Shifting Sands Of History Interpretations Of Ptolemaic Egypt:

The Shifting Sands of History Alan Edouard Samuel,1989 **Hellenistic History and Culture** Peter Green,2023-09-01 In a 1988 conference American and British scholars unexpectedly discovered that their ideas were converging in ways that formed a new picture of the variegated Hellenistic mosaic That picture emerges in these essays and eloquently displays the breadth of modern interest in the Hellenistic Age A distrust of all ideologies has altered old views of ancient political structures and feminism has also changed earlier assessments The current emphasis on multiculturalism has consciously deemphasized the Western Greco Roman tradition and Nubians Bactrians and other subject peoples of the time are receiving attention in their own right not just as recipients of Greco Roman culture History like Herakleitos river never stands still These essays share a collective sense of discovery and a sparking of new ideas they are a welcome beginning to the reexploration of a fascinatingly complex age In a 1988 conference American and British scholars unexpectedly discovered that their ideas were converging in ways that formed a new picture of the variegated Hellenistic mosaic That picture emerges in these essays and eloquently displays the breadth of *Agricultural and Pastoral Societies in Ancient and Classical History* Michael Adas,2001 Introduces readers to the cross cultural study of ancient and classical civilizations The book is divided into two sections the first examining the ongoing interaction between ancient agrarian and nomadic societies and the second focusing on regional patterns in the dissemination of ideas **The Shifting Sands of History** Alan Edouard Samuel,1989 **A History of the Ptolemaic Empire** Günther Hölbl,2013-02-01 This compelling narrative provides the only comprehensive guide in English to the rise and decline of Ptolemaic rule in Egypt over three centuries from the death of Alexander in 323 BC to the tragic deaths of Antony and Cleopatra in 30 BC The skilful integration of material from a vast array of sources allows the reader to trace the political and religious development of one of the most powerful empires of the ancient eastern Mediterranean It shows how the success of the Ptolemies was due in part to their adoption of many features of the Egyptian Pharaohs who preceded them their deification and funding of cults and temples throughout Egypt **Land and Power in Ptolemaic Egypt** J. G. Manning,2003-05-29 This history of land tenure under the Ptolemies explores the relationship between the new Ptolemaic state and the ancient traditions of landholding and tenure Departing from the traditional emphasis on the Fayyum it offers a coherent framework for understanding the structure of the Ptolemaic state and thus of the economy as a whole Drawing on both Greek and demotic papyri as well as hieroglyphic inscriptions and theories taken from the social sciences Professor Manning argues that the traditional central state despotic model of the Egyptian economy is insufficient The result is a subtler picture of the complex relationship between the demands of the new state and the ancient locally organized social structure of Egypt By revealing the dynamics between central and local power in Egypt the book shows that Ptolemaic economic power ultimately shaped Roman Egyptian social and economic institutions *Medicine and Society in Ptolemaic Egypt* Philippa Lang,2012-12-07 Current questions on whether Hellenistic Egypt

should be understood in terms of colonialism and imperialism multicultural separatism or integration and syncretism have never been closely studied in the context of healing Examining all forms of healing within the specific socioeconomic and environmental constraints of the Ptolemies Egypt this book explores how linguistic cultural and ethnic affiliations and interactions were expressed in the medical domain Topics include the environmental and demographic background perceptions of Greek and Egyptian medicine the intersection between religion and healing interactions on the theoretical and textual plane diagnosis prognosis and therapeutics in practice and the range of medical practitioners The book concludes with a case study of medicine in Ptolemaic Alexandria The Greek World After Alexander 323-30 BC Graham

The Ancient Economy Joseph Gilbert Manning,Ian Morris,2005 Historians and archaeologists normally assume that the economies of ancient Greece and Rome between about 1000 BC and AD 500 were distinct from those of Egypt and the Near East However very different kinds of evidence survive from each of these areas and specialists have as a result developed very different methods of analysis for each region This book marks the first time that historians and archaeologists of Egypt the Near East Greece and Rome have come together with sociologists political scientists and economists to ask whether the differences between accounts of these regions reflect real economic differences in the past or are merely a function of variations in the surviving evidence and the intellectual traditions that have grown up around it The contributors describe the types of evidence available and demonstrate the need for clearer thought about the relationships between evidence and models in ancient economic history laying the foundations for a new comparative account of economic structures and growth in the ancient Mediterranean world

Ancient Perspectives on Egypt Roger Matthews,Cornelia

Roemer,2016-09-16 The allure of Egypt is not exclusive to the modern world Egypt also held a fascination and attraction for people of the past In this book academics from a wide range of disciplines assess the significance of Egypt within the settings of its past The chronological span is from later prehistory through to the earliest literate eras of interaction with Mesopotamia and the Levant the Aegean Greece and Rome Ancient Perspectives on Egypt includes both archaeological and documented evidence which ranges from the earliest writing attested in Egypt and Mesopotamia in the late fourth millennium BC to graffiti from Abydos that demonstrate pilgrimages from all over the Mediterranean world to the views of Roman poets on the nature of Egypt This book presents for the first time in a single volume a multi faceted but coherent collection of images of Egypt from and of the past The Monetary Systems of the Greeks and Romans W. V.

