*Blood on Our Hands* Nicolas J. S. Davies, 2010 America's crimes against the people of Iraq were shielded from public scrutiny by what senior U S military officers called the quiet disguised media free approach developed in Central America in the 1980s The echo chamber of the Western corporate media fleshed out the Pentagon's propaganda to create a virtual Iraq in the minds of the public feeding a political discourse that bore no relation to the real war it was waging the country it was destroying or the lives of its inhabitants Davies takes apart the wall of propaganda surrounding one of history's most significant military disasters and most serious international crimes non-existent WMDs the equally fictitious centuries old sectarian blood feud in Iraq and the secrecy of the dirty war waged by American led death squads He places each aspect of the war within a context of illegal aggression hostile military occupation and popular resistance to uncover the brutal reality of a war that has probably killed at least a million people From publisher description

*Evaluation and Stance in War News* Louann Haarman, Linda Lombardo, 2011-10-20 In a world in which advanced communication technologies have made the reporting of disasters and conflicts also in the form of breaking news a familiar and normalised activity the information we present here about television news reporting of the 2003 war in Iraq has implications that go beyond this particular conflict *Evaluation and Stance in War News* functions as a tool kit for the critical evaluation of language in the news both as raw data in need of interpretation and as carefully packaged products of information management in need of unpacking The chapters offer an array of theoretical and empirical instruments for revealing identifying sifting weighing and connecting patterns of language use that construct messages These messages carry with them world views and value systems that can either create an ever wider divide or serve to build bridges between peoples and countries

***American Shame*** Myra Mendible, 2016-03-29 Essays examining the role of shame as an American cultural practice and how public shaming enforces conformity and group coherence On any given day in America's news cycle stories and images of disgraced politicians and celebrities solicit our moral indignation their misdeeds fueling a lucrative economy of shame and scandal Shame is one of the most coercive painful and intriguing of human emotions Only in recent years has interest in shame extended beyond a focus on the subjective experience of this emotion and its psychological effects The essays collected here consider the role of shame as cultural practice and examine ways that public shaming practices enforce conformity and group coherence Addressing abortion mental illness suicide immigration and body image among other issues this volume calls attention to the ways shaming

practices create and police social boundaries how shaming speech is endorsed judged or challenged by various groups and the distinct ways that shame is encoded and embodied in a nation that prides itself on individualism diversity and exceptionalism Examining shame through a prism of race sexuality ethnicity and gender these provocative essays offer a broader understanding of how America's discourse of shame helps to define its people as citizens spectators consumers and moral actors An eclectic anthology it offers the readers more than one argument and perspective which makes the volume itself lively and rich Ron Scapp coeditor of *Fashion Statements On Style Appearance and Reality* *Strategic Terror* Beau Grosscup, 2013-07-18 Presenting a global history of aerial bombardment this book shows how certain European powers initiated aerial bombardment of civilians after World War I and how it was an instrument of choice in World War II Beau Grosscup shows that such methods used initially as a means of terrorizing native populations in Africa and the Middle East have become the primary form of terrorism in more recent decades While such strategic terror is not classed as terrorism in the West this reflects an unwillingness to confront the human costs and immorality of aerial bombardment Grosscup argues that if terrorism is to be diminished the role of aerial bombing in sustaining global violence must be recognized *Icons of War and Terror* John Tulloch, R. Warwick Blood, 2012-07-26 This book explores the ideas of key thinkers and media practitioners who have examined images and icons of war and terror *Icons of War and Terror* explores theories of iconic images of war and terror not as received pieties but as challenging uncertainties in doing so it engages with both critical discourse and conventional image making The authors draw on these theories to re-investigate the media global context of some of the most iconic representations of war and terror in the international risk society Among these photojournalistic images are Nick Ut's Pulitzer Prize winning photograph of a naked girl Kim Phuc running burned from a napalm attack in Vietnam in June 1972 a quintessential ethnic cleansing image of massacred Kosovar Albanian villagers at Racak on January 15 1999 which finally propelled a hesitant Western alliance into the first of the new humanitarian wars Luis Simco's photograph of marine James Blake Miller the Marlboro Man at Fallujah Iraq 2004 the iconic toppling of the World Trade Centre towers in New York by planes on September 11 2001 and the Falling Man icon one of the most controversial images of 9/11 the image of one of the authors of this book as close up victim of the 7/7 terrorist attack on London which the media quickly labelled iconic This book will be of great interest to students of media and war sociology communications studies cultural studies terrorism studies and security studies in general **Southwestern Mass Communication Journal**, 2003
