the Sunni Arab countries along with the US and EU Iran is wary of the world's powers after having been preyed upon to achieve other countries political aims Iranians are Shia Muslims a minority sect comprising only 10 to 15% of the billion plus Muslims in the world Shias persecution and marginalization began in ancient times after the demise of the Prophet of Islam in 632 and has continued ever since In modern times their worldwide oppression has been spearheaded by Saudi Arabia whose religion considers Shias to be apostates who deserve to be killed and its allies a persecution that began with the 1979 Iranian Revolution which was followed by the unprovoked invasion of Iran by Iraq in 1980 and the successful defence of this invasion by Iran's revolutionary forces Building upon this history Iran the Citadel of Shia Imams details the alarming aggression of the Sunni countries of the Middle East against the Shia led regimes of Iraq Syria and Yemen a relentless persecution of Shia Muslims and extreme injustice and aggression towards them the details of which need to be brought to light The unfortunate and reckless support of Saudi Arabia and its allies by the US and many other Western nations has perpetuated a blatant infringement upon the human rights of Iranians and Shia Muslims elsewhere The oppression of Iranians continues in the form of toughened US sanctions contrary to international law **The Shia Revival: How**

Conflicts within Islam Will Shape the Future Vali Nasr, 2007-04-17 A New York Times Bestseller Historically incisive geographically broad reaching and brimming with illuminating anecdotes Max Rodenbeck New York Review of Books Iranian born scholar Vali Nasr has become one of America's leading commentators on current events in the Middle East admired and welcomed by both media and government for his concise and coherent analysis Wall Street Journal front page profile In this remarkable work Anderson Cooper Nasr brilliantly dissects the political and theological antagonisms within Islam providing a unique and objective understanding of the 1400 year bitter struggle between Shias and Sunnis and shedding crucial light on its modern day consequences *Religion and Politics in Iraq* Muhammad Ismail Marcinkowski, 2004 Religion and Politics in Iraq features four chapters that outline the major political developments faced by Iraq's Muslim clerics from the end of the 19th century under the ailing Ottoman empire to the 1980s This crucial period saw fierce internal struggles foreign intervention and bloody persecution of the political opposition as well as the emergence of a totalitarian one party system

with absolute control over all sectors of social and religious life During this period Baathist Iraq attacked its Muslim neighbours Kuwait and Iran and used poison gas in its ethnic cleansing campaign against the Kurds This book focuses on the dilemma of Iraq s clerics within this setting caught between political activism and quietism It addresses also major developments in neighbouring Iran insofar as they had a bearing on Iraq

Professional Journal of the United States Army ,2007 Military Review ,2007 The Shia Revival: How Conflicts Within Islam Will Shape the Future

Towards the Dignity of Difference? Mojtaba Mahdavi,2016-02-24 The rise of popular social movements throughout the Middle East North Africa Europe and North America in 2011 challenged two hegemonic discourses of the post Cold War era Francis Fukuyama s The End of History and Samuel Huntington s The Clash of Civilizations The quest for genuine democracy and social justice and the backlash against the neoliberal order is a common theme in the global mass protests in the West and the East This is no less than a discursive paradigm shift a new beginning to the history a move towards new alternatives to the status quo This book is about difference and dialogue it embraces The Dignity of Difference and promotes dialogue However it also demonstrates the limits of dialogue as a useful and universal approach for resolving conflicts particularly in cases involving asymmetric and unequal power relations The distinguished group of authors suggests in this volume that there is a third way of addressing global tensions one that rejects the extremes of both universalism and particularism This third way is a radical call for an epistemic shift in our understanding of us other and good evil a radical approach toward accommodating difference as well as embracing the plural concept of the good The authors strengthen their alternative approach with a practical policy guide by challenging existing policies that either exclude or assimilate other cultures that wage the constructed global war on terror and that impose a western neo liberal discourse on non western societies This important book will be essential reading for all those studying civilizations globalization foreign policy peace and security studies multiculturalism and ethnicity regionalism global governance and international political economy

Parameters ,2007 The Middle East Barry Rubin,2015-03-17 The Middle East is an area of great importance globally yet misperceptions abound Events have made it a region of special interest to the West and so the search for understanding gains momentum This publication is intended to clarify the region s complex history and issues In developing this project the contributors set out to explore seven significant themes that are usually not found in other sources While many books focus on political history and conflicts this two volume work deals specifically with culture religion women economics governance and media as well as the role that the region s modern history has played in shaping its society and worldview

Shia Islam and Politics Jon Armajani,2020-05-20 This book argues that ever since Iran s Islamic Revolution in 1979 which established a Shia Islamic government in Iran that country s religious and political leaders have

used Shia Islam as a crucial way of expanding Iran's objectives in the Middle East and beyond. Since 1979, Iran's religious and political leaders have been concerned about Iran's security in the face of the hostility and expansionism of the United States and other western countries and the threats from powerful neighboring Sunni leaders and countries. While Iran's government has attempted to align itself with Shia Muslims in various countries such as Iraq and Lebanon against American and Sunni expansionism, the Iranian government has attempted to religiously nourish and politically mobilize those Shias as a matter of principle, not only because of the Iranian government's desires to protect Iran from external threats. The book analyzes Shia Islam and politics in Iran, Iraq, and Lebanon, which have among the largest proportional Shia populations in the Middle East and are vibrant centers of Shia intellectual life. The book's clear and jargon-free approach makes it especially accessible for students and general readers who would like an introduction to the book's topics.

Beyond Sunni and Shia Frederic Wehrey, 2018-02-01. This collection seeks to advance our understanding of intra-Islamic identity conflict during a period of upheaval in the Middle East. Instead of treating distinctions between and within Sunni and Shia Islam as primordial and immutable, it examines how political economy, geopolitics, domestic governance, social media, non- and sub-state groups, and clerical elites have affected the transformation and diffusion of sectarian identities. Particular attention is paid to how conflicts over distribution of political and economic power have taken on a sectarian quality and how a variety of actors have instrumentalized sectarianism. The volume covering Syria, Iraq, Lebanon, Saudi Arabia, and the Gulf, Iran, and Egypt includes contributors from a broad array of disciplines including political science, history, sociology, and Islamic studies. **Beyond Sunni and Shia** draws on extensive fieldwork and primary sources to offer insights that are empirically rich and theoretically grounded but also accessible for policy audiences and the informed public.

Arab-Iranian Relations Shireen T. Hunter, 2019-04-22. This textbook helps students and readers navigate the various factors ranging from the legacy of the past ethnic sectarian differences and cultural rivalry to the impact of colonial rule, modernization, and state building, plus the evolving nature of the international political system and great power policies in shaping Arab-Iranian relations in the last seven decades. The first part of this book looks into factors such as history, ethnic sectarian, and cultural issues that have shaped Iran's relations with Arab states. It explores the impact of the process of modernization and state building in the Arab world on these relations, plus the legacy of colonialism and the shifting dynamics of international politics and the evolution of key global players' policies towards Iran and the Arab states. The second part examines case studies in the evolution of Iran's relations with several key Arab states, including Egypt, Syria, and Lebanon, Iraq, Saudi Arabia, and the smaller Persian Gulf Arab states. By highlighting the complex set of factors and their interactions that have shaped Arab-Iranian relations, the book hopes to be a corrective to the simplistic and reductionist interpretations of these relations. This approach shows how a variety of factors and their interactions have shaped these relations; sometimes they have exacerbated the conflictual aspects of these relations, and at other times have fostered accommodation and even cooperation.
