Haugen,2003-10-16

After almost four centuries of expansion the Russian Empire at the beginning of the 20th century covered vast territories on the Eurasian continent and included an immensely diverse population How was the new Russian regime to deal with the complexity of its population This book examines the role of nation and nationality in the Soviet Union and analyzes the establishment of national republics in Soviet Central Asia It argues that the originally nationally minded Soviet communists with their anti nationalist attitudes came to view nation and national identity as valuable tools in state building

would never have materialized without the cooperation of all of the contributors each of whom certainly also has a list of people to thank for help As editor however I have the privilege of naming a few whose contributions were especially

important My understanding of Central Asian society has benefited enormously from the opportunities I have had to work and conduct research in the region especially in Uzbekistan I would therefore like to thank the International Research and Exchanges Board and the University of Tennessee for making several stays in Central Asia possible over the past few years

National Identity and Ethnicity in Russia and the New States of Eurasia Roman Szporluk, 1994 First Published in 1995 Routledge is an imprint of Taylor Francis an Informa company

Politics of Language in the Ex-Soviet Muslim States Jacob M. Landau, Barbara Kellner-Heinkele, 2001 A unique analysis of language policies in the central Asian states of the former Soviet Union

Empire of Nations Francine Hirsch, 2014-10-03 When the Bolsheviks seized power in 1917 they set themselves the task of building socialism in the vast landscape of the former Russian Empire a territory populated by hundreds of different peoples belonging to a multitude of linguistic religious and ethnic groups Before 1917 the Bolsheviks had called for the national self determination of all peoples and had condemned all forms of colonization as exploitative After attaining power however they began to express concern that it would not be possible for Soviet Russia to survive without the cotton of Turkestan and the oil of the Caucasus In an effort to reconcile their anti imperialist position with their desire to hold on to as much territory as possible the Bolsheviks integrated the national idea into the administrative territorial structure of the new Soviet state In *Empire of Nations* Francine Hirsch examines the ways in which former imperial ethnographers and local elites provided the Bolsheviks with ethnographic knowledge that shaped the very formation of the new Soviet Union The ethnographers who drew inspiration from the Western European colonial context produced all union censuses assisted government commissions charged with delimiting the USSR's internal borders led expeditions to study the human being as a productive force and created ethnographic exhibits about the Peoples of the USSR In the 1930s they would lead the Soviet campaign against Nazi race theories Hirsch illuminates the pervasive tension between the colonial economic and ethnographic definitions of Soviet territory this tension informed Soviet social economic and administrative structures A major contribution to the history of Russia and the Soviet Union *Empire of Nations* also offers new insights into the connection between ethnography and empire

Political Regimes and Neopatrimonialism in Central Asia Ferran Izquierdo-Brichs, Francesc Serra-Massansalvador, 2021-01-12 This book is aimed both at researchers and advanced students of Central Asia the space of the former USSR and the foreign policy of Russia and China The authors adopt a sociological approach in understanding how power structures emerged in the wake of the Soviet collapse The independencies in Central Asia did not happen as a consequence of a nationalist struggle but because the USSR imploded Thus instead of the elites being replaced the same Soviet elites who had competed for power in the previous system continued to do so in the new one which they had to build adapting themselves and the system to their needs Additionally unlike in the immense majority of the independent states that emerged from decolonization the social movements and capacity to mobilize the people were very weak in the new Central Asian states For this reason the configuration of the new systems was the product of a competition

for power between a very small number of elites who did not have to answer to the people and their demands. Thus the new power regimes acquired a strong neopatrimonial component. Analyzing the structure of societies, economies and politics of post-socialist states, this book will be of great interest to scholars of Central Asia, to sociologists and to scholars of China's rise.

The Soviet Legacy in Central Asia J. Glenn, 1999-08-05. This book analyses the new pattern of security concerns of the Central Asian successor states. This region is said to encompass Kazakhstan, Uzbekistan, Tadzhikistan, Kirghizstan and Turkmenistan. The main contention of the book is that the security problems of these states are similar to those that faced other Third World countries after they attained independence. That is due to the arbitrary creation of these states by external powers; they lack a certain degree of societal cohesiveness arising from the fact that several ethnic communities reside within their borders. It is this so-called insecurity dilemma of each of the Central Asian states that is therefore examined. Russia and Nationalism in Central Asia Teresa Rakowska-Harmstone, George Washington University. Institute for Sino-Soviet Studies, 1970. Russian-Soviet Unconventional Wars in the Caucasus, Central Asia, and Afghanistan Robert F. Baumann, 1993. *Laboratory of Socialist Development* Artemy M. Kalinovsky, 2018-05-15. Focusing on the Tajik Soviet Socialist Republic, this book places the Soviet development of Central Asia and the Soviet hope for communism's bringing prosperity to a supposedly backward area in global context. **Central Asia** Tom Everett-Heath, 2003. Examines the transition Central Asia underwent in the twentieth century following the collapse of the Soviet Union, the Soviet colonial legacy and the attempts of new states to build secular states within the radical Islamic world.
