Serving Women Household Service In Nineteenth Century America:

Serving Women Faye E. Dudden, 1983 Examines the daily lives and social conditions of household servants and discusses their relationships with their female employers At Home in Nineteenth-Century America Amy G. Richter, 2015-01-23 Few institutions were as central to nineteenth century American culture as the home Emerging in the 1820s as a sentimental space apart from the public world of commerce and politics the Victorian home transcended its initial association with the private lives of the white native born bourgeoisie to cross lines of race ethnicity class and region Throughout the nineteenth century home was celebrated as a moral force domesticity moved freely into the worlds of politics and reform and home and marketplace repeatedly remade each other At Home in Nineteenth Century America draws upon advice manuals architectural designs personal accounts popular fiction advertising images and reform literature to revisit the variety of places Americans called home Entering into middle class suburban houses slave cabins working class tenements frontier dugouts urban settlement houses it explores the shifting interpretations and experiences of these spaces from within and without Nineteenth century homes and notions of domesticity seem simultaneously distant and familiar This sense of surprise and recognition is ideal for the study of history preparing us to view the past with curiosity and empathy inspiring comparisons to the spaces we inhabit today malls movie theaters city streets and college campuses Permitting us to listen closely to the nineteenth century's sweeping conversation about home in its various guises At Home in Nineteenth Century America encourages us to hear our contemporary conversation about the significance and meaning of home anew while appreciating the lingering imprint of past ideals Instructor's Guide **Domesticity And Dirt** Phyllis Palmer, 2010-09-23 Examining the cultural norms of women after Suffrage to define labor based on color After Foucault University of Illinois at Chicago. Institute for the Humanities, 1988 The essays in this collection assess the impact of Michel Foucault's work on the conditions of disciplinary knowledge in humanistic studies and speculate on the directions we might take from his work They cover a wide range of fundamental concerns from philosophy of knowledge in both theoretical and applied forms to philology history psychoanalysis feminism and politics Whether the contributors would be counted as being for or against Foucault all of them show that their understanding has been altered by the challenges his work has posed In some cases Foucault's thought is severely criticized as an obstacle to effective understanding or action in others his thought offers a resource through which received opinion can be displayed The Reader's Companion to U.S. Women's History Wilma Mankiller, 1998 Contains articles on fashion and style household workers images of women jazz and blues maternity homes Native American women Phillis Wheatley homes picture brides single women and teaching **Playing House in the American West** Cathryn Halverson, 2013-11-26 Examines an eclectic group of western women's autobiographical texts canonical and otherwise Playing House in the American West argues for a distinct regional literary tradition characterized by strategic representations of unconventional domestic life The controlling metaphor Cathryn Halverson uses in her engrossing

study is playing house From Caroline Kirkland and Laura Ingalls Wilder to Willa Cather and Marilynne Robinson from the mid nineteenth to the late twentieth centuries western authors have persistently embraced wayward or eccentric housekeeping to prove a woman s difference from western neighbors and eastern readers alike The readings in *Playing House* investigate the surprising textual ends to which westerners turn the familiar terrain of the home evaluating community arguing for different conceptions of race and class and perhaps most especially resisting traditional gender roles Western women writers Halverson argues render the home as a stage for autonomy resistance and imagination rather than as a site of sacrifice and obligation The western women examined in *Playing House in the American West* are promoted and read as representatives of a region as insiders offering views of distant and intriguing ways of life even as they conceive of themselves as outsiders By playing with domestic conventions they recast the region they describe portraying the West as a place that fosters female agency individuality and subjectivity

The Shadow Of The Mills S. J. Kleinberg, 2017-03-17 The profound disruption of family relationships caused by industrialization found its most dramatic expression in the steel mills of Pittsburgh in the 1880s The work day was twelve hours and the work week was seven days with every other Sunday for rest In this major work S J Kleinberg focuses on the private side of industrialization on how the mills structured the everyday existence of the women men and children who lived in their shadows What did industrialization and urbanization really mean to the people who lived through the these processes What solutions did they find to the problems of low wages poor housing inadequate sanitation and high mortality rates Through imaginative use of census data the records of municipal charitable and fraternal organizations and the voices of workers themselves in local newspapers Kleinberg builds a detailed picture of the working class life cycle marital relationships the interaction between parents and children the education and employment prospects of the young and the lives if the elderly

Early American Technology Judith A. Maid in the USA Mary Romero, 2016-05-13 This is a classic work in the fields of Women s Studies and Sociology On its 10th Anniversary it is still a vital and moving study of the lives of immigrant domestic workers and is constantly cited in the research Romero s new introduction will offer a fresh look at the material including more recent events proving that the issues discussed in the book are still very relevant to today s world

Sex, Love, Race Martha Hodes, 1999 Since the colonial era North America has been defined and continually redefined by the intersections of sex violence and love across racial boundaries Motivated by conquest economics desire and romance such crossings have profoundly affected American society by disturbing dominant ideas about race and sexuality *Sex Love Race* provides a historical foundation for contemporary discussions of sex across racial lines which despite the numbers of interracial marriages and multi racial children remains a controversial issue today The first historical anthology to focus solely and widely on the subject *Sex Love*

Race gathers new essays by both younger and well known scholars which probe why and how sex across racial boundaries has so threatened Americans of all colors and classes Traversing the whole of American history from liaisons among Indians Europeans and Africans to twentieth century social scientists fascination with sex between Asian Americans and whites the essays cover a range of regions and of racial ethnic and sexual identities in North America Back cover
