Tennent, 2009-05-26 Thinking more globally about the formation of theology enriches our understanding of what it means to be a Christian It s no secret that the center of Christianity has shifted from the West to the global South and East While the truths of the Christian faith are universal different contexts and cultures illuminate new questions understandings and expressions What does this mean for theology as Western theologians understand it Timothy Tennent argues that the Christian faith is culturally and theologically translatable Theology in the Context of World Christianity is written to expand our ecclesiastical cartography by highlighting within each of the major themes of systematic theology studies that are engaging the global church such as Anthropology with studies drawn from the different views of human identity between Eastern and Western cultures Christology with a focus on the emphases that African Christians place on the characteristics of Christ Pneumatology by looking at the role of the Holy Spirit in Latin American Pentecostalism Eschatology by focusing on how this branch of theology shapes world missions and evangelism Each of the ten chapters examines traditional theological categories in conversation with theologians from across the globe making this volume valuable for students pastors missionaries and theologians alike Theological reflection is active and exciting in the majority world church and Tennent invites you to your own reflection and celebration of Christ s global church These are perspectives that should be heard considered and brought into conversation with Western theologians Global theology can make us aware of our own blind spots and biases and has much to offer toward the revitalization of Western Christianity      *Iron Eyes* Helen J. Baroni, 2012-02-01 *Iron Eyes* focuses on the Japanese Zen master Tetsugen Doko 1630 1682 the best known exponent of boku in Japan and the West boku Zen arose during the seventeenth century and became the third major Zen sect in Japan boku monks encouraged the laity to deepen their knowledge of and commitment to Buddhism Tetsugen is credited with producing the first complete wood block edition of the Chinese Buddhist scriptures in Japan Legend has it that Tetsugen had to raise the money for the project three times twice his great compassion led him to give away the money he had raised to the starving victims of natural disasters This Zen story is well known in Japan and has gained popularity among contemporary Buddhists in the West The first part of this book offers an introduction and a series of analytical chapters describing Tetsugen s life work and teachings as well as the legends related to him The second part comprises annotated translations of his major teaching texts important letters and other

historical documents a selection of his poetry and several traditional biographies

**Discourse and Ideology in Medieval Japanese Buddhism** Richard K. Payne, Taigen Dan Leighton, 2006-04-18 The medieval period of Japanese religious history is commonly known as one in which there was a radical transformation of the religious culture This book suggests an alternate approach to understanding the dynamics of that transformation One main topic of analysis focuses on what Buddhism its practices and doctrines its traditions and institutions meant for medieval Japanese peoples themselves This is achieved by using the notions of discourse and ideology and juxtaposing various topics on shared linguistic practices and discursive worlds of medieval Japanese Buddhism Collating contributions from outstanding scholars in the field of Buddhist Studies the editors have created an important work that builds on preliminary work on rethinking the importance and meaning of Kamakura Buddhism published recently in English and adds greatly to the debate

Green, Chanju Mun, 2018-06-05 Gy nen s Transmission of the Buddha Dharma in Three Countries is the first English translation of this work and a new assessment of it Gy nen 1240 1321 has been recognized for establishing a methodology for the study of Buddhism that would come to dominate Japan The three countries Gy nen considers are India China and Japan Ronald S Green and Chanju Mun describe Gy nen s innovative doctrinal classification system panjiao for the first time and compare it to other panjiao systems They argue that Gy nen s arrangement and what he chose to exclude served political purposes in the Kamakura period and thus engage current scholarship on the construction of Japanese Buddhism

**No Longer the Same** D. Brockman, 2011-01-17 This volume addresses what happens to Christian theology when it follows its traditional habit of excluding religious others from the theological conversation It argues that the exclusion of non Christian voices blinds Christian theology not only to its own character but also to the God to whom it seeks to be faithful

Doing the Work of Comparative Theology Veli-Matti Kärkkäinen, 2020-01-28 In a world that is more religiously diverse than ever before our coworkers and neighbors may well be adherents of other faiths But how many of us

**Beyond Dialogue** John B. Cobb, 1998-07-30 Christian Reflection about other religions has often misinterpreted the truth of the other Ways The Roman Catholic Church and the World Council of churches stress that Christians can gain an appreciative understanding of other traditions only through meaningful dialogue with believers of other faiths This book however emphasizes the need for Christians to go beyond dialogue to reach for a mutual transformation of Christianity and other religions By way of example the author explores with originality the Christian encounter with Mahayana Buddhism He offers an original view of how Christianity and Buddhism can appropriately transform one another when both partners are truly respected as equal Both contributing both benefiting John Cobb boldly challenges us to hear in an authentic way the truth which the other has to teach us and to be transformed by that truth
