Shen Pao-chen and China's Modernization in the Nineteenth Century David Pong,1994-01-28 The Opium Wars ushered in an era of intensive Western imperialism in China at a time when the Ch'ing dynasty was already in decline forcing a small number of Chinese officials to come to the realisation that China must protect itself by adopting the same military technology that had brought it national humiliation Shen Pao chen was one such official Abandoning the comfort of his successful career Shen devoted his life to building China's first modern naval dockyard and academy His successes and failures shed new light on the story of China's efforts at modernization a story that has not come to a conclusion As China engages in new rounds of economic and industrial modernization in the post Mao era many of these issues acquire new meanings and significance

*The Cambridge Economic History of China* Debin Ma,Richard von Glahn,2022-02-24 China's rise as the world's second largest economy surely is the most dramatic development in the global economy since the year 2000 Volume II which spans China's two turbulent centuries from 1800 charts this wrenching process of an ancient empire being transformed to re-emerge as a major world power This volume for the first time brings together the fruits of pioneering international scholarship in all dimensions of economic history to provide an authoritative and comprehensive overview of this tumultuous and dramatic transformation In many cases it offers a fundamental reinterpretation of major themes in Chinese economic history such as the role of ideology the rise of new institutions human capital and public infrastructure the impact of Western and Japanese imperialism the role of external trade and investment and the evolution of living standards in both the pre-Communist and Communist eras The volume includes seven important chapters on the Mao and reform eras and provides a critical historical perspective linking the past with the present and future Western Technology and China's Industrial Development Hsien-ch'un Wang,2022-04-22 This book explores how steam engine technology was transferred into nineteenth century China in the second half of the nineteenth century by focusing on the transmission of knowledge and skills It takes on the long term problem in historiography that puts too much emphasis on politics but ignores the techno-scientific and institutional requirements for launching such an endeavor It examines how translations broke linguistic and conceptual barriers and brought new understanding to the Chinese readership It also explores how the Fuzhou Navy Yard's shipbuilding and training program trained China's first generation of shipbuilding workers and engineers It argues that conservatism against technology was not to blame for China's slow development in steamship building Rather it was government officials' failure to realize the scale of institutional and techno-scientific changes required in importing and disperse new knowledge and skills **Fu Ssu-nien** Fansen Wang,2000-11-06 Fu Ssu-nien scholar and political and social critic was one of the most colourful influential intellectual figures in twentieth century China Wang Fan-sen's biography of Fu's life and contributions offers an in-depth examination of his role in intellectual development in modern China Fu's life in many ways embodied the dilemma faced by modern Chinese intellectuals dissatisfied with the model of the traditional literati

they lacked a professional academic model to take its place Fu's early years as a student leader of the May Fourth movement and subsequent life as an activist were born of intellectual dissatisfaction as an educator and founder of the Institute of Philology and History at Peking University and the Academia Sinica he worked to fill the void by professionalizing Chinese research and education This book incorporating original previously unpublished material from Fu's personal archives fills a major gap in the cultural and intellectual history of modern China     *Encyclopedia of Chinese History* Michael

Dillon,2016-12-01 China has become accessible to the west in the last twenty years in a way that was not possible in the previous thirty The number of westerners travelling to China to study for business or for tourism has increased dramatically and there has been a corresponding increase in interest in Chinese culture society and economy and increasing coverage of contemporary China in the media Our understanding of China's history has also been evolving The study of history in the People's Republic of China during the Mao Zedong period was strictly regulated and primary sources were rarely available to westerners or even to most Chinese historians Now that the Chinese archives are open to researchers there is a growing body of academic expertise on history in China that is open to western analysis and historical methods This has in many ways changed the way that Chinese history particularly the modern period is viewed The Encyclopedia of Chinese History covers the entire span of Chinese history from the period known primarily through archaeology to the present day Treating Chinese history in the broadest sense the Encyclopedia includes coverage of the frontier regions of Manchuria Mongolia Xinjiang and Tibet that have played such an important role in the history of China Proper and will also include material on Taiwan and on the Chinese diaspora In A-Z format with entries written by experts in the field of Chinese Studies the Encyclopedia will be an invaluable resource for students of Chinese history politics and culture     *Negotiated Power in Late Imperial China* Jennifer

