Introduction to Classical and New Testament Greek Michael Boler, 2019-12-17 The defining feature of this textbook is the treatment of classical and New Testament Greek as one language using primary sources All the example sentences the students will translate are real Greek sentences half of which are taken from classical literature and philosophy and half of which are directly from the New Testament The advantage of this approach is that it highlights the linguistic literary and historical connections between classical Greece and early Christianity Rather than having students memorize isolated tables and artificial sentences Michael Boler spent years combing through thousands of pages of literature philosophy and scripture to find short powerful sentences that not only teach the grammatical concepts in each chapter but also contain seeds of wisdom that will spark wonder and discussion Introduction to New Testament and Classical Greek is born out of classroom experience in a Catholic liberal arts university whose students were disappointed to be forced to choose between textbooks that taught classical Greek in isolation and ones that focused exclusively on the New Testament By the end of this book students will have read over 200 lines of scripture and an equal amount of ancient literature from Homer to Aristotle They will also have the grammatical knowledge to continue to read classical and New Testament Greek Each chapter contains a section at the end that delves deeply into the etymology and background of the words and passages encountered in the respective chapter Professors will thus be able to use these chapters as a bridge to philosophical theological historical and literary topics that will enrich the class

A Literary History of Greece Robert Flaceliere, 2017-07-12 There are several good histories of Greek literature of various shapes and sizes but the purpose of this book is not simply to consider the literature of ancient Greece as an isolated subject treating each of the literary modes epic lyric drama history philosophy and rhetoric in terms of its own evolution Instead Robert Flaceliere provides a Greek history that deals with all the important works of Hellenic literature that are still of interest to contemporary readers and he does this in chronological order with an accurate account of their historical background Flaceliere follows the history of Greece down through the centuries as the writer records it He describes the political atmosphere in the nation and the advances in the other arts that influenced literature The author understands Sappho's rhapsodies girlish love in the context of the acceptance of homosexuality in that era He sympathizes with the unrequited passion of the penniless Archilochos He appreciates Pindar's pacifist tendencies Herodotus' upright insistence on truth and Euripides' doubts about the existence of the gods For the classical centuries so rich in talent and genius the author follows the successive generations systematically so as to distinguish the special features of

each what it owes to the preceding generation and how it paves the way for the next Since this is a literary history attention is mainly focused on the writers and their works but by displaying these in their political social artistic and scientific setting Flaceliere gives a better understanding of the production and significance of these wonderful achievements of the human spirit Due to the wide range of material presented A Literary History of Greece can be used as a reference book as well as for enjoyment reading

Southern Literary Messenger ,1855 *Archetypes of Conversion* Anne Hunsaker Hawkins,2014-03-07 This sensitive and imaginative study explores the phenomenon of conversion in three major religious autobiographies the Confessions of Saint Augustine Grace Abounding by John Bunyan and Thomas Merton s The Seven Storey Mountain These three religious figures could hardly be more different and yet as Hawkins shows their conversion narratives are remarkably similar in patterns of theme figure and action This archetypal approach is particularly appropriate to spiritual autobiography which is less concerned with self than with soul and which seeks to relate the individual to a divine reality that is universal and timeless Hawkins approach to these texts is sophisticated yet free of jargon and doctrinaire psychologizing Here archetypal

analysis becomes not an end in itself but also a means to investigate the complexity of the individual text Hawkins archetypal analysis serves not only to discern continuities but also to explore cultural ideological and psychological variations Adapting William James's distinction between crisis and lysis conversion Hawkins shows that the conversion paradigm central to each autobiography determines its religious meaning its formal structure and its archetypal emphases The author approaches the phenomena of conversion with a blend of critical detachment and imaginative sympathy She is always careful to honor the authenticity of religious experience and for this reason her commentary succeeds in illuminating it The result is an interdisciplinary study that will appeal to the psychologist and literary critic as well as the student of religion But these narratives of conversion offer paradigms that apply to any deeply significant change for they are of interest and concern to all readers seeking to find meaning in their lives Hawkins makes us feel both the immediacy and the permanence of these texts for What is human in them speaks to what is human in us **Creation, the Sacred Universe** Gyeorgos C.
