*Shipwrecks of the Revolutionary & Napoleonic Eras* Terence Grocott, 1997 With fascinating insight into everyday conditions at sea in the years of the great French wars this unique and authoritative book covers more than 1 500 natural shipping disasters from the years 1793 to 1815 The day to day accidents of marine life are included as well as major disasters and the work provides an unusual perspective on the life of the seaman and the perils of seafaring in the age of sail *The Wreck of the Medusa* Jonathan Miles, 2008-10-16 A thrilling captivating account of the most famous shipwreck before the Titanic a tragedy that inspired an unforgettable masterpiece of Western art The Boston Globe In June 1816 the Medusa set sail Commanded by an incompetent captain the frigate ran aground off the desolate West African coast During the chaotic evacuation a privileged few claimed the lifeboats while 147 men and one woman were herded aboard a makeshift raft that was soon cut loose by the boats that had pledged to tow it to safety Those on the boats made it ashore and undertook a two hundred mile trek through the sweltering Sahara but conditions were far worse on the drifting raft Crazy parched and starving the diminishing band fell into mayhem When rescue arrived thirteen days later only fifteen were alive Among the handful of survivors were two men whose bestselling account of the maritime disaster scandalized Europe and inspired promising artist Theodore Gericault who threw himself into a study of the Medusa tragedy turning it into a vast canvas in his painting *The Raft of the Medusa* Drawing on contemporaneously published accounts and journals of survivors *The Wreck of the Medusa* is a captivating gem about art's relation to history Booklist and ultimately a thrilling read The Guardian

*Proceedings of the 2nd International Conference on Intelligent Technologies and Engineering Systems (ICITES2013)* Jengnan Juang, Cheng-Yi Chen, Cheng-Fu Yang, 2014-04-18 This book includes the original peer reviewed research papers from the conference Proceedings of the 2nd International Conference on Intelligent Technologies and Engineering Systems ICITES2013 which took place on December 12-14 2013 at Cheng Shiu University in Kaohsiung Taiwan Topics covered include laser technology wireless and mobile networking lean and agile manufacturing speech processing microwave dielectrics intelligent circuits and systems 3D graphics communications and structure dynamics and control *The Suffering Traveller and the Romantic Imagination* Carl Thompson, 2007-05-31 Carl Thompson explores the romance that can attach to the notion of suffering in travel and the importance of the persona of suffering traveller in the Romantic self-fashionings of figures such as Wordsworth and Byron Situating such self-fashionings in the context of the upsurge of tourism in the late eighteenth century he shows how the Romantics sought to differentiate themselves from mere tourists by following alternative models and alternative travel scripts in both their travelling and their travel writing In a rejection of the more conventional roles of picturesque tourist and Grand Tourist Romantic travellers often preferred to style themselves as heroic explorers oppressed and endangered mariners even shipwreck victims *The Suffering Traveller and the Romantic Imagination* accordingly returns to the sub-genres of Romantic era travel writing the shipwreck narrative the exploration

narrative the captivity narrative and the like that first kindled the Romantic fascination with these figures to consider the travel scripts seemingly enabled by this source material Paying particular attention to the narratives of shipwreck and maritime suffering that were a hugely popular part of Romantic era print culture and to the equally popular narrative of exploration the book considers firstly the examples traditions and conventions that trained Romantic travellers to think that misadventure as much as adventure could be a route to visionary experience and literary authority It then explores the political resonance that the figure of the suffering traveller could possess in this Revolutionary era before treating Wordsworth and Byron as especially influential examples of the misadventurous tendency in Romanticism In so doing *The Suffering Traveller and the Romantic Imagination* offers interesting new perspectives not only on British Romanticism and on travel writing of the Romantic era but also on many attitudes practices and typologies still current in travel and tourism

