Short History Of The Far East:

A Short History of the Far East Kenneth Scott Latourette, 1970 *A Short History of the Far East* Kenneth Scott Latourette, 1957 **Books on Asia from the Near East to the Far East** Eleazar Birnbaum, 1971-12-15 This is a selected annotated list of some 2 000 books on Asia in English and French currently in print chosen with the aim of providing a long term historical perspective for the general reader The list is presented in four main parts Asia as a whole the Islamic world India South and Southeast Asia the Far East Subdivisions cover such topics as general and reference works history social science and law history of literature literature in translation religion and ideas arts crafts architecture and science and the lands in modern times *On the Frontiers of History* Tessa Morris-Suzuki, 2020-08-17 Why is it that we so readily accept the boundary lines drawn around nations or around regions like Asia as though they were natural and self evident when in fact they are so mutable and often so very arbitrary What happens to people not only when the borders they seek to cross become heavily guarded but also when new borders are drawn straight through the middle of their lives The essays in this book address these questions by starting from small places on the borderlands of East Asia and looking outwards from the small towards the large asking what these minor pasts tell us about the grand narratives of history In the process it takes the reader on a journey from Renaissance European visions of Tartary through nineteenth century racial theorising imperial cartography and indigenous experiences of modernity to contemporary debates about Big History in an age of environmental crisis *A Short History of the Middle East* George E. Kirk, 2016-11-10 This book first published in 1948 grew out of a series of lectures delivered since the War at the Middle East Centre for Arab Studies to British students who required a solid grounding in Middle East history and politics to assist in fitting them for active careers in the region These lectures by a leading specialist on Middle Eastern history generated such interest that they were adapted and published in book form for a wider reading public The book forms a comprehensive introduction to the history of the Middle East **Sources in Modern East Asian History and Politics , A Short History of Sino-Soviet Relations, 1917-1991** Zhihua Shen, 2019-10-31 Drawing on the rich trove of recently declassified Russian and Chinese archival materials this history of Sino Soviet relations in the 20th century sheds new light on key events during this period It offers fresh insights into the role of ideology and national interests in the evolution of the complex and turbulent relationship between not just the two countries but also their respective Communist Parties The chapters on the normalization of bilateral ties provide an in depth analysis of divisions in the socialist camp that culminated in both its collapse and the disintegration of the Soviet Union The book argues that 20th century Sino Soviet relations reflected both long standing and emerging political and geopolitical challenges facing members of the Cold War socialist camp in particular tensions between the ideal of internationalism and national aspirations between commitment to the principle of sovereignty and commitment to that of equality in international relations and between inter party relations and inter state relations This makes for a valuable addition to the reading lists of all those interested in the

development of the relationship between two of the world's most important countries

A Short History of the Twentieth Century John Lukacs, 2013-10-07 The great themes woven through John Lukacs's spirited concise history of the twentieth century are inseparable from the author's own intellectual preoccupations: the fading of liberalism, the rise of populism and nationalism, the achievements and dangers of technology, the continuing democratization of the globe and the limitations of knowledge.

World history from early times to A.D. 2000 B.V. Rao, 2012-01-01 Asia in the past nurtured great civilisations and cultures, some of which withstood the onslaughts of the mighty West. After suffering from the evils of colonial rule, Asia today is poised to occupy the centre stage of the world arena, with India, China and Japan playing leading roles. In this context, it is all the more necessary for college and university students in Asia and the West to acquaint themselves with the history of Asia. Hence this book. The book is different from others of this genre as it connects the ancient and medieval Asia with the modern world. It deals with the history of each country in its geographical setting, with the interaction and impact of neighbouring countries. Early migrations, settlements, formation of kingdoms and empires, socio-economic aspects of Islamic conquests and the advent of Western powers are all accounted for. The modern period up to 2004 is treated in a detailed manner, covering topics like colonisation, impact of Western civilisation, the rise of nationalism and the achievement of independence. The current history highlights subversion of democracies, ushering in of military rule, ethnic conflicts, movements for the restoration of democracy, oppression of minorities, economic issues, nuclear proliferation and the war on terror, all in a fascinating manner, with maps, bibliography and an index to stimulate reader's interest.

Asia Milton W. Meyer, 2000-01-01 This comprehensive introduction to Asia offers readers a clear overview of the continent from ancient times to the present.

A Short History of the World H. G. Wells, 2000 A Short History of the World is a period piece, non-fictional historic work. The book was largely inspired by Wells's earlier 1919 work *The Outline of History*. It summarises the scientific knowledge of the time regarding the history of Earth and life and begins with its origins; it goes on to explain the development of the Earth and life on Earth, reaching primitive thought and the development of humankind from the Cradle of Civilisation.

The present book, *History of Asia*, is different from other books of this genre as it connects the ancient and medieval with the modern. It deals with the account of each country in its geographical setting, highlighting those incidents in neighbouring countries which have had some impact upon it. The ancient and medieval

periods cover topics like migration early settlements formation of kingdoms and empires socio economic matters Islamic penetrations and the advent of Western powers The modern period is treated in great detail especially matters like colonisation impact of Western civilization the rise of nationalism and the gaining of independence following the Second World War Current history which includes aspects like subversion of democracies the ushering in of military rule ethnic conflicts movements for the restoration of democracy oppression of minorities economic issues and the possibility of nuclear war right up to the end of the millennium has been dealt with in a fascinating way with maps and a bibliography to stimulate the reader's interest
