Sex Equality Policy In Western Europe:

Sex Equality Policy in Western Europe Frances Gardiner, 2005-07-25 This book presents a wide ranging comparative analysis of the development of sex equality policies within Europe The contributors comprising both European and US based scholars address a very current political issue This is an area of policy that has reached the decision making stage in much of Europe and it is thus possible to assess the outcome of policy making and to account for cross national variations of sex equality policy measures The contributors discuss the similarities and differences in levels of awareness commitment to equality of opportunity and readiness to turn rhetoric into reality in a number of west European countries including Spain the Netherlands Britain Norway and Ireland **Gender Equality Policy in the European Union** Ingrid Bego, 2015-07-14 One of the solutions proposed by the European Union to remedy the effects of the 2008 economic crisis is to increase female labour participation This book explores the policy changes in four new member states that may reduce the gender employment gap and improve women s equal participation in the labour force ***Public Policy to Reduce Inequalities Across Europe*** Paul Cairney, Michael Keating, Sean Kippin, Emily St Denny, 2022 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Scholarship Online and offered as a free PDF download from OUP and selected open access locations There is a broad consensus across European states and the EU that social and economic inequality is a problem that needs to be addressed Yet inequality policy is notoriously complex and contested This book approaches the issue from two linked perspectives First a focus on functional requirements highlights what policymakers think they need to deliver policy successfully and the gap between their requirements and reality We identify this gap in relation to the theory and practice of policy learning and to multiple sectors to show how it manifests in health education and gender equity policies Second a focus on territorial politics highlights how the problem is interpreted at different scales subject to competing demands to take responsibility This contestation and spread of responsibilities contributes to different policy approaches across spatial scales We conclude that governments promote many separate equity initiatives across territories and sectors without knowing if they are complementary or contradictory This outcome could reflect the fact that ambiguous policy problems and complex policymaking processes are beyond the full knowledge or control of governments It could also be part of a strategy to make a rhetorically radical case while knowing that they will translate into safer policies It allows them to replace debates on values regarding whose definition of equity matters and which inequalities to tolerate with more technical discussions of policy processes Governments may be offering new perspectives on spatial justice or new ways to reduce political attention to inequalities **Gender and Justice** Sally Jane Kenney, 2013 Intended for use in courses on law and society as well as courses in women s and gender studies women and politics and women and the law this book explores different questions in different North American and European geographical jurisdictions and courts demonstrating the value of a gender analysis of courts judges law institutions organizations and ultimately politics **Gender and Justice**

relations develop Government has attempted to balance flexibility with fairness preserving light touch regulation whilst introducing rights to minimum wages and to employee representation in the workplace Yet this is an open economy conditioned significantly by developing patterns of international trade and by European Union policy initiatives This interaction of domestic and cross national influences in analysis of changes in employment relations runs throughout the volume

Gendering Spanish Democracy Mónica Threlfall, Christine Cousins, Celia Valiente Fernández, 2005 Addressing aspects of women's experience such as the public spheres of elective politics public policy making the labour market this book offers an up to date critical assessment of gender in Spain

The Limits of Gendered Citizenship Elżbieta H. Oleksy, Jeff Hearn, Dorota Golańska, 2011-02-01 The underlying theme of this edited collection is gendered citizenship as well as the challenges and limits that confront the gendering of citizenship It critiques the notion of the genderless nation state citizen in both analytical and policy terms and contexts and necessarily engages with at least three major sets of contradictions or tensions limitations on achieving gender equal or gender equitable citizenship relations and differences between gender equality policy diversity policy and gender mainstreaming and interplays of academic analyses of and practical interventions on gendered citizenship Contributors from diverse scientific disciplines and academic backgrounds aim to provide a better understanding of the challenges that societies within Europe and elsewhere face vis vis diversity regionalism transnationalism and migration
