 Shavit,2009-11-01 Since its emergence in the seventeenth century as a distinctive cultural system children s literature has  
 had a culturally inferior status resulting from its existence in a netherworld between the literary system and the educational  
 system In addition to its official readership children it has to be approved of by adults Writers for children explains Zohar  
 Shavit are constrained to respond to these multiple systems of often mutually contradictory demands Most writers do not try  
 to bypass these constraints but accept them as a framework for their work In the most extreme cases an author may ignore  
 one segment of the readership If the adult reader is ignored the writer risks rejection as is the case of popular literature If  
 the writer utilizes the child as a pseudo addressee in order to appeal to an adult audience the result can be what Shavit terms  
 an ambivalent work Shavit analyzes the conventions and the moral aims that have structured children s literature from the  
 fairy tales collected and reworked by Charles Perrault and the Brothers Grimm in particular Little Red Riding Hood through  
 the complex manipulations of Lewis Carroll in Alice s Adventures in Wonderland to the subversion of the genre s canonical  
 requirements in the chapbooks of the eighteenth century and in the formulaic Nancy Drew books of the twentieth century  
 Throughout her study Shavit explores not only how society has shaped children s literature but also how society has been  
 reflected in the literary works it produces for its children
