Russia And Soviet Union Worlds Political Hotspots:

Hot Spot: North America and Europe Joseph R. Rudolph Jr.,2008-06-30 Even in the relatively serene world of North America and Western Europe numerous conflicts with the propensity for sustained political violence are carried out by domestic groups with alarming regularity This in depth volume explores conflicts and potential hot spot areas in these regions from anti globalization protests to immigration politics to the Basque provinces and the ETA Coverage is divided into three regions the established democracies of the U S Canada and Western Europe the democratizing countries of post communist Europe and the more volatile region encompassing Russia the Balkans the Causasus and Post Soviet Eastern Europe for a greater understanding of geographic interrelationships This comprehensive volume is a first stop reference source for the most significant political cultural and economic conflicts in North America and Europe today *Strategic Stability in the Post-Cold War World and the Future of Nuclear Disarmament* Melvin L. Best, Jr.,John Hughes-Wilson,Andrei A. Piontkowsky,2013-04-17 This Report contains a Consensus Report and the papers submitted to the April 6 10 1995 NATO Advanced Research Workshop on Strategic Stability In The Post Cold War World And The Future Of Nuclear Disarmament held in Washington D C United States Of America of at The Airlie Conference Center The workshop was sponsored by the NATO Division Scientific and Environmental Affairs as part of its ongoing outreach programme to widen and deepen scientific contacts between NATO member countries and the Cooperation Partner countries of the former Warsaw Treaty Organization The participants recognize that the collapse of the former Soviet Union has left a conceptual vacuum in the definition of a new world order Never before have the components of world order all changed so rapidly so deeply or so globally As Henry Kissinger points out the emergence of the new world order will have answered three fundamental questions What are the basic units of the international order What are their means of interacting and What are the goals on behalf of which they interact The main question is whether the establishment and maintenance of an international system will turn out to be a conscious design or the outgrowth of a test of strength The concept of a planning framework that could shape or govern these interactions is emerging and may now be at hand Capturing this emerging framework is the thrust of this NATO sponsored Advanced Research Workshop **The Military History of the Soviet Union** F. Kagan,R. Higham,2016-04-30 The Military History of the Soviet Union and The Military History of Tsarist Russia treat Russian military history from the rise of the Muscovite state to the present even peeking briefly into the future The two volumes will cover Russia s land forces extensively but will also cover the development of the Russian Navy and the creation and development of the Russian Air Force parts of the Russian military machine which are frequently neglected in general writings The historical analysis will address the development and function of the Russian military whether in peace or in war as well as the impact of war and changes in the military upon Russian society and politics Conflict Hot Spots Alex Braithwaite,2016-05-23 Militarized conflicts between states appear to occur repeatedly in the same geographic regions Both World Wars and a series

of interstate disputes in the post Cold War system had their origins in the Balkans region of Eastern Europe This study introduces the concept of a conflict hot spot to the broader empirical literature on conflict processes It devotes considerable time to identifying the common causes and consequences of conflict hot spots across many regions globally offering a theoretical and empirical contribution to the emerging literature on the spatiality of conflict processes Rather than merely controlling for spatial dependence between episodes of conflict the book incorporates this spatial dependence within a series of models of conflict behaviours and is therefore able to directly model the process of conflict diffusion

Jihadism in the Russian-Speaking World Danis Garaev, 2022-08-29 This book contends that the discourses of jihadism in Russia's North Caucasus and their offshoots in other parts of the Russian Federation are not just reflections of jihadi ideologies that came from abroad rather that post Soviet jihadism is a phenomenon best understood when placed in the broader cultural environment in which it emerged an environment which comprises the North Caucasus the whole of Russia and beyond It examines how post Soviet jihadism is also part of global processes in this case global jihadism explores how post Soviet jihadism bears the imprint of the preceding Soviet context especially in terms of symbols discursive tools interpretational frameworks and dissemination strategies and discusses how ironically Russian speaking jihadism is an expansionist idea for uniting all Russian regions on a supra ethnic principle but an idea that was not born in Moscow or St Petersburg Overall the book demonstrates that Russian speaking jihadism is a completely new ideology which nevertheless has its origins in the intellectual and cultural heritage of the Soviet era and in the broader trends of post Soviet society and culture
