**A Short History of the Guyanese People** Vere T. Daly, 1966      *Guyana, 1838-1985* Steve Garner, 2007 This book traces the creation of ethnic groups in nineteenth century Guyana and its ultimate impact on the colony's political constituencies as it moved to independence The construction of the nation in the postcolonial period is approached through an analysis of cricket trade unions and women traders in the late 1970s and early 1980s The author argues that ethnicity as a historical relationship can be understood as a social experience if it is viewed as part of a set of overlapping identities which include class and gender It also contends that ethnicity in Guyana was created in colonial times and deployed as a tool for dominance which has reconfigured itself to function effectively in postcolonial times      General History of the Caribbean Higman, B.W., UNESCO, 1995-06-21 This volume looks at the ways historians have written the history of the region depending upon their methods of interpretation and differing styles of communicating their findings The chapters discussing methodology are followed by studies of particular themes of historiography The second half of the volume describes the writing of history in the individual territories taking into account changes in society economy and political structure The final section is a full and detailed bibliography serving not only as a guide to the volume but also as an invaluable reference for the General History of the Caribbean as a whole      **The Guyana Story** Odeen Ishmael, 2013-02-28 The Guyana Story From Earliest Times to Independence traces the country's history from thousands of years ago when the first Amerindian groups began to settle on the Guyana territory It examines the period of early European exploration leading to Dutch colonization the forcible introduction of African slaves to work on cotton and sugar plantations the effects of European wars and the final ceding of the territory to the British who ruled it as their colony until they finally granted it independence in 1966 The book also tells of Indian Chinese and Portuguese indentured immigration and shows how the cultural interrelationships among the various ethnic groups introduced newer forms of conflict but also brought about cooperation in the struggles of the workers for better working and living conditions The final part describes the roles of the political leaders who arose from among these ethnic groups from the late 1940s and began the political struggle against colonialism and the demand for independence This struggle led to political turbulence in the 1950s and early 1960s when the country was caught in the crosshairs of the cold war resulting in joint British American devious actions that undermined a democratically elected pro socialist government and deliberately delayed independence for the country until a government friendly to their international interests came to power      **A Short History of the Guyanese People; 3rd Repr** Vere T. Daly, 1980      **Twenty Years of the Journal of Historical Sociology** Yoke-Sum Wong, Derek Sayer, 2009-03-23 Over the last twenty years the Journal of Historical Sociology has redefined what historical sociology can be These essays by internationally distinguished historians sociologists anthropologists and geographers bring together the very best of the JHS Volume 1 focuses on the British state Volume 2 on the journal's wider interdisciplinary challenges The second in a two volume anthology representing the best articles published