*Deep Distresses* Richard E. Matlak, 2003 *Deep Distresses* is a study of the intersecting family and professional vicissitudes that afflicted Wordsworth during the period of his greatest poetic productivity The negative national publicity over his mariner brother's death at sea is the focus of the family tragedy hostile reception to *Poems in Two Volumes* 1807 is the focus of professional duress Both topics become related through the intercession of the poet's patron Sir George Beaumont who attempts to ameliorate the family tragedy with money and his painting of *Peck Castle in a Storm* while hoping to groom Wordsworth for a place among the cultural elite of London In its attention to nineteenth century culture and business this study offers an entirely new context for reading and reinterpreting many of Wordsworth's major works from *Michael* through the major lyrics of *Poems in Two Volumes* and the latter books of *The Prelude* Richard E Matlak is a Professor of English and Director of the Center for Interdisciplinary and Special Studies at the College of the Holy Cross

A Cultural History of the Sea in the Age of Empire Margaret Cohen, 2023-02-09 Across the 19th century maritime globalization expanded at a hitherto unimaginable pace transforming transport and communications over the seas into oceanic networks at a planetary scale These networks shaped culture in its most expansive sense affecting seafaring warfare empire commerce communications passenger travel leisure and science Authors recover the sea experience of people and groups entangled with and yet neglected in an earlier generation of maritime history focused on conquest empire and knowledge Thus across a century when Britannia nominally ruled the waves military control emerges as both opportunistic harboring slavers as well as partial giving agency to mutineers and enslaved crew members including on the Royal Navy's own fleet the wreck of Arctic exploring voyages such as the Erebus and the Terror takes readers to PanInuit exploration over

sea ice around the Arctic circle colonial and mercantile transport in the Indian Ocean reveals the role of lascars the seafarers of color who for centuries had practiced these waters on the coasts of industrial nations the professional establishment of marine sciences depends on the pathbreaking contributions of female amateur naturalists As part of its revisionary aim this volume gives voice to the physical environment Thus we discover contrasting perspectives about this environment under threat today of European mariners for whom it was deadly and treacherous and for maritime Aborigines who lived in its shelter Considering literature and art as well as history authors further trace how the paradoxes of sea practice shape some of the most memorable ocean fantasies of the Western tradition fostering both a celebration of work and technology and a preservation of secular magic in a disenchanted world *Navigational Enterprises in Europe and its Empires, 1730-1850* Rebekah Higgitt, Richard Dunn, 2016-02-19 This book explores the development of navigation in the eighteenth and nineteenth centuries It examines the role of men of science seamen and practitioners across Europe and the realities of navigational practice showing that old and new methods were complementary not exclusive their use dependent on many competing factors Captain Cook's Merchant Ships Stephen Baines, 2015-08-03 While the story of Endeavour is widely known Captain Cook sailed with eight ships which began their lives as merchant vessels This detailed illustrated history tells the story of these vessels and the people who sailed in them In placing these ships and people in the personal political social financial scientific and religious contexts of their times this book provides a comprehensive and readable account of the long eighteenth century Using contemporary sources this gripping narrative fills a gap in Cook history and attempts to catch something of the exciting violent gossipy but largely untaught and unknown period through which these vessels and their people sailed literally and figuratively between the old world and the new Longitude by Wire Richard Stachurski, 2009 In this study Richard Stachurski chronicles the amazing tale of discoveries made by American scientists as they worked to solve the life threatening quandry faced by mariners of having accurate navigational charts and to develop a precise method of measuring longitude **Faith in the Fight** William James, 2003 For soldiers on both sides of the American Civil War religion was a great sustainer of morale The Naval History of Great Britain: 1805-1807 William James, 2002 William James's Naval History is one of the most valuable works in the English language on the operation of the Royal Navy during the French Revolutionary and Napoleonic Wars James corresponded widely with the survivors of the events he describes By carefully evaluating and balancing conflicting reports and testimonies he achieved an accuracy often lacking in later studies The original five volumes were published in 1822 to 1824 with a six volume edition appearing in 1826 Previously the work has been available only to scholars through specialist libraries This new hardcover edition with an introduction by the noted naval historian Andrew Lambert as well as an index for each volume provides both scholars and maritime enthusiasts an accessible and affordable edition of this important work Illustrated with charts diagrams and images the work remains an essential source for all those who are interested in the operation of the Royal Navy in this period
