Ships Of The Victorian Navy:

Ships of the Victorian Navy Conrad Dixon, 1987 *The Late Victorian Navy* Roger Parkinson, 2008 A reappraisal of the late Victorian Navy the so called Dark Ages showing how the period was crucial to the emergence of new technology defined by steel and electricity In purely naval terms the period from 1889 to 1906 is often referred to and indeed passed over as the pre Dreadnought era merely a prelude to the lead up to the First World War and thus of relatively little importance it has therefore received little consideration from historians a gap which this book remedies by reviewing the late Victorian Navy from a radically new perspective It starts with the Great Near East crisis of 1878 and shows how its aftermath in the Carnarvon Commission and its evidence produced a profound shift in strategic thinking culminating in the Naval Defence Act of 1889 this evidence from the ship owners provides the definitive explanation of why the Victorian Navy gave up on convoy as the primary means of trade protection in wartime a fundamental question at the time The book also overturns many assumptions about the era especially the perception that the navy was weak and clearly shows that the 1870s and early 1880s brought in crucial technological developments that made the Dreadnought possible **Britain's Historic Ships** Paul Brown, 2016-10-06 The British Isles have a long rich and celebrated seafaring history stretching from the earliest times through the victories of Drake and Nelson the voyages of discovery of Cabot and Cook and the defence of the realm by vessels of all types in the present century Much of this history is recorded in literature and in museums but reaches its most tangible form in the large number of historical ships that have been preserved and are continually restored as monuments to a proud past This lavish book explores 20 of the most celebrated and accessible ships and offers a comprehensive history of each vessel s design construction active service and subsequent restoration and preservation Presented in order of each ship s launch date each entry is written by the acknowledged expert on a particular vessel gives full specification details and is sumptuously illustrated with contemporary photographs historical illustrations and a full set of scale plans In addition to the featured entries an appendix presents all of the necessary contact details and opening times where applicable The appendix also lists and provides details for other vessels of historical importance including a small number of working replicas such as the *Matthew* and the recently commissioned eighteenth century frigate *The Grand Turk* featured in the recent *Hornblower* television series Principal vessels include *Mary Rose* *HMS Victory* *HMS Trincomalee* *SS Great Britain* *Cutty Sark* *RRS Discovery* *HMS Warrior* *HMS Belfast* *HMV Britannia* *HMS Alliance* *HMS Cavalier* *Gypsy Moth IV* and *HMS Plymouth*

British Battleships of the Victorian Era Norman Friedman, 2017-11 *Naval Seamen's Women in Nineteenth-Century Britain* Melanie Holihead, 2024-11-19 Explores the lived experiences of the women of lower deck seamen in the nineteenth century British navy This book explores the lived experiences of the women the mothers sisters foster mothers of motherless children but above all the wives of lower deck seamen in the nineteenth century British navy It makes extensive use of the allotment scheme a system which enabled men to convey portions of their pay to dependants at home

The scheme had been devised by a Royal Navy worried by the adverse effect on naval manpower caused by experienced and mature sailors quitting the service in order to support loved ones suffering poverty on shore. Drawing also on civil parish and local data the book reveals hitherto unknown differences between naval and civilian patterns of nuptiality, family life, occupation and household structure. It illustrates the impact of naval breadwinners' long term absence in analyses of local migration, mutual support networks and clusterings of same ship families and to bring the picture to life it includes microhistories and stories of individual women. The book concludes that while the sailor's woman's allotted place in the popular imagination shifted with changing perceptions of sailors' reputation and standing, a constant otherness attached to women who chose marriage to long absent men and a life of necessary self reliance. *British Cruisers of the Victorian Era* Norman Friedman, 2012-10-29 This magnificent book reinforces Norman Friedman's unparalleled reputation as a peerless author of maritime topics. Australian Naval Institute. Gradually evolving from the masted steam frigates of the mid nineteenth century the first modern cruiser is not easy to define but for the sake of this book historian Norman Friedman takes as a starting point *Iris and Mercury* of 1875. They were the Royal Navy's first steel built warships, were designed primarily to be steamed rather than sailed and formed the basis of a line of succeeding cruiser classes. The story progresses with the last armored cruisers which were succeeded by the first battlecruisers, originally called armored cruisers and with the last Third Class Cruisers, *Topaze* class, all conceived before 1906. While dovetailing precisely with the author's previous book on British cruisers this one also includes the wartime experience of the earlier ships. The two central themes are cruisers for the fleet and cruisers for overseas operations including but not limited to trade protection. The distant waters aspect covers the belted cruisers which were nearly capital ships intended to deal with foreign second class battleships in the Far East. The main enemies contemplated during this period were France and Russia and the book includes British assessments of their strength and intentions with judgments as to how accurate those assessments were. Deeply researched, original in its analysis and full of striking insights this is another major contribution by Norman Friedman to the history of British warships. **The Navy List** Great Britain. Admiralty, 1911 **A Military History of Victoria, Australia 1803-1945** Bob Marmion, Andrew Dagg, 2024-02-06 This is a case study of possibly the most complex defensive system in Australia between 1803 and 1945. Defending Victoria was such a wide ranging and demanding task that the colony and later the state of Victoria was known as the Gibraltar of the South. This book fills a major gap in Australian military and naval history. Using Victoria as a case study the book shows how defence developed from the idea of a basic sand fort emanating from a fear of French invasion during the early 19th century into a complex modern three dimensional defensive system incorporating air, land and sea defences as well as radar and secret defence technology by the 1940s. The book is not a simple narration of facts and events but a substantial addition to Australian military history on account of its extensive analysis of the political, social, economic and technological factors which impacted defence over many decades of the 19th century. *The Cruise of Her Majesty's Ship*

