

The background of the entire slide is a repeating pattern of ancient Greek or Roman ships, specifically triremes, sailing on the sea. Interspersed among the ships are various sea creatures, including fish, dolphins, and octopuses. The pattern is rendered in a light, sketchy style against a dark blue background.

Ships And Seamanship In The Ancient World:

Ships and Seamanship in the Ancient World Lionel Casson,1995-12-02 Examines the ships and seamanship of mariners in the ancient Mediterranean *Ships and Seamanship in the Ancient World* Lionel Casson,1971 Lionel Casson's encyclopedic study is the first of its kind to use underwater archaeological data to refine an area of scholarship that had for the most part relied on ancient texts and graphic representations Tracing the history of early ships and seamanship from pre-dynastic Egypt to the Roman empire from skiffs and barges to huge oared warships and royal yachts Casson describes not only the ships themselves but also the make up and training of the crews placement of weaponry how cargo was stored methods of navigation harbor facilities and the ways ships were named *Ships and Seamanship in the Ancient World* Lionel Casson,1971

Travel in the Ancient World Lionel Casson,1994-02-17 The only book of its kind in any language *Travel in the Ancient World* offers a lively comprehensive history of ancient travel from the first Egyptian voyages recorded in Old Kingdom inscriptions through Greek and Roman times to the Christian pilgrimages of the fourth and sixth centuries Rich in anecdote and colorful detail it now returns to print in paperback with a new preface by the author **Near Eastern Archaeology** Suzanne Richard,2003 Filling a gap in classroom texts more than 60 essays by major scholars in the field have been gathered to create the most up to date and complete book available on Levantine and Near Eastern archaeology

The Ship in the Medieval Economy, 600-1600 Richard W. Unger,1980-01-01 **A History of Seafaring in the Classical World (Routledge Revivals)** Fik Meijer,2014-06-17 A History of Seafaring in the Classical World first published in 1986 presents a complete treatment of all aspects of the maritime history of the Classical world designed for the use of students as well as scholars Beginning with Crete and Mycenae in the third millennium BC the author expounds a concise history of seafaring up to the sixth century AD The development of ship design and of the different types of ship the varied purposes of shipping and the status and conditions of sailors are all discussed Many of the most important sea battles are investigated and the book is illustrated with a number of line drawings and photographs Greek and Latin words are only used if they are technical terms ensuring A History of Seafaring in the Classical World is accessible to students of ancient history who are not familiar with the Classical languages *The Harvest of War* Stephen P. Kershaw,2022-10-04 The year 2022 marks 2 500 years since Athens the birthplace of democracy fought off the mighty Persian Empire This is the story of the three epic battles Marathon Thermopylae and Salamis that saved democracy forever altering the history of Europe and the West In 2022 it will be 2 500 years since the final defeat of the invasion of Greece by Xerxes the Persian king This astonishing clash between East and West still has resonances in modern history and has left us with tales of heroic resistance in the face of seemingly hopeless odds The Harvest of War makes use of recent archaeological and geological discoveries in this thrilling and timely retelling of the story originally told by Herodotus the Father of History In 499 BC when the rich sophisticated Greek communities of Ionia on the western coast of modern Turkey rebel from their Persian overlord Darius I

Athens sends ships to help them Darius crushes the Greeks in a huge sea battle near Miletus and then invades Greece Standing alone against the powerful Persian army the soldiers of Athens newly democratic state a system which they have invented unexpectedly repel Darius s forces on the plains of Marathon After their victory the Athenians strike a rich vein of silver in their state owned mining district and decide to spend the windfall on building a fleet of state of the art warships Persia wants revenge The next Persian king Xerxes assembles a vast multinational force constructs a bridge of boats across the Hellespont digs a canal through the Mount Athos peninsula and bears down on Greece Trusting in their wooden walls the Athenians station their ships at Artemisium where they and the weather prevent the Persians landing forces in the rear of the land forces under the Spartan King Leonidas at the nearby pass of Thermopylae Xerxes s assault is a disastrous failure until a traitor shows him a mountain track that leads behind the Greeks Leonidas dismisses the Greek troops but remains in the pass with his 300 Spartan warriors where they are overwhelmed in an heroic last stand Athens is sacked by the Persians Democracy is hanging by a thread But the Athenians convince the Greek allies to fight on in the narrow waters by the island of Salamis Despite the heroism of the Persian female commander Artemisia the Persian fleet is destroyed The Harvest of War concludes by exploring the ideas that the decisive battles of Marathon Thermopylae and Salamis mark the beginnings of Western civilization itself and that Greece became the bulwark of the West representing the values of peace freedom and democracy in a region historically ravaged by instability and war

