## **Shock Engagement:**

**The Shock Engagement** Ally Blake, 2014-08-15 Emma's colleagues had been shocked and delighted she was marrying the oh so successful and gorgeous dot com millionaire Harry Buchanan. Only the engagement was purely for convenience. It would help Harry get out of the excruciating hunkiest male competition and in return he would help save her job. But Emma had dreamed of marrying Harry for years and so acting engaged was practically torture. Kissing him. Dancing with him. Especially as the truth was she was falling head over heels in love with him.

**Operator's Manual for Multiple Integrated Laser Engagement System (MILES) Indicator, Simulator System, Laser Target Interface Device (LTID) (NSN 1265-01-221-9438).**, 1991 **Patient Engagement** Guendalina Graffigna, Serena Barelli, Stefano

Triberti, 2016-01-01 Patient engagement should be envisaged as a key priority today to innovate healthcare services delivery and to make it more effective and sustainable. The experience of engagement is a key qualifier of the exchange between the demand i.e. citizens/patients and the supply process of healthcare services. To understand and detect the strategic levers that sustain a good quality of patients' engagement may thus allow not only to improve clinical outcomes but also to increase patients' satisfaction and to reduce the organizational costs of the delivery of services. By assuming a relational marketing perspective, the book offers practical insights about the developmental process of patients' engagement by suggesting concrete tools for assessing the levels of patients' engagement and strategies to sustain it. Crucial resources to implement these strategies are also the new technologies that should be 1) implemented according to precise guidelines and 2) designed according to a user-centered design process. Furthermore, the book describes possible fields of patients' engagement application by describing the best practices and experiences matured in different fields.

**When women hold local office: Women's representation and political engagement amid conflict and climate shocks across Africa** Kosec, Katrina, Kyle, Jordan, Takeshima, Hiroyuki, 2024-01-26 One argument in favor of quotas for women's representation in political office is that female politicians can break down gender barriers more broadly inspiring individual women to participate politically. In many African countries where gender gaps in political participation are large, identifying effective strategies to reduce gender imbalances is critical. Recurring climate and conflict shocks are making this task more urgent to ensure that women's voices are included when designing responses to those shocks and as it is possible that climate and conflict shocks could widen participation gaps. Using data from 13 African countries on women's representation in subnational political offices as well as survey data on individual political participation, we find first that women's representation in local office is associated with higher political participation by individual women but not by men in this context. Second, using geo-referenced data on shocks, we show that violent conflict shocks in particular lower political participation for everyone, although the effects are stronger for men compared to women in the 12-month frame that we consider here. Third, we find that when women leaders hold local political office, the negative effects of conflict shocks on political participation are

mitigated for women These analyses offer important new insights into the relationship between women s political representation and women s individual political activity within the context of shocks      **Undergraduate Student**

**Engagement** Zhe Zhang,Olwen McNamara,2018-07-31 This book focuses on undergraduate student engagement in China and the UK It offers an innovative perspective on this aspect which although pervasive is not always acknowledged by its users to be complex and multidimensional in nature firmly rooted in cultural social and disciplinary norms and difficult to measure Competition within the global higher education market has become increasingly intense amongst universities and the higher education sector in China currently the largest source of international students is beginning to compete strongly for its home market Against this consumerist background student engagement with its close relation to positive learning outcomes is increasingly receiving attention from higher education managers and researchers who seek to improve the quality of their products The research study on which the book is based draws on three courses two in China and one in the UK It offers a binary perspective across two very different cultures Western and Confucian and two very different subject areas Chinese language and mathematics The study employs a mixed methods design and develops a conceptual framework derived from statistical and thematic analysis An original theoretical lens combining a bioecological perspective Bronfenbrenner and a sociocultural one Holland et al s Figured Worlds adds further interpretive power to help understand the construct of student engagement      *Student Engagement in Higher Education* Stephen John Quaye,Shaun R.