Rudolph,2010-02-28 *Negotiated Power in Late Imperial China* The Zongli Yamen and the Politics of Reform explores the nature and functioning of reform during the nineteenth century of China's Qing dynasty 1644 1911 By analyzing the bureaucratic modes of management that developed around the creation and evolution of the Zongli Yamen or Foreign Office 1861 1901 the book demonstrates the vitality of not only the Chinese State but also the institutional traditions of its Manchu rulers Drawing on precedent and the flexibility of the administrative system in their efforts to manage the conduct of foreign affairs high Qing ministers transformed opportunities for institutional dynamism into the reality of a functioning central Zongli Yamen with a foreign affairs field administration supporting it in the provinces In the process they altered the governmental hierarchy and changed the definition of institutional power in the multi faceted area of foreign affairs and more generally for the Qing bureaucracy As the most significant example of institutional development in China's critical period of the nineteenth century the Zongli Yamen's experience serves as valuable background for understanding reform efforts in late imperial China and beyond     **War in Modern China** Harold M Tanner,2025-09-30 This book offers

comprehensive coverage of China's military history from the Qing dynasty 1644 1912 to present China has become one of the

great world powers of the twenty first century As a result Chinese leaders and observers outside of China alike seek to explain China s strategic thought and action In doing so they routinely refer to China s military history This volume examines this history beginning with the Qing dynasty s era of imperial expansion and subsequent decline continuing with the wars against foreign aggression and internal uprisings of the nineteenth century the revolutionary overthrow of the Qing in 1911 and seemingly constant wars of the first half of the twentieth century and concluding with the Chinese Communist Party s use of military power from 1950 to present This history is generally presented as a narrative of imperial greatness followed by a century of national humiliation followed by a recovery of national wealth and power under Communist Party leadership While acknowledging this narrative Harold Tanner digs deeper to reveal a fundamental continuity of interests underlying Chinese strategic thinking from the Qing to the present while also showing how the theory and practice of war in China changed over time as Chinese political and military leaders wrestled with tremendous challenges drawing on foreign sources as well as their own cultural heritage to seek new solutions Both engaging and timely War in Modern China A Military History is essential reading for students scholars and enthusiasts of Chinese and global military history

**The Identity Factor in Chinese Relations with Europe**  
Bjørnar Sverdrup-Thygeson, 2024-12-26 This book offers a sustained historically grounded analysis of the identity factor in China Europe relations The identity of the modern Chinese state was forged in the context of European emissaries gunboats and books The effects still shape China s policies towards Europe today as it becomes a focal point in the great power competition between the US and China The author argues that identity dilemmas are central to Chinese Europe policies both past and present This is reflected in the two pronged composition of the book one historical section combined and complemented with one contemporary section Case studies of three key political flashpoints between the EU individual

European countries and China over the last two decades demonstrates the contemporary relevance of a set of identity issues whose deep roots are uncovered through analysing Chinese political texts from the preceding two centuries Aimed primarily at scholars and students of Chinese and European international relations this book will also be of interest to scholars of ontological security theory constructivism and other identity driven approaches to international politics *From War to Nationalism* Arthur Waldron, 2003-10-16 This book investigates the warlord period in China focusing on the pivotal year 1924

**The China Order** Fei-Ling Wang, 2017-08-07 What does the rise of China represent and how should the international community respond With a holistic rereading of Chinese longue durée history Fei Ling Wang provides a simple but powerful framework for understanding the nature of persistent and rising Chinese power and its implications for the current global order He argues that the Chinese ideation and tradition of political governance and world order the China Order is based on an imperial state of Confucian Legalism as historically exemplified by the Qin Han polity Claiming a Mandate of Heaven to unify and govern the whole known world or tianxia all under heaven the China Order dominated Eastern Eurasia as a world empire for more than two millennia until the late nineteenth century Since 1949 the People's Republic of China has been a reincarnated Qin Han polity without the traditional China Order finding itself stuck in the endless struggle against the current world order and the ever changing Chinese society for its regime survival and security Wang also offers new discoveries and assessments about the true golden eras of Chinese civilization explains the great East West divergence between China and Europe and analyzes the China Dream that drives much of current Chinese foreign policy **China Contested** Matthew J. Flynn, 2009 Examines the history of China from ancient times to the present **The Struggle for the Eurasian Borderlands** Alfred J. Rieber, 2014-03-20 This book explores the Eurasian borderlands as contested shatter zones which have generated some of the world's most significant conflicts Analyzing the struggles of Habsburg Russian Ottoman Iranian and Qing empires Alfred J Rieber surveys the period from the rise of the great multicultural conquest empires in the late medieval early modern period to their collapse in the early twentieth century He charts how these empires expanded along moving military frontiers competing with one another in war diplomacy and cultural practices while the subjugated peoples of the borderlands strove to maintain their cultures and to defend their autonomy The gradual and fragmentary adaptation of Western constitutional ideas military reforms cultural practices and economic penetration began to undermine these ruling ideologies and institutions leading to the collapse of all five empires in revolution and war within little more than a decade between 1911 and 1923 **Reconsidering Tu Fu** Eva Shan Chou, 2006 Tu Fu is by universal consent the greatest poet of the Chinese tradition In the epochal An Lushan rebellion he alone of his contemporaries consistently recorded in poetry the great events and pervasive sufferings of the time For a millennium now Tu Fu's poetry has been accepted as epitomizing the Chinese moral conscience at its highest and as such his work has been placed almost beyond the reach of criticism Indeed objectivity about Tu Fu has often been viewed as criticism of him From Chronicle to