"Bacchante", 1879-1882 Prince Albert Victor (Duke of Clarence and Avondale), 1886 **HMVS Nelson - Australia's Ship of the Line** Ian J Sellars, 2024-04-29 This book covers the story of HMS Nelson a British 120 gun First Rate Ship of the Line Launched in 1815 just in time for the long peace that followed the end of the Napoleonic Wars she spent her early years languishing in port only to be refitted for use as a training vessel in the nascent Australian colony of Victoria as HMVS Nelson She served the colony well being continuously modified along the way before being deregistered and sold off in the 1890 s Sadly for both the Nelson and fellow sailing warship enthusiasts there was no public movement to preserve her for posterity and she ended her days on a muddy riverbank in Tasmania where the last of her timbers were burned to retrieve the nails It was an inglorious end for the once great ship Fortunately her story has been documented well enough with many written references paintings drawings photographs and relics to help us recreate that story This book uses that material to present her story in a way not presented previously i e in chronological order and utilizing the many surviving photos to document her features and the story of her modifications **Our Sailors: Gallant Deeds of the British Navy during Victoria's Reign** William Henry Giles Kingston, 2019-12-19 In Our Sailors Gallant Deeds of the British Navy during Victoria's Reign William Henry Giles Kingston presents a vivid tapestry of naval adventures that encapsulate the heroism bravery and strategic prowess of British sailors during a pivotal era of maritime history Kingston employs a compelling narrative style rich with descriptive language and period specific dialogue which immerses readers in the sights and sounds of the Victorian naval world Through a series of episodes and character sketches he highlights significant battles naval innovations and the personal sacrifices of those who served all while contextualizing these events within the broader imperial ambitions of the British Empire William Henry Giles Kingston an accomplished author and advocate of maritime literature was deeply influenced by his experiences at sea and his interest in the British Navy's heritage Having spent time in maritime settings and observed the valor of sailors firsthand Kingston's writing is informed by a genuine respect for naval life making his insights resonate with authenticity Kingston's dedication to showcasing the valor of ordinary sailors reflects the Victorian ethos of heroism and duty aligning with a national narrative that celebrated imperial strength This book is a sparkling invitation to anyone intrigued by naval history Victorian literature or the tales of wartime courage Kingston's deft storytelling not only informs but also inspires reviving the forgotten heroes of the past in a manner both engaging and educational Our Sailors is a must read for those who wish to gain a deeper understanding of the British Navy's contributions during Queen Victoria's reign British Cruisers of the Victorian Era Norman Friedman, 2012-11-15 Gradually evolving from sailing frigates the first modern cruiser is not easy to define but this book starts with the earliest steam paddle warships covers the evolution of screw driven frigates corvettes and sloops and then the succeeding iron composite and steel hulled classes down to the last armoured cruisers *British Naval Policy in the Gladstone-Disraeli Era, 1866-1880* John Francis Beeler, 1997 Against a background of rapid industrialization and economic transformation the author describes the structure of British

naval administration in the Gladstone Disraeli era assesses the important reforms of that structure by the Liberal politician Hugh Childers and examines the strategic and operational contexts of the navy itself **Re-inventing the Ship** Don

