Ships and Seafarers of the Orient ,1971-01-01 **A Study of Human Resources in Ship Operations** ,1982 Voyages of Abuse A. D. Couper,1999 Voyages of Abuse is a most useful and much needed addition to the ocean literature The book is extremely well written and painstakingly documented The detailed case histories will shake some consciences Elisabeth Mann Borgese Founder and Honorary Chair for Life International Ocean Institute Malta This book is a fine contribution to the ongoing debate about global governance in shipping and will doubtless help in persuading those who remain opposed to the notion that with flag state rights come flag state responsibilities David Cockcroft ITF General Secretary Professor Couper is well known in maritime circles for his passion and commitment for the welfare of the men and women of the sea This book is a valuable addition to the cause of seafarers and their human rights I warmly recommend it to all those who have the wellbeing of the shipping industry at heart Rev Jacques Harel General Secretary International Christian Maritime Association Voyages of Abuse details the deplorable conditions that exist in a minority sector of international shipping operating mainly although not exclusively under flags of convenience In a horrific account of human rights abuses that would be little tolerated in the countries of the shipowners the authors demonstrate that governments often pay little attention to cases of robbery abandonment deprivation and even death perpetrated by these shipowners or on vessels bearing their national flag The financial and shipping institutions that support substandard shipowners are also prepared to ignore the plight of the individual seafarer serving on the ships under their tenure The authors draw on case

studies to illustrate the issues including a perspective on Adriatic Tanker Company of Greece and examples of incompetent management and the reckless finance provisions in merchant shipping The authors also examine the plight of seafarers families who are particularly vulnerable and the legal rights of abused and abandoned seafarers They conclude by arguing for a global governance of shipping **Shipping and Logistics Law** Felix W.H. Chan,Jimmy J.M. Ng,Bobby K.Y.

Wong,2002-09-01 The maintenance of Hong Kong as a free port and international logistics hub is crucial for its economic vitality Rapidly expanding international trade with mainland China and Hong Kong has generated significant changes to the shipping and logistics law in both jurisdictions This textbook provides a general framework for the basic principles of shipping and logistics law in Hong Kong It contains illustrations from case law extracts of the relevant legislation and sample shipping and marine insurance documents for reference It covers the curriculum requirements of most courses on shipping law transport studies and logistics management Besides all the issues examined in this book have relevance for managers insurers bankers and lawyers who need to acquire a clear understanding of the key principles in a practical context

Seafarers, Merchants and Pirates in the Middle Ages Dirk Meier,2006 The first sailors braved the North Sea and the Baltic in open wooden boats their aims were varied to fish to trade to conquer and plunder Without maps or compasses they steered by the sun or by landmarks on the coast Nevertheless they discovered Iceland and North America and explored the rivers that flowed through Europe and Russia into the Black Sea With the Frisians and the Vikings extensive trade routes better ships larger harbours and wealthy coastal towns developed The pinnacle of these advances was the Hansa a commercial network that ran from Bruges to Riga In recent years archaeologists have discovered much about the development of their ships the elegant Viking longboat the ubiquitous cog the carrack and the caravel Much too has been revealed about life in Viking settlements and the bustling Hanseatic cities In this engaging and highly illustrated volume Dirk Meier brings to life the world of the medieval seaman based on evidence from ship excavations and contemporary accounts of voyages Dr Dirk Meier teaches ancient and medieval history and is Head of Coastal Archaeology at the Christian Albrechts University in Kiel Germany **Ships and Seafarers** ,1992 **Ships and Seafarers of the South Pacific** Victor

and working standards on board Exploitation of seafarers has always existed but now it has become more common and frequent Shipowners can cut costs in various ways but the most profitable and easiest to achieve are those at the expense of labour costs in particular costs for maintaining proper living conditions on board the ship This bulletin examines in detail the structure of the shipping industry focusing on problems concerning the working and living conditions of seafarers on board merchant ships serving the global sea transport system Exploring all levels of maritime policymaking on a global and European level the author analyses seafarers rights in the light of international enforcement mechanisms and particularly in the light of the recent ILO Maritime Labour Convention He also considers relevant case law as well as advisory opinions and policy statements from various pertinent agencies especially in the EU context Among the issues raised and discussed in depth in relation to their effect on seafarers labour standards are the following ship manning companies illicit crewing agencies flags of convenience hours of work and rest wages occupational health and safety accommodation food water and catering recreational facilities filing of grievance and port controls The author shows that expansion and progress of the maritime industry notwithstanding there is a great need for effective enforcement mechanisms in this area This is the first detailed analysis to connect the working and living conditions of seafarers with international supranational and national maritime legislation A giant step towards establishing a global monitoring system to enforce international maritime conventions regarding seafarers labour standards it is sure to make an important contribution to both international labour and employment law and the law of the sea

History of the Czechoslovak Ocean Shipping Company, 1948-1989 Lenka Kratka, 2015-08-01 This book offers a comprehensive history of the Czechoslovak Ocean Shipping Company C O S from its beginning in the late 1940s until the fall of communism. Owned by the Czechoslovak state, C O S's activities were shaped by Soviet standards. This unique study is structured according to the different phases of the Cold War and highlights the political aspects that determined C O S's fate. Lenka Kratka focuses on two contradictory economic dimensions that C O S had to engage with: Being part of the planned economy of a socialist state, it also dealt with companies in the capitalist West. Another paradoxical aspect of C O S emerges from the memories of former Czechoslovak seamen who experienced relative freedom when being aboard and strict communist regime control while at home with their families. Kratka's book offers fascinating insights into a neglected topic using thus far untapped sources and building on primary research in oral history and personal memory.