Canon Sarah Ann Queen, 1996-08-28 Every general account of the development of Chinese thought makes mention of Tung Chung shu c 195 105 bce as one of the pivotal philosophers of the Han Professor Queen's accomplishment is a meticulous dissection of Tung Chung shu's major work *The Luxuriant Gems of the Spring and Autumn Annals* Ch'un ch'iu fan lu established the first state sponsored Confucian Canon and created an ideal of the ruler and his role in government that was central to political discussion for two thousand years The author has carefully scrutinised this text for authenticity and has concluded that it was compiled several centuries after Tung's death but was mostly compiled from Tung's authentic writings By historicising this important text Queen allows a new view of Tung's relation to the political and doctrinal discourses of his day and also addresses the role of scriptures in Confucian spirituality *The Shanghai Badlands* Frederic E. Wakeman, Frederic Wakeman, Jr, 2002-07-25 Between August 1937 and December 1941 when the Chinese sectors of Shanghai were occupied by the Japanese terrorist wars broke out between Nationalist secret agents and assassins of the Japanese military authorities The most intensely disputed area was the western suburb the Badlands but warfare was not restricted to that zone A spate of assassinations bombings and machine gun raids took place under the noses of the authorities Thanks to the release of secret Chinese police files by the CIA the inner workings of these terrorist groups and their links to the notorious Green Gang can now be exposed for the first time In so doing this book also explores the social history of Shanghai's underworld the worsening relations between the US and Japan before World War II and the rivalry between leaders Chiang Kai shek and Wang Jingwei during China's War of Resistance *Deadly Dreams* J. Y. Wong, 2002-11-07 Wong argues that the opium trade played a large causative role in the Anglo Chinese Arrow War *The Origins of the Developmental State in Taiwan* J. Megan Greene, 2008-04-30 The rapid growth of Taiwan's postwar miracle economy is most frequently credited to the leading role of the state in promoting economic development Megan Greene challenges this standard interpretation in the first in depth examination of the origins of Taiwan's developmental state Greene examines the ways in which the Guomintang state planned and promoted scientific and technical development both in mainland China between 1927 and 1949 and on Taiwan after 1949 Using industrial science policy as a lens she shows that the state even during its most authoritarian periods did not function as a monolithic entity State planners were concerned with maximizing the use of Taiwan's limited resources for industrial development Political leaders on the other hand were most concerned with the state's political survival The developmental state emerged gradually as a result of the combined efforts of technocrats and outsiders including academicians and foreign advisors Only when the political leadership put its authority and weight behind the vision of these early planners did Taiwan's developmental state fully come into being In Taiwan's combination of technocratic expertise and political authoritarianism lie implications for our understanding of changes taking place in mainland China today **Science In China, 1600-1900: Essays By Benjamin A Elman** Benjamin A Elman, 2015-05-07 Distinguished historian Benjamin A Elman's collective volume on the history of science in imperial China

brings together over 30 years of historical literature on the subject With updates to the literature and new material including transcripts of podcasts and translated interview articles Science in China takes the reader on a journey starting in the early 17th century with the missionary efforts of the Jesuits in China and ending with the Protestant missions in the 19th century These two milestone encounters brought Western sciences to local Chinese scholars with great success in shaping modern Chinese science Elman studies the interaction between Western and Chinese sciences through philological research and evidence and treats the two encounters not as separate events but as a continuum of creative exchange of scientific knowledge and discourse      *Robert Hart and Sino-Foreign Disputes in Qing China, 1863-1908* Yorgos Moraitis, 2025-07-17

This book investigates the role of Sir Robert Hart in China s early engagement with Western international law covering the period from Hart s earliest days as Inspector General of the foreign dominated Chinese Imperial Maritime Customs CIMC to his final years in China 1863 1908 Drawing on Hart s personal records particularly his diaries and correspondence with CIMC officials and various political figures as well as Customs Service official publications records of the British Foreign Office Chinese official papers newspapers and other contemporary publications the book focuses on Sino foreign jurisdictional disputes in which Hart was involved They are used as case studies to examine his role and more broadly that of the CIMC in influencing contemporary perceptions in the West about China s status vis vis Western nation states Going beyond portraying Hart as a mere broker the book delves into his complex and multi faceted character It examines his idiosyncratic approach to Qing engagement with the West particularly focusing on his proposals for dealing with international institutions While these proposals had the potential to strengthen China they sought to do so largely on Western terms ultimately undermining China s ability to function as an independent state By analysing Hart s character and his engagement with Western international law the author aims to provide a nuanced understanding of the complexities surrounding Qing China s interaction with the West It highlights the ambivalence exhibited by both Qing and Western officials emphasising the challenges and opportunities in negotiations based on Western legal principles Contributing to discussion on whether international structures could be utilised to bolster Qing sovereignty this book will provide insights for those researching Chinese history diplomatic history and international relations and international law