Leggett,2016-04-08 Ships have histories that are interwoven with the human fabric of the maritime world In the long nineteenth century these histories revolved around the re invention of these once familiar objects in a period in which Britain became a major maritime power This multi disciplinary volume deploys different historical geographical cultural and literary perspectives to examine this transformation and to offer a series of interconnected considerations of maritime technology and culture in a period of significant and lasting change Its ten authors reveal the processes involved through the eyes and hands of a range of actors including naval architects dockyard workers commercial shipowners and Navy officers By locating the ship s re invention within the contexts of builders owners and users they illustrate the ways in which material elements as well as scientific artisan and seafaring ideas and practices were bound together in the construction of ships complex identities

Kelly Country A. Bertram Chandler,2016-01-28 There was a Ned Kelly He lived and breathed and fought for what he believed to be right according to the historians According to others he was no more than a bushranger a vicious criminal who paid the just penalty for his crimes on the gallows But what if he had lived What would have been the consequences for Australia and the world

A Treatise on the Stability of Ships Edward James Reed,2010-12-23 A detailed technical and scientific discussion first published in 1885 on how to ensure the stability of iron built ships The Royal Navy Since 1815 Eric Grove,2017-03-11 This book fills an important gap in the literature on the history of the modern Royal Navy Eric Grove provides the only up to date single authored short history of the service over the last two hundred years synthesizing the new work and latest research on the subject which has radically transformed our understanding of the story of British naval development Grove offers a concise and authoritative account of Royal Navy policy structure technical development and operations from the end of the Napoleonic Wars to the close of the eventful twentieth century Ideal for both specialist and general readers this essential introduction explains how the Royal Navy maintained its pre eminent position in the nineteenth century and how it coped with the more difficult problems of the twentieth in times of peace and war

Hurrah for the Life of a Sailor! John Winton,2023-01-09 An engrossing history of life in the Royal Navy at the height of its power comprehensive well documented and lucidly written The Daily Telegraph Perfect for fans of N A M Rodger Ben Wilson or Roy Lesley Adkins During the nineteenth century Great Britain ruled the waves But what was it like sailing aboard her ships Men and boys travelled across the oceans of the world in Her Majesty s ships from the snows of the Arctic to the malarial swamps of the tropics They fought the Queen s enemies on sea and land chased pirates and slavers and made contributions to the mapping of the world They experienced all the brutal conditions that Mother Nature could throw at them as well as the brutal punishments that were dealt out by their officers Yet life as a sailor in Nelson s navy was very different to that of a sailor at the beginning of the twentieth century with steam replacing sail and iron replacing wood John Winton

charts these changes as well as the reforms that took place over the century to give insight into how the life of sailor evolved during this period Hurrah for the Life of a Sailor draws upon a wide range of sources from sea ballads to Victorian melodramas and advertisements from admirals dispatches to sailors diaries to provide a comprehensive study of life on the lower deck in the nineteenth century Royal Navy Bulging with interesting facts and sidelights and ranging from Arctic rigours to the stoker s lot on the Road to Mandalay this is an excellent account of conditions afloat The Observer a glorious compilation One can only hope that the vast research which went into this work has planted the seeds for another Eastern Daily Press a fascinating work based on wide and meticulous research and well worth the study of any student of British naval history Navy International A fascinating record of life on the lower deck of the Victorian Navy enhanced by Mr Winton s gift of presenting Admiralty facts and figures jointly with extracts from comic songs and old salts narratives in a most readable and entertaining style Western Evening Herald *Shaping the Royal Navy* Don Leggett, 2016-05-16 The nineteenth century Royal Navy was transformed from a fleet of sailing wooden walls into a steam powered machine Britain s warships were her first line of defence and their transformation dominated political engineering and scientific discussions They were the products of engineering ingenuity political controversies naval ideologies and the fight for authority in nineteenth century Britain *Shaping the Royal Navy* provides the first cultural history of technology authority and the Royal Navy in the years of Pax Britannica It places the story firmly within the currents of British history to reconstruct the controversial and high profile nature of naval architecture The technological transformation of the Navy dominated the British government and engineering communities This book explores its history revealing how ship design became a modern science the ways that actors competed for authority within the British state and why the nature of naval power changed **Journal of the Royal Colonial Institute** Royal Colonial Institute (Great Britain), 1902
