Tough Choices Carly Fiorina,2011-02-22 By accepting the CEO job at Hewlett Packard an iconic company that had lost its way Carly Fiorina confirmed her status as the most powerful businesswoman in America But she also made herself a target for everyone who disliked her bold leadership style and resented her rapid rise For six years as she led HP through drastic changes and a controversial merger Fiorina was the subject of endless analysis debate and speculation Yet in all that time the public never really got to know the person behind the persona Tough Choices finally reveals the real Carly Fiorina who writes with brutal honesty about her triumphs and failures her deepest fears and most painful confrontations including her sudden and very public firing by HP s board of directors Tough Choices shows what it s really like to lead a major corporation in a time of great change while trying to stay true to your values It s one woman s inspiring story along with her unique perspective on leadership technology globalisation sexism and many other issues Superb certain to be a hit Ms Fiorina is at her best when recounting the travails of a woman in a male dominated culture She is also good in her psychological descriptions of the constant betrayals that occur in corporate bureaucracies The woman that emerges from these pages is cultured sensitive and vulnerable even as she acts tough *The Economist* **Valley Boy** Thomas J. Hewlett Packard is an American icon the largest information technology company in the world The bedrock of Silicon Valley it employs more than 300 000 people its market capitalization is in excess of 100 billion and its products are in almost every home in the country where there is a printer or computer In 2003 the company began a transition from the family management style of its founders It made a bold statement by hiring as its new CEO the most visible female business executive in America Carly Fiorina Less than two years later the board fired her amid accusations of imperiousness that had begun damagingly to leak into the business media The board at that time included one of Silicon Valley's most flamboyant venture capitalists and owner of the largest and most expensive yacht in the world and a former CIA asset who believed he personally channeled the values of the company's founders Each had a long and complicated history with HP and each believed he should determine the company's future They ran up against a corporate governance expert whom they could not roll and a new CEO whose loyalties on the board were entirely opaque In this way the stage was set for a rancorous feud that split the board into implacably distrusting factions In the middle of the damaging schism HP introduced the Big Lie The lie was pinned on the chairman who was receiving treatment for stage 4 ovarian cancer And it sizzled through a largely unquestioning media Anthony Bianco gets to heart of the ethical morass at HP that ended up damning the entire board that created it Almost every American has an interest in how the country's greatest corporations are run and the character of the people entrusted with them The story of Hewlett Packard reflects power struggles that shape corporate America and is an alarming morality tale for our times **Falter** Bill McKibben, 2019-04-16 Thirty years ago Bill McKibben offered one of the earliest warnings about climate change Now he broadens the warning the entire human game he suggests has begun to play itself out Bill McKibben's groundbreaking book *The End of Nature* issued in dozens of languages and long regarded as a classic was the first book to alert us to global warming But the danger is broader than that even as climate change shrinks the space where our civilization can exist new technologies like artificial intelligence and robotics threaten to bleach away the variety of human experience Falter tells the story of these converging trends and of the ideological fervor that keeps us from bringing them under control And then drawing on McKibben's experience in building 350.org the first truly global citizens movement to combat climate change it offers some possible ways out of the trap We're at a bleak moment in human history and we'll either confront that bleakness or watch the civilization our forebears built slip away Falter is a powerful and sobering call to arms to save not only our planet but also our humanity **Bright Triumphs From Dark Hours** David Heenan, 2009-10-15 The dark hours They occur when we find things spiraling out of control when we feel most vulnerable and incapable of finding a solution In a world often turned dark and cold more and more people seem to be trapped in nightmarish circumstances Americans the world's optimists when faced with an intractable situation are taught to believe

that through hardwork and will power they can beat the odds Yet according to David Heenan keeping one s nose to the grindstone may actually make things worse Bright Triumphs From Dark Hours examines the lives of ten extraordinary people who overcame great adversity in their personal or professional lives by applying winning strategies that guided them out of the darkness of near defeat and into the light of success From New York City school chancellor Joel Klein taking on the monumental task of overhauling the city s embattled public school system to renowned scientist Shirley Ann Jackson breaking down barriers to become the first African American woman to receive a doctorate from MIT and head a major research university to retired U S Navy Commander Scott Waddle reshaping his life after the Ehime Maru disaster in these inspiring stories Heenan identifies key strategies that helped each person stay upbeat in the swirling vortex of tough times The final chapter outlines these practices in greater detail and explains how they can be used to create personal roadmaps to negotiate life s darkest hours from which come its greatest successes its brightest triumphs **The Writers Directory**
