Detective Fiction on the Case of Community Devin Fromm, 2024-10-25 Detective Fiction on the Case of Community uses one of the most popular forms of modern literature to examine one of modernity's most trenchant problems. The project rests on the argument that detective fiction emerges specifically from an awareness of the stress that modernization puts on the possibilities of communal life as industrialization and urbanism accelerate the alienation and atomization we recognize as modern conditions. Here the detective appears as an image of thinking still able to perceive the threads that link such alienated people together and therefore able to imagine solutions along the lines of these obscured connections. Reading the genre's journey from its origins in Poe to its most unorthodox form in Pynchon allows fresh perspectives on the possibilities and limits of modern community from its endurance as part of modernization to its meaning today as a sticking point in theoretical debate and political activism

Transmedia Creatures Francesca Saggini, Anna Enrichetta Soccio, 2018-10-19 On the 200th anniversary of the first edition of Mary Shelley's *Frankenstein*, Transmedia Creatures presents studies of *Frankenstein* by international scholars from converging disciplines such as humanities, musicology, film studies, television studies, English, and digital humanities. These innovative contributions investigate the afterlives of a novel taught in a disparate array of courses. *Frankenstein* disturbs and transcends boundaries, be they political, ethical, theological, aesthetic, and not least of media, ensuring its vibrant presence in contemporary popular culture. Transmedia Creatures highlights how cultural content is redistributed through multiple media forms and modes of production, including user-generated ones from below that often appear synchronously and dismantle and renew established readings of the text while at the same time incorporating and revitalizing aspects that have always been central to it. The authors engage with concepts, value systems, and aesthetic moral categories among them: the family, horror, monstrosity, diversity, education, risk, technology, the body. From a variety of contemporary approaches and highly original perspectives, which yields new connections, *Frankenstein*, as evidenced by this collection, is paradoxically enriched by the heteroglossia of preconceptions, misreadings, and overreadings that attend it and that reveal the complex interweaving of perceptions and responses it generates. Published by Bucknell University Press. Distributed worldwide by Rutgers University Press