Harris,2010-04-29 Most people have some idea what Greeks and Romans coins looked like but few know how complex Greek and Roman monetary systems eventually became The contributors to this volume are numismatists ancient historians and economists intent on investigating how these systems worked and how they both did and did not resemble a modern monetary system Why did people first start using coins How did Greeks and Romans make payments large or small What does money mean in Greek tragedy Was the Roman Empire an integrated economic system This volume can serve as an introduction to such questions but it also offers the specialist the results of original research *The Demades Papyrus*

(P.Berol. inv. 13045) Davide Amendola,2022-10-03 Despite the significance of its contents the so called Demades papyrus P Berol inv 13045 has received scarce scholarly attention since the 1923 editio princeps by Karl Kunst This unique late second century BCE document of almost 430 lines was found in the Egyptian chora but it is supposed to have been written in Alexandria where it probably served as a textbook for the highest level of rhetorical education Besides shedding new light on its find circumstances and physical aspects the volume offers a full re edition and commentary of the two adespota texts contained in it namely a eulogy of the Lagid monarchy and a historical work consisting of a dialogue between Demades and his prosecutor in the trial of 319 BCE at the court of Pella The aim of the accompanying introduction is to address the question of the origin nature and purpose of such fragments and of the collection itself as well as to show to what extent the papyrus contributes to a better understanding of some of the main historical events of the early Hellenistic period This book is thus meant to fill a significant gap in Classical scholarship all the more so as a close investigation of most of the topics dealt with therein has hitherto been lacking **Ptolemy the second Philadelphus and his world** Paul R.

McKechnie,Philippe Guillaume,2008 Ptolemy II Philadelphus second Macedonian king of Egypt 282 246BC captured intellectual high ground by founding the Alexandrian Library and Museum and cemented celebrity status by bankrolling his courtesans endeavours in Olympic chariot racing In this book scholars analyse a range of key aspects of Phiadelphus world

Ptolemy I and the Transformation of Egypt, 404-282 BCE Paul McKechnie,Jennifer A. Cromwell,2018-05-23 Amyrtaeus only pharaoh of the Twenty eighth Dynasty shook off the shackles of Persian rule in 404 BCE a little over seventy years later

Ptolemy son of Lagus started the Greek millennium J G Manning s phrase in Egypt living long enough to leave a powerful kingdom to his youngest son Ptolemy II in 282 In this book expert studies document the transformation of Egypt through the dynamic fourth century and the inauguration of the Ptolemaic state Ptolemy built up his position as ruler subtly and steadily Continuity and change marked the Egyptian Greek encounter The calendar the economy and coinage the temples all took on new directions In the great new city of Alexandria the settlers burial customs had their own story to tell **New Directions in the Study of Ancient Geography** Duane W. Roller, 2020-07-28 This volume brings together five essays that represent the latest directions in the study of geography in classical antiquity Arranged chronologically these contributions cover several centuries and cultures ranging from ancient Mesopotamia to the Roman Empire and deal with topics such as ancient cosmology literary interpretations of geography ancient navigation and geography in the Roman Imperial world Beginning in the ancient Near East Paul T Keyser s essay considers how Greek scholars whose views on the cosmos are still relevant today were influenced by early Near Eastern beliefs about the universe Moving to the Hellenistic period Duane W Roller presents and provides commentary on a navigational guide for Ptolemaic seamen written by Ptolemy II s chief of naval staff Timosthenes of Rhodes Georgia L Irby provides an analysis of a literary map the Shield of Aeneas from Vergil s Aeneid as well as a detailed study of Pomponius Mela and his Chorographia the earliest surviving Greco Roman geographical treatise and the only extant independent geographical work in Latin An essay by Molly Ayn Jones Lewis completes the volume by describing how Tacitus s Germania of the early second century AD is a work heavily reliant on environmental determinism an issue that is still relevant today Together these essays demonstrate the great diversity of both ancient geographical writing and modern scholarship on ancient geography This volume will be greeted with enthusiasm by ancient historians and classical studies scholars particularly those interested in the cultural and political facets of geography *Hellenizing Art in Ancient Nubia 300 B.C. - AD 250 and its Egyptian Models* László Török, 2011-07-12 Presenting a large body of evidence for the first time this book offers a comprehensive treatment of Nubian architecture sculpture and minor arts in the period between 300 BC AD 250 It focuses primarily on the Nubian response to the traditional pharaonic Hellenistic Roman Hellenizing and hybrid elements of Ptolemaic and Roman Egyptian culture The author begins with a history of Nubian art and a critical survey of the literature on Ptolemaic and Roman Egyptian art Special chapters are then devoted to the discussion of the Egyptian Greek interaction in the arts of Ptolemaic Egypt the place of Egyptian Hellenistic and Hellenizing art within the oikumene the pluralistic visual world of Ptolemaic and Roman Egypt as well as on the specific genre of terracotta sculpture Utilizing examples from Meroe City and Musawwarat es Sufra the author argues that cultural transfer from Ptolemaic and Roman Egypt to Nubia resulted in an inward focused adaptation Therefore the resulting Nubian art from this period expresses only those aspects of Egyptian and Greek art that are compatible with indigenous Nubian goals *Literate Education in the Hellenistic and Roman Worlds* Teresa Morgan, 1998 This book offers an assessment of the

content structures and significance of education in Greek and Roman society Drawing on a wide range of evidence including the first systematic comparison of literary sources with the papyri from Graeco Roman Egypt Teresa Morgan shows how education developed from a loose repertoire of practices in classical Greece into a coherent system spanning the Hellenistic and Roman worlds She examines the teaching of literature grammar and rhetoric across a range of social groups and proposes a model of how the system was able both to maintain its coherence and to accommodate pupils widely different backgrounds needs and expectations In addition Dr Morgan explores Hellenistic and Roman theories of cognitive development showing how educationalists claimed to turn the raw material of humanity into good citizens and leaders of society
