human survival as incest threatens the species and patterns of human social organization Drawing upon the rich legacy of
theory empirical data and speculation about the origins of the incest taboo this book develops a new explanation for not only
the emergence of the taboo in hominid and human evolutionary history but also for the varying strength of the taboo for the
incestuous dyads of the nuclear family the different rates of incest of these dyads and the dramatic differences the
psychological pathology incest has on its younger victims Synthesizing findings from biology sociobiology neurology

past decade Building the City of God Harold Holt,1928 **The Kinship Wars** William Y. Adams,2018-01-27 In the later
nineteenth century a number of learned scholars discovered independently of one another some basic principles of human
kinship organization that had previously gone unrecognized They noticed the existence of matrilineal descent reckoning
descent and inheritance through the mother rather than the father exogamy the necessity of marrying outside ones group
and the principle of kin group property owning With evolution the hottest intellectual topic of the times the scholars viewed
their ideas as critical to a general understanding of human social development They proposed sweeping evolutionary
schemes based on their discoveries But the scholars disagreed on many points including whether matrilineal descent was the
earliest form of human kinship reckoning As time went on numerous other scholars entered the debate which they saw as key
to understanding human social evolution From early theories that had little ethnographic grounding to later ideas that relied
on a fieldwork revolution led by intrepid ethnographers who studied the cultures of tribal peoples around the world The
Kinship Wars reveals that the issue of kinship was a good deal more complex than theorists first supposed **Encyclopedia**

the terms concepts and issues of social and cultural anthropology International in authorship and coverage this accessible
work is fully indexed and cross referenced Irregular Connections Andrew P. Lyons,Harriet Lyons,2004-12-01 Irregular
Connections traces the anthropological study of sex from the eighteenth century to the present focusing primarily on social
and cultural anthropology and the work done by researchers in North America and Great Britain Andrew P and Harriet D
Lyons argue that the sexuality of those whom anthropologists studied has been conscripted into Western discourses about
sex including debates about prostitution homosexuality divorce premarital relations and hierarchies of gender class and race
Because sex is the most private of activities and often carries a high emotional charge it is peculiarly difficult to investigate
At times such as the late 1920s and the last decade of the twentieth century sexuality has been a central concern of
anthropologists and focal in their theoretical formulations At other times the study of sexuality has been marginalized The
anthropology of sex has sometimes been one of the main faces that anthropology presented to the public often causing
resentment within the discipline Andrew P Lyons is an associate professor of anthropology at Wilfrid Laurier University

Harriet D Lyons is an associate professor of anthropology at the University of Waterloo
