Critical Infrastructure Protection XVII Jason Staggs, Sujeet Sheno, 2023-12-28 The information infrastructure comprising computers, embedded devices, networks, and software systems is vital to operations in every sector: chemicals, commercial facilities, communications, critical manufacturing, dams, defense, industrial base, emergency services, energy, financial services, food and agriculture, government facilities, healthcare, and public health. Information technology, nuclear reactors, materials, and waste transportation systems, and water and wastewater systems. Global business and industry governments indeed society itself cannot function if major components of the critical information infrastructure are degraded, disabled, or destroyed. Critical Infrastructure Protection XVII describes original research results and innovative applications in the interdisciplinary field of critical infrastructure protection. Also, it highlights the importance of weaving science, technology, and policy in crafting sophisticated yet practical solutions that will help secure information, computer, and network assets in the various critical infrastructure sectors. Areas of coverage include Themes and Issues, Smart Grid Risks and Impacts, Network and Telecommunications Systems Security, Infrastructure Security, Automobile Security. This book is the seventeenth volume in the annual series produced by the International Federation for Information Processing (IFIP) Working Group 11.10 on Critical Infrastructure Protection, an international community of scientists, engineers, practitioners, and policy makers dedicated to advancing research, development, and implementation efforts focused on infrastructure protection. The book contains a selection of eleven edited papers from the Seventeenth Annual IFIP WG 11.10 International Conference on Critical Infrastructure Protection, which was held at SRI International, Arlington, Virginia, USA, in the spring of 2023. Critical Infrastructure Protection XVII is an important resource for researchers, faculty members, and graduate students, as well as for policy makers, practitioners, and other individuals with interests in homeland security.
