Cheyfitz,2017-02-10 The Disinformation Age beginning in the present and going back to the American colonial period constructs an original historical explanation for the current political crisis and the reasons the two major political parties cannot address it effectively Commentators inside and outside academia have described this crisis with various terms income inequality the disappearance of the middle class the collapse of the two party system and the emergence of a corporate oligarchy While this book uses such terminology it uniquely provides a unifying explanation for the current state of the union

by analyzing the seismic rupture of political rhetoric from political reality used within discussion of these issues In advancing this analysis the book provides a term for this rupture Disinformation which it defines not as planned propaganda but as the inevitable failure of the language of American Exceptionalism to correspond to actual history even as the two major political parties continue to deploy this language Further in its final chapter this book provides a way out of this political cul de sac what it terms the limits of capitalism s imagination by thinking from a different place that is located in the theory and practice of the Indigenous peoples of the Americas
