## Shock Awe:

*Strategic Terror* Beau Grosscup, 2013-07-18 Presenting a global history of aerial bombardment this book shows how certain European powers initiated aerial bombardment of civilians after World War I and how it was an instrument of choice in World War II Beau Grosscup shows that such methods used initially as a means of terrorizing native populations in Africa and the Middle East have become the primary form of terrorism in more recent decades While such strategic terror is not classed as terrorism in the West this reflects an unwillingness to confront the human costs and immorality of aerial bombardment Grosscup argues that if terrorism is to be diminished the role of aerial bombing in sustaining global violence must be recognized *Air Force Magazine*, 2003 *The Discourse Trap and the US Military* J. Michaels, 2013-03-19 This book proposes the idea of a discourse trap in which the discourses and associated terminology devised for political or military reasons can entrap policymakers by motivating or constraining their actions *Discounting Life* Jothie Rajah, 2022-11-03 Demonstrates necropolitical law's cultural disseminations to show how for Americans and the world life is discounted undermining rule of law **War Made Invisible** Norman Solomon, 2024-09-10 With a new preface by the author on the Gaza war An unflinching exposé of the hidden costs of American war making written with an immense and rare humanity Naomi Klein by one of our premier political analysts Every election cycle candidates across the political spectrum repudiate what has become one of the most consequential and enduring components of American foreign policy the forever war Yet once the ballots have been cast and the camera crews go home the American war machine chugs along in almost complete obscurity The journalist and political analyst Norman Solomon's *War Made Invisible* is a gripping and painful study Noam Chomsky of the mechanisms behind our invisible but perpetual national state of war From ever compliant journalists serving as little more than stenographers for the Pentagon to futuristic military technology horrifying in its destructive power that makes dropping a bomb or pulling the trigger on a drone strike more of an abstraction than a moral calculation Solomon's staggeringly important intervention Naomi Klein exposes the profoundly human consequences at home and abroad of the bipartisan commitment to war making In an era of increasing global instability in which it is all too easy to succumb to despair Solomon pierces the manufactured fog of war and casts sunlight the best disinfectant on the propaganda that fuels perpetual war Amy Goodman Now in paperback with a new preface by the author on the Gaza war Solomon's incisive ever timely analysis provides the fresh and profound clarity that our country desperately needs Daniel Ellsberg now more than ever *America and the Misshaping of a New World Order* Giles Gunn, Carl Gutiérrez-Jones, 2010-06 An important and telling critique of the myth and rhetoric of contemporary American expansionism and grand strategy What is particularly original about these essays and unusually rare in studies of American foreign policy is their provocative combination of cultural and literary analysis with a subtle appreciation of the historical transformation of political forms and principles of world order Stephen Gill author of *Power and Resistance in the New World Order* **America and the World: The Double**

**Bind** Kevin P. Clements, 2017-07-05 As the world's first democracy with a written constitution and Bill of Rights the United States has stood for global aspirations toward democratic liberty equality and solidarity since its formation in 1776 However as it developed into an empire by the late nineteenth century the United States also has threatened the liberties of other peoples including Native Americans Hawaiians Latin Americans Asians and Africans The American role in world affairs has long been polarized around two conflicting images and strategies In the name of counter terrorism the Bush administration pursued a largely unilateralist policy in the Middle East and elsewhere Yet in the name of protecting its national sovereignty the United States also has rejected most of the recent multilateral treaties that strive to contain violence by fortifying the rule of international law A unilateralist strategy also goes largely against the U S postwar multilateralism which established the United Nations and its specialized agencies This volume explores these contradictions Contributors include Kevin P Clements Tom Coffman Audrey Kitagawa Jeffrey F Addicott Steven Zunes Vivien Stewart Kathy Ferguson Phyllis Turnbull Bilveer Singh Ibrahim G Aoude Richard Falk Ann Wright Beverley Kleevers Linda Groff George Kent Majid Tehranian Mohammad Ali Terrence Paupp Gillian Young Mihay Simai and David Krieger The annual publication Peace Policy sponsored by the Toda Institute for Global Peace and Policy Research is now in its ninth year It is dedicated to providing a forum for the discussion of all issues concerning peace policy and the rights and responsibilities of global citizenship This latest volume fulfills that commitment

*Interrogating Trauma* Mick Broderick, Antonio Traverso, 2013-09-27 Throughout the past century traumatic experiences have been re enacted frequently by evolving media and art forms Now there is a significant body of theory across academic disciplines focused on the representation of cataclysmic European and US historical events However less critical attention has been devoted to the representation of havoc outside the West even though depictions of Third World disasters saturate contemporary media and art around the globe This book considers traumatic histories internationally in a broad range of creative arts and visual media representations Deploying diverse applications of the conventional theories of trauma it examines the theoretical limitations at the same time as considering alternative methodologies *Interrogating Trauma* is concerned with the examination of the concept of trauma and how it is often unproblematically used to theorise the cultural representation of disaster and atrocity It offers a theorisation of trauma in order to reappraise the relationship between cultural representation and the socio historical processes which are marked by violence conflict and suffering This book was published as a special issue of *Continuum Journal of Media and Cultural Studies*
