individualism and both believe that their nations can only be great if they remain true to their religious heritage In exploring their experience the book focuses on shared and different elements in their diagnosis of what is wrong with their societies and how this affects their policy intervention over issues such as religious and ethnic belonging sexual orientation and education Drawing on political sociological and religious studies this work will be a useful reference for students and scholars of religion and politics Russian politics and American politics

*Russia's Dangerous Texts* Kathleen F. Parthe, 2008-10-01 Russia's Dangerous Texts examines the ways that writers and

their works unnerved and irritated Russia's authoritarian rulers both before and after the Revolution Kathleen F Parth identifies ten historically powerful beliefs about literature and politics in Russia which include a view of the artistic text as national territory and the belief that writers must avoid all contact with the state Parth offers a compelling analysis of the power of Russian literature to shape national identity despite sustained efforts to silence authors deemed subversive No amount of repression could prevent the production distribution and discussion of texts outside official channels Along with tragic stories of lost manuscripts and persecuted writers there is ample evidence of an unbroken thread of political discourse through art The book concludes with a consideration of the impact of two centuries of dangerous texts on post Soviet Russia

The Post-Soviet Russian Orthodox Church Katja Richters, 2012 In recent years the Russian Orthodox Church has become a more prominent part of post Soviet Russia A number of assumptions exist regarding the Church's relationship with the Russian state that the Church has always been dominated by Russia's secular elites that the clerics have not sufficiently fought this domination and occasionally failed to act in the Church's best interest and that the Church was turned into a Soviet institution during the twentieth century This book challenges these assumptions It demonstrates that church state relations in post communist Russia can be seen in a much more differentiated way and that the church is not subservient very much having its own agenda Yet at the same time it is sharing the state's and Russian society's nationalist vision The book analyses the Russian Orthodox Church's political culture focusing on the Putin and Medvedev eras from 2000 It examines the upper echelons of the Moscow Patriarchate in relation to the governing elite and to Russian public opinion explores the role of the church in the formation of state religious policy and the church's role within the Russian military It discusses how the Moscow Patriarchate is asserting itself in former Soviet republics outside Russia especially in Estonia Ukraine and Belarus It concludes by re-emphasising that although the church often mirrors the Kremlin's political preferences it most definitely acts independently

**Russian Conservatism** Glenn Diesen, 2021-01-12 Russian conservatism is making a forceful return after a century of experimenting with socialism and liberalism Conservatism is about managing change by ensuring that modernization evolves organically by building on the past Conservatism has a natural attraction for Russia as its thousand year long history is largely characterized by revolutionary change the destructive process of uprooting the past to give way to modernity Navigating towards gradual and organic modernization has been a key struggle ever since the Mongols invaded in the early 13th century and decoupled Russia from Europe and the arteries of international trade Russian history has consisted of avoiding revolutions that are either caused by falling behind on modernization or making great leaps forward that disrupts socio economic and political traditions Russian conservatives are now tasked with harmonizing the conservative ideas of the 19th century with the revolutionary changes that shaped Russia in the 20th century The rise of Asia now provides new opportunities as it enables Russia to overcome its fixation on the West and develop a unique Russian path towards modernization that harmonizes its Eurasian geography and history

*Russian Orthodoxy*

*and Secularism* Kristina Stoeckl, 2020-07-20 Russian Orthodoxy and Secularism surveys the ways in which the Russian Orthodox Church has negotiated its relationship with the secular state with other religions and with Western modernity from its beginnings until the present. It applies multiple theoretical perspectives and draws on different disciplinary approaches to explain the varied and at times contradictory facets of Russian Orthodoxy as a state church or as a critic of the state as a lived religion or as a civil religion controlled by the state as a source of dissidence during Communism or as a reservoir of anti-Western anti-modernist ideas that celebrate the uniqueness and superiority of the Russian nation. Kristina Stoeckl argues that three decades after the fall of Communism the period of post-Soviet transition is over for Russian Orthodoxy and that the Moscow Patriarchate has settled on its role as national church and provider of a new civil religion of traditional values.