The Sea-Craft of Prehistory Paul Johnstone,2013-11-12

The nautical dimension of prehistory has not so far received the attention it deserves It is also too often assumed that early man was land bound yet this is demonstrably not the case Recent research has shown that man travelled and tracked over greater distances and at a much earlier date than has previously been thought possible Some of these facts can be explained only by man s mastery of water transport from earliest times This book by an acknowledged expert on prehistoric sea craft examines these problems looking at the new archaeological information in the light of the author s nautical knowledge The result is a detailed account of man s use of inland and ocean going craft from earliest times until the dawn of recorded history All forms of evidence are critically assessed from the vessels of Ancient Egypt to the Chinese junk to present of comprehensive picture of the vessels men have built through the ages and of the variety of ways in which they have been used

The Oxford Handbook of Engineering and Technology in the Classical World John Peter Oleson,2008-01-31

Nearly every aspect of daily life in the Mediterranean world and Europe during the florescence of the Greek and Roman cultures is relevant to the topics of engineering and technology This volume highlights both the accomplishments of the ancient societies and the remaining research problems and stimulates further progress in the history of ancient technology The subject matter of the book is the technological framework of the Greek and Roman cultures from ca 800 B C through ca A D 500 in the circum Mediterranean world and Northern Europe Each chapter discusses a technology or family of technologies from an analytical rather than descriptive point of view providing a critical summation of our present knowledge of the Greek

and Roman accomplishments in the technology concerned and the evolution of their technical capabilities over the chronological period Each presentation reviews the issues and recent contributions and defines the capacities and accomplishments of the technology in the context of the society that used it the available technological shelf and the resources consumed These studies introduce and synthesize the results of excavation or specialized studies The chapters are organized in sections progressing from sources written and representational to primary e g mining metallurgy agriculture and secondary e g woodworking glass production food preparation textile production and leather working production to technologies of social organization and interaction e g roads bridges ships harbors warfare and fortification and finally to studies of general social issues e g writing timekeeping measurement scientific instruments attitudes toward technology and innovation and the relevance of ethnographic methods to the study of classical technology The unrivalled breadth and depth of this volume make it the definitive reference work for students and academics across the spectrum of classical studies

Of Arms and Men Robert L.

O'Connell,1990-04-19 The appearance of the crossbow on the European battle field in A D 1100 as the weapon of choice for shooting down knights threatened the status quo of medieval chivalric fighting techniques By 1139 the Church had intervened outlawing the use of the crossbow among Christians With this edict arms control was born As Robert L O Connell reveals in this vividly written history of weapons in Western culture that first attempt at an arms control measure characterizes the complex and often paradoxical relationship between men and arms throughout the centuries In a sweeping narrative that ranges from prehistoric times to the nuclear age O Connell demonstrates how social and economic conditions determine the types of weapons and the tactics used in warfare and how in turn innovations in weapons technology often undercut social values He describes for instance how the invention of the gun required a redefinition of courage from aggressive ferocity to calmness under fire and how the machine gun in World War I so overthrew traditional notions of combat that Lord Kitchener exclaimed This isn t war The technology unleashed during the Great War radically altered our perceptions of ourselves as these new weapons made human qualities almost irrelevant in combat With the invention of the atomic bomb humanity itself became subservient to the weapons it had produced Of Arms and Men brilliantly integrates the evolution of politics weapons strategy and tactics into a coherent narrative one spiced with striking portraits of men in combat and penetrating insights into why men go to war The Oxford Handbook of Warfare in the Classical World Brian Campbell, Lawrence A.
