together the stories of British French Spanish Dutch and Russian voyages to destinations throughout the Pacific region In a lively and lucid style he brings to life the idealism adventures and frustrations of a colourful cast of historical figures Drawing upon a range of fields he explores the complexities of the relationships between European and Pacific peoples Richly illustrated with historical images and maps this seminal work provides new perspectives on the significance of European contact with the Pacific in the

Enlightenment **The Russians and Australia** Glynn Barratt,2011-11-01 Known for his pioneering work on Russia s early exploits in Australia and the Pacific historian Glynn Barratt again breaks new ground in presenting the first comprehensive study of Russian naval social mercantile and scientific enterprise in New South Wales between 1807 and 1835 Through Tsar Peter the Great s Dutch contacts Russia was aware quite early of the existence of New Holland and a number of unsuccessful attempts were made to reach what is now Australia Following a description of these efforts Barratt focuses on the seventeen visits that Russian ships made to Australian ports on voyages from the Baltic carrying supplies for the settlements in Kamchatka and Alaska As a result of the good will generated by the Anglo Russian alliance against Napoleonic France relations between the British colonists and the Russian seamen were extremely cordial While visiting Australia Russian naval officers pursued a range of scientific activities including botany zoology ethnography and mineralogy and collected specimens and artefacts They also studied the British penal system and filled journals with detailed observations Available in Russian archives and museums and examined there by Barratt the journals and collections which until now have largely remained unexplored by historians reveal the high level of skill and education of these early visitors to Australia This is the first of four books in a series entitled Russia and the South Pacific 1696 1840 **International Books in Print** ,1997

The Polynesian Iconoclasm Jeffrey Sissons,2014-09-01 Within little more than ten years in the early nineteenth century inhabitants of Tahiti Hawaii and fifteen other closely related societies destroyed or desecrated all of their temples and most of their god images In the aftermath of the explosive event which Sissons terms the Polynesian Iconoclasm hundreds of architecturally innovative churches one the size of two football fields were constructed At the same time Christian leaders introduced oppressive laws and courts which the youth resisted through seasonal displays of revelry and tattooing Seeking an answer to why this event occurred in the way that it did this book introduces and demonstrates an alternative practice history that draws on the work of Marshall Sahlins and employs Bourdieu s concepts of habitus improvisation and practical
