Shipwrecks Of Isle Royale National Park The Archeological Survey:

Shipwrecks of Isle Royale National Park Daniel Lenihan, 1994 Within the boundaries of Isle Royale National Park lie the remains of some of this nation's most famous shipwrecks The America Emperor and Cox are only three of the significant treasures The National Park Service study of these wrecks was the template for the future work of the Submerged Cultural Resources Unit The study's archeological revelations had a broad impact on divers and shipwreck investigation but the limited press run kept it from general distribution Now the publishers of Lake Superior Magazine produce a popular edition to shed important light on this historical record This volume will be of immense interest to shipwreck enthusiasts divers researchers and historians

Submerged Cultural Resources Study Daniel Lenihan, 1987 Isle Royale Biosphere Reserve, 1985 *Isle Royale Biosphere Reserve: A bibliography of scientific studies*, 1985 Stories from the Wreckage

John Odin Jensen, 2019-04-19 Every shipwreck has a story that extends far beyond its tragic end The dramatic tales of disaster heroism and folly become even more compelling when viewed as junction points in history connecting to stories about the frontier the environment immigration politics technology and industry In *Stories from the Wreckage* John Odin Jensen examines a selection of Great Lakes shipwrecks of the wooden age for a deeper dive into this transformative chapter of maritime history He mines the archeological evidence and historic record to show how their tragic ends fit in with the larger narrative of Midwestern history Featuring the underwater photography of maritime archeologist Tamara Thomsen this vibrant volume is a must have for shipping enthusiasts as well as anyone interested in the power of water to shape history

Southwest Cultural Resources Center Professional Papers, 1983 **Historical Archeology of Tourism in Yellowstone National Park** Annalies Corbin, Matthew Russell, 2009-12-01 Far too often in the field of archeology the wheel of understanding and insight has a narrow focus that fails to recognize critical studies Crucial information regarding pivotal archeological investigations at a variety of sites worldwide is extremely difficult if not impossible to obtain The majority of archeological analysis and reporting at best has limited publication The majority of archeological reports are rarely seen and when published are often only in obscure or out of print journals the reports are almost as hard to find as the archeological sites themselves There is a desperate need to pull seminal archeological writings together into single issue or thematic volumes It is the intention of this series *When the Land Meets the Sea* to address this problem as it relates to archeological work that encompasses both terrestrial and underwater archeology on a single site or on a collection of related sites For example despite the fact that we know that bays and waterways structured historic settlement there is a lack of archeological literature that looks at both the nautical and terrestrial signatures of watersheds in connection to historic culture Iron and Steamship Archaeology Mike McCarthy, 2000 In the early 1980s the author was asked to investigate the newly discovered wreck of the Xantho an iron screw steamship active off the Australian coast during the period 1848 to 1872 and to develop a strategy to stop the looting that was occurring at the site This relatively straightforward assignment turned into a long term

Patrick Labadie,1989 *International Handbook of Underwater Archaeology* Carol V. Ruppe,Jane F. Barstad,2013-11-11 Although underwater archaeology has assumed its rightful place as an important subdiscipline in the field the published literature has not kept pace with the rapid increase in the number of both prehistoric and historic underwater sites The editors have assembled an internationally distinguished roster of contributors to fill this gap In addition to both geographical and topical approaches the chapters also focus on technology law public and private institutional roles and goals and the research and development of future technologies and public programs *Iron and Steamship Archaeology* Michael McCarthy,2005-12-08 In the early 1980s the author was asked to investigate the newly discovered wreck of the Xantho an iron screw steamship active off the Australian coast during the period 1848 to 1872 and to develop a strategy to stop the looting that was occurring at the site This relatively straightforward assignment turned into a long term research program for applying maritime archaeology to the conservation of iron hulled wrecks **Too Much Sea for Their Decks** Michael Schumacher,2023-07-18 Shipwreck stories from along Minnesota s north shore of Lake Superior and Isle Royale Against the backdrop of the extraordinary history of Great Lakes shipping Too Much Sea for Their Decks chronicles shipwrecked schooners wooden freighters early steel hulled steamers whalebacks and bulk carriers some well known some unknown or forgotten all lost in the frigid waters of Lake Superior Included are compelling accounts of vessels destined for infamy such as that of the Stranger a slender wooden schooner swallowed by the lake in 1875 the sailors bodies never recovered nor the wreckage ever found an account of the whaleback Wilson rammed by a large commercial freighter in broad daylight and in calm seas sinking before many on board could escape and the mysterious loss of the Kamloops a package freighter that went down in a storm and whose sailors were found on the Isle Royale the following spring having escaped the wreck only to die of exposure on the island Then there is the ill fated Steinbrenner plagued by bad luck from the time of her construction when she was nearly destroyed by fire to her eventual and tragic sinking in 1953 These tales and more represent loss of life and property and are haunting stories of brave and heroic crews Arranged chronologically and presented in three sections covering Minnesota s North Shore Isle Royale and the three biggest storms in Minnesota s Great Lakes history the 1905 Mataafa storm the 1913 hurricane on the lakes and the 1940 Armistice Day storm each shipwreck documented within these pages provides a piece to the history of shipping on Lake Superior *Submerged: Adventures of America's Most Elite Underwater Archeology Team* Daniel Lenihan,2010-07-09 Adventure writing at its best Submerged is the first book on the remarkable story of America s elite underwater archeology team Daniel Lenihan recounts experiences from his 25 years as founder and head of the award winning Submerged Cultural Resources Unit SCRUC team of the U S National Park Service world class divers talented archeologists historians and photographers charged with the mission of surveying mapping investigating and protecting shipwrecks and sites that constitute America s sunken heritage In
